APPORTIONMENT ORDER.

No. 59T.R.—The 27th April 1920.—Under section 114 of the Bengal Tenancy Act (Act VIII of 1885), the Governor in Council has determined that in police-stations Raipur, Simlapal, Khatra, Indpore, Raniband, Chatna, in the district of Bankura, where the preparation of a record-of-rights has been undertaken under notification No. 1043T.R., dated the 12th September 1917, the landlords' and tenants' share of cost for the survey and the preparation of record-of-rights, including the estimated cost of maintenance of boundary marks for a period of fifteen years shall be apportioned and recovered as specified below:—

Bankura.

(1) A rate of 14 annas per acre shall be levied on all cultivated lands and a rate of 5 annas per acre on all lands classed as jungle and waste.

Common lands such as roads, streams, burning ghats shall be excluded from assessment.

(2) Of the 14 annas rate, raiyats and all persons holding non-agricultural tenancies shall pay 5 annas and thus landlords of all grades together pay 9 annas per acre.

(3) The whole of the 5 annas rate for lands classed as jungle and waste shall be borne by the landlords.

(4) Landlords shall pay the raiyats' share for lands in their khas possession and raiyats shall pay the full raiyati rate for lands covered by their holdings.

(5) As between the different grades of landlords the landlords' share shall be apportioned thus—

(*a*) Permanent tenureholders whose rent or rate of rent is fixed in perpetuity shall pay their own share of cost and that of landlords superior to them.

(*b*) Other permanent tenureholders and temporary tenureholders whose lease has over 15 years to run shall pay three-fourths of the landlords' share and their landlords shall pay the remaining one-fourth.

(*c*) Temporary tenureholders whose lease has 15 years to run shall pay fifteenth-sixteenths of the share they would pay in accordance with (*b*) above if they were permanent tenureholders and so on proportionately according to the number of years of the lease to run.

(*d*) Temporary tenureholders who do not hold on a lease or for a fixed term shall pay half of the landlord's share.

Explanation.—The calculation shall be made from the lowest grade of landlords immediately above the raiyats. The period for which the lease of the tenure or the undertenure is to run is to be reckoned in each case from the close of the agricultural year in which the record is finally published.

(6) Rent-free holders whether of the degree of the raiyat or landlord shall pay the whole of landlord's share for their lands.

7 (*a*) All under-raiyats with right of occupancy shall pay at the rate of 2 annas and 6 pies per acre for the land in their possession.

If the 15th falls on a Saturday or Sunday, the examination will be held on the following Monday. If the 15th falls on or during the course of any gazetted Government holiday or period of holidays, the examination will be held on the first Monday following such gazetted holiday or period of holidays.

4. Sub-Assistant Surgeons are liable to pass the professional examination before they can be promoted from the 4th to the 3rd and from the 3rd to the 2nd grade. They are permitted to appear for these examinations at any time during the quinquennial period spent in the 4th and 3rd grades, respectively ; but promotion on passing will have effect from the dates on which they shall have completed five years' service in the lower grade. If a Sub-Assistant Surgeon fails to pass the professional examination within the quinquennial period his promotion will have effect from the date on which he passes the examination. There is no examination for promotion from the 2nd to the 1st grade and from the 1st grade to the senior grade, but each Sub-Assistant Surgeon in the 2nd grade is required to pass a period of five years in that grade before promotion to the 1st grade, while promotion from the 1st grade to the senior and within the latter grade is given by selection. Sub-Assistant Surgeons who are liable for examination should apply to the Surgeon-General with the Government of Bengal, two months beforehand, through their immediate superior officers.

5. In submitting applications for examination, Civil Surgeons should state what local arrangements can be made for conducting the candidates' duties during their absence.

The Superintendent setting the questions will set five questions in each paper. At the top of each question-paper a note will be printed to the effect that candidates are required to answer only any four of the five questions set, and must not answer more. Simla, the 17th April 1920.

No. 736.—The following Order of His Majesty the King in Council regulating the practice in appeals to His Majesty in Council is published for general information :—

At the Court at Buckingham Palace the 9th day of February 1920.

Present :

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

Whereas by an Act passed in the 4th year of the reign of His Majesty King William IV, entitled "an Act for the better Administration of Justice in His Majesty's Privy Council" it is, amongst other things, enacted that it shall be lawful for His Majesty in Council from time to time to make any such Rules and Orders as may be thought fit for regulating the mode, form and time of appeal to be made from the decisions of any Courts of Judicature in India (from the decisions of which an appeal lies to His Majesty in Council), and in like manner from time to time to make such other Regulations for the preventing delays in the making or hearing such appeals and as to the expenses attending the said appeals and as to the amount or value of property in respect of which any such appeal may be made :

And whereas Her Majesty Queen Victoria did by Her Order in Council of the 10th day of April 1838, approve certain rules and orders for regulating the mode, form and time of appeal from the decisions of the said Courts and also certain Regulations from the preventing delays in the making or hearing

such appeals and as to the expenses attending such appeals and as to the amount or value of property in respect of which any such appeal may be made:

And whereas the King' Most Excellent Majesty in Council hath deemed it expedient to rescind all the said rules, orders and regulations and to substitute others in lieu thereof:

His Majesty is, therefore, pleased, by and with the advice of His Privy Council, to rescind all the said rules, orders and regulations in the said Order in Council of the 10th day of April 1838, contained, and to approve of the several rules, orders and regulations contained in the schedule hereto, and to order as it is hereby ordered, that the same be respectively observed by all Courts of Judicature in India and by all persons whom it shall or may concern.

Whereof the Governor-General of India in Council, and all other persons whom it may concern, are to take notice and govern themselves accordingly

ALMERIC FITZROY.

The schedule above referred to.

1. Applications to the Court for leave to appeal to His Majesty in Council shall be made within 90 days of the decree or order to be appealed from, subject to the provisions of sections 4, 5 and 12 of the Indian Limitation Act, 1908.

2. The preparation of the record shall be subject to the supervision of the Court, and the parties may submit any disputed question arising in connection therewith to the decision of the Court, and the Court shall give such directions thereon as the justice of the case may require.

3. The Registrar, as well as the parties and their legal agents, shall endeavour to exclude from the record all documents (more particularly such as are merely formal) that are not relevant to the subject-matter of the appeal, and, generally, to reduce the bulk of the record as far as practicable, taking special care to avoid the duplication of documents and the unnecessary repetition of headings and other merely formal parts of documents; but the documents omitted to be copied or printed shall be enumerated in a manuscript list to be transmitted with the record.

4. Where in the course of the preparation of a record one party objects to the inclusion of a document on the ground that it is unnecessary or irrelevant and the other party nevertheless insists upon its being included, and the Court allows the document to be included, the record, as printed (whether in India or in England), shall, with a view to the subsequent adjustment of the costs of and incidental to such document, indicate in the index of papers, or otherwise, the fact that, and the party by whom, the inclusion of the document was objected to.

5. Where the record is printed in India, the Registrar shall, at the expense of the appellant, transmit to the Registrar of the Privy Council 40 copies of such record, one of which copies he shall certify to be correct by signing his name on, or initialling every eighth page thereof and by affixing thereto the seal, if any, of the Court.

6. When the Record is to be printed in England, the Registrar shall, at the expense of the appellant, transmit to the Registrar of the Privy Council one certified copy of such record, together with an index of all the papers and exhibits in the case. No other certified copies of the Record shall be transmitted to the Agents in England by or on behalf of the parties to the Appeal.

7. Where there are two or more Appeals arising out of the same matter, and the Court is of opinion that it would be for the convenience of the Lords of the Judicial Committee and all parties concerned that the Appeals should be consolidated, the Court may direct the Appeals to be consolidated.

8. An appellant who has obtained a certificate for the admission of an appeal may at any time prior to the making of an order admitting the appeal withdraw the appeal on such terms as to costs and otherwise as the Court may direct.

9. Where an appellant, having obtained a certificate for the admission of an appeal, fails to furnish the security or make the deposit required (or apply with due diligence to the Court for an order admitting the appeal), the Court may, on its own motion or on an application in that behalf made by the Respondent, cancel the certificate for the admission of the appeal, and

may give such directions as to the costs of appeal and the security entered into by the appellant as the Court shall think fit, or make such further or other order in the premises as, in the opinion of the Court, the justice of the case requires.

10. An appellant whose appeal has been admitted shall prosecute his appeal in accordance with the rules for the time being regulating the general practice and procedure in appeals to His Majesty in Council.

11. Whereas an appellant whose appeal has been admitted, desires, prior to the dispatch of the record to England, to withdraw his appeal, the Court may, upon an application in that behalf made by the appellant, grant him a certificate to the effect that the appeal has been withdrawn, and the appeal shall thereupon be deemed, as from the date of such certificate, to stand dismissed without express order of His Majesty in Council, and the costs of the appeal and the security entered into by the appellant shall be dealt with in such manner as the Court may think fit to direct.

12. Where an appellant, whose appeal has been admitted, fails to show due diligence in taking all necessary steps in connection with the preparation of the record, the Court may, either on its own motion or on the application of the respondent, call upon the appellant to show cause why a certificate should not be issued that the appeal has not been effectually prosecuted by the appellant, and if the Court sees fit to issue such a certificate, the appeal shall be deemed, as from the date of such certificate, to stand dismissed for non-prosecution without express order of His Majesty in Council, and the costs of the appeal and the security entered into by the appellant shall be dealt with in such manner as the Court may think fit to direct.

13. Where at any time between the admission of an appeal and the dispatch of the Record to England the Record becomes defective by reason of the death, or change of status, of a party to the Appeal, the Court may notwithstanding the admission of the appeal, on an application in that behalf made by any person interested, grant a certificate showing who, in the opinion of the Court, is the proper person to be substituted, or entered, on the record, in place of, or in addition to, the party who has died, or undergone a change of status, and the name of such person shall thereupon be deemed to be so substituted or entered on the record as aforesaid without express order of His Majesty in Council. If, in the opinion of the Court, there has been undue delay in making this application, the Court may order the appellant, or the party interested, to take all necessary steps to perfect the Record within such time as the Court may direct, and, if he fails to comply with such order, the Court may call upon him to show cause why a certificate should not be issued that the appeal has not been effectually prosecuted, and if the Court sees fit to issue such a certificate, the appeal shall be deemed, as from the date of such certificate, to stand dismissed for non-prosecution without express order of His Majesty in Council, and the costs of the Appeal and the security entered into by the Appellant shall be dealt with in such manner as the Court may think fit to direct.

14. Where the Record subsequently to its dispatch to England becomes defective by reason of the death, or change of status, of a party to the appeal the Court may, upon an application in that behalf made by any person interested, cause a certificate to be transmitted to the Registrar of the Privy Council showing who, in the opinion of the Court, is the proper person to be substituted, or entered, on the Record, in place of, or in addition to, the party who has died, or undergone a change of status. If, in the opinion of the Court, there has been undue delay in making this application, the Court may order the Appellant, or the party interested, to take all necessary steps to perfect the Record within such time as the Court may direct, and, if he fails to comply with such order, the Court shall report the matter to the Registrar of the Privy Council.

15 These rules shall come into operation on the 1st day of January 1921, or on such other date as the Governor-General of India in Council may determine.

And whereas the previous sanction of the Governor General has been obtained under section 79, sub-section (*2*), of the Government of India Act, 1915, to the passing of this Act; 5 & 6 Geo. V, c. 61.

It is hereby enacted as follows:—

Short title, extent, commencement, and duration.

1. (*1*) This Act may be called the Calcutta Rent Act, 1920.

(*2*) It extends to the whole of Calcutta:

Provided that the Local Government may by notification exempt from the operation of this Act, or any portion thereof, any such area, or any such class of premises, as may be specified in such notification, and the decision of the Local Government whether any premises come within such class or area shall be final.

(*3*) The Local Government may, after previous publication, direct by notification that the Act shall come into operation in any other town, or local area in Bengal on such date as may be specified in the notification.

(*4*) The Act shall come into force on such date as the Local Government may by notification direct, and it shall be in force for a period of three years from the date of the commencement of the Act:

Provided that the expiration of this Act shall not render recoverable any sum which during the continuance thereof was irrecoverable, or affect the right of a tenant to recover any sum which during the continuance thereof was under the Act recoverable by him.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

(*a*) "Calcutta" means the area described in Schedule I to the Calcutta Municipal Act, 1899; Ben. Act III of 1899.

(*b*) "Controller" means the Controller appointed under this Act;

(*c*) "landlord" means any person for the time being entitled to receive rent in respect of any premises, whether on his own account, or on account, or on behalf, or for the benefit of any other person, or as trustee, guardian, or receiver for any other person; it includes a legal representative, as defined in the Code of Civil Procedure, 1908, a tenant who sublets any premises, every person from time to time deriving title under a landlord, and also includes the Government; Act V of 1908.

(*Sections 3, 4.*)

(*d*) " notification " means a notification published in the *Calcutta Gazette*;

(*e*) " premises " means any building, or part of a building, or hut let separately for residential, charitable, educational, or public purposes, or for the purposes of a shop or an office, including any land appertaining thereto and let therewith;

such expression includes a room or rooms in a hotel, boarding house or lodging house, but does not include a stall let at variable rents at different seasons of the year for the retail sale of goods in a market as defined in section 3 (*24*) of the Calcutta Municipal Act, 1899; Ben. Act III of 1899

(*f*) " standard rent," in relation to any premises means,—

3. (*1*) The Local Government may by notification appoint a Controller for any area in which this Act is in operation.

(*2*) The Controller shall be either—

(*a*) a member of the Executive or Judicial Branch of the Imperial or Provincial Civil Service, of not less than ten years' standing in such service, or a retired officer of the Government having similar qualifications, or the Chairman of the Corporation of Calcutta, or of the Calcutta Improvement Trust; or

(*b*) a barrister, advocate, *vakil* or attorney of the High Court of Calcutta, of not less than ten years' standing, who has practised as such, and has experience of rent values and land acquisition cases in Calcutta.

Restriction on raising rents

4. (*1*) Subject to the provisions of this Act, where the rent of any premises has been or is hereafter, during the continuance of this Act, increased so as to exceed the standard rent, the amount of such excess shall, notwithstanding any agreement to the contrary, be irrecoverable:

The Calcutta Rent Act, 1920.

(*Sections 5—8.*)

Provided that nothing in sub-section (*1*) shall apply—

(*i*) to any rent which accrued due before the date of the commencement of this Act;

(*ii*) to any periodical increment of rent accrued due under any written agreement entered into before the first day of November, 1918;

(*iii*) to the rent payable under any lease or any agreement to lease entered into before the date of the commencement of this Act, for a period of five years or upwards; or

(*iv*) to the rent payable under any lease or agreement to lease for a period of five years or more, provided the terms embodied in such lease or agreement to lease are certified by the Controller to be just and fair.

(*2*) For the purpose of sub-section (*1*), the rent shall be deemed to have accrued from day to day.

Increase of rent allowed for improvements.

5. Where the landlord has, since the first day of November, 1918, incurred, or during the continuance of this Act incurs, expenditure on the improvement or structural alteration of any premises (not including expenditure on decorations or necessary repairs), he may apply to the Controller to alter the standard rent.

Cases where rent not to be deemed increased.

6. (*1*) Where, as the result of any alteration of the terms of the tenancy, the terms, on which any premises are held, are on the whole less favourable to the tenant than the previous terms, the rent shall be deemed to be increased within the meaning of this Act, whether the sum payable as rent is increased or not.

(*2*) Where, as the result of any alteration of the terms of the tenancy, the terms, on which any premises are held, are not on the whole less favourable to the tenant than the previous terms, the rent shall not be deemed to be increased within the meaning of this Act, whether the sum payable as rent is increased or not.

Increase on account of payment of taxes.

7. Where the landlord pays any municipal rates, taxes, or cesses in respect of any premises, he may apply to the Controller to increase the standard rent to the extent of the increase in the amount for the time being payable by the landlord in respect of such rates, taxes, or cseses over the amount paid in the period of assessment which included the first day of November, 1918.

Previous notice.

8. (*1*) Wherever an increase of the rent of any premises is allowable under the provisions of this Act, no such increase shall be recoverable until the expiry of one month after the landlord has served on the tenant a notice in writing of his intention to increase the rent, accompanied by a certificate from the Controller fixing the standard rent.

The Calcutta Rent Act, 1920.

(*Sections 9—11.*)

(*2*) Where such a notice has been served on any tenant, the increase may be continued without service of any fresh notice on any subsequent tenant.

Fine, or premium not to be charged for grant, renewal, or continuance of tenancy.

9. (*1*) It shall not be lawful for any person in consideration of the grant, renewal, or continuance of a tenancy of any premises, to require the payment of any fine, premium, or any other like sum in addition to the rent.

(*2*) Where any such payment has been made after the date of the commencement of this Act, the amount shall be recoverable by the tenant by whom it was made from the landlord, and may, without prejudice to any other method of recovery, be deducted from any rent payable by him to the landlord :

Provided that nothing in this section shall affect any such payments made in accordance with an agreement entered into before the fifteenth day of March, 1920.

Exception in case of long leases for purposes of development.

10. Notwithstanding anything contained in section 9, a landlord may receive a premium, or other like sum in addition to the rent in respect of any premises which are let out on a lease for a period of not less than twenty years for the purposes of development either by building or re-building, if the Controller is satisfied that such premises are *bonâ fide* required for such purposes:

Provided that the rent payable for the premises during the continuance of this Act shall not exceed the standard rent.

No order for ejectment to be made if rent paid at allowable rate.

11. (*1*) Notwithstanding anything contained in the Transfer of Property Act, 1882, the Presidency Small Cause Courts Act, 1882, or the Indian Contract Act, 1872, no order or decree for the recovery of possession of any premises shall be made so long as the tenant pays rent to the full extent allowable by this Act, and performs the conditions of the tenancy:

IV of 1882. XV of 1882. IX of 1872.

Provided that nothing in this sub-section shall apply where the tenant has done any act contrary to the provisions of clause (*m*), clause (*o*), or clause (*p*) of section 108 of the Transfer of Property Act, 1882, or has been guilty of conduct which is a nuisance or an annoyance to adjoining or neighbouring occupiers, or where the premises are *bonâ fide* required by the landlord either for purposes of building or re-building, or for his own occupation, or for the occupation of any person for whose benefit the premises are held, or where the landlord can show any cause which may be deemed satisfactory by the Court.

IV of 1882.

(*2*) Where the landlord recovers possession on the ground that the premises are required for his own occupation, or for the occupation of any person for whose benefit the premises are held, the tenant shall

have a right of re-entry, if the premises are let to another tenant within six months from the date of recovery of possession.

(*3*) The fact that the period of the lease has expired, or that the interest of the landlord in the premises has been transferred, shall not of itself be deemed to be a satisfactory cause within the meaning of the proviso to sub-section (*1*), provided that the tenant is ready and willing to pay rent to the full extent allowable by this Act.

(*4*) Where a landlord refuses to accept the rent referred to in sub-section (*1*) offered by a tenant, the tenant may deposit it with the Controller within a fortnight of its becoming due.

(*5*) No tenant shall be entitled to the benefit of this section in respect of any premises, unless within three months of the date of the commencement of this Act he has paid all arrears of rent due by him in respect of the said premises, and also unless he pays the rent due by him to the full extent allowable by this Act within the time fixed in the contract with his landlord, or, in the absence of any such contract, by the fifteenth day of the month next following that for which the rent is payable.

Power of Court to rescind order in certain cases.

12. Where any order or decree of the kind mentioned in section 11, sub-section (*1*), has been made on or after the thirtieth day of September, 1919, but not executed before the date of the commencement of this Act, the Court by which the order was made may, if it is of opinion that the order or decree would not have been made if this Act had been in operation at the date of the making of the order, rescind or vary the order in such manner as the Court may think fit, for the purpose of giving effect to this Act.

Issue of distress warrants and other processes barred in certain cases.

13. No distress warrant shall be issued under Chapter VIII of the Presidency Small Cause Courts Act, 1882, and no process under the Code of Civil Procedure, 1908, in execution of a decree passed *ex parte* thereunder, shall be issued, either for the attachment of property, or for the arrest of any tenant, in connection with recovery of rent of any premises situated in any area to which this Act may apply, unless the person applying for execution shall, when making his application, swear or affirm by affidavit or otherwise that none of the rent, in respect of which execution is applied for, is irrecoverable under this Act.

XV of 1882. Act V of 1908.

Rent which should not have been paid may be recovered.

14. (*1*) Where any sum has, after the date of the commencement of this Act, been paid on account of rent, being a sum which is by reason of the provisions of this Act irrecoverable, such sum shall at any time within a period of six months after the date of payment, be recoverable by the tenant by whom it was paid from the landlord who received the payment, and may, without prejudice to any other method of recovery, be deducted by such tenant from any rent payable within six months by him, to such landlord.

The Calcutta Rent Act, 1920.

(*Section 15.*)

(*2*) In this section the expression landlord includes, in the case of joint family property, the joint family of which the landlord, if deceased, was a member.

Duties and powers of the Controller.

15. (*1*) The Controller shall, on application made to him by any landlord or tenant, grant a certificate certifying the standard rent of any premises leased or rented by such landlord or tenant, as the case may be.

(*2*) The Controller may on application by any tenant or occupant of a room or rooms in a hotel, boarding house, or lodging house fix the rent or charge at such sum as, having regard to the provisions of this Act and the circumstances of the case, including the cost of food, furniture, and service, and the rent or charge paid for such room or rooms on the first day of November, 1918, he deems just.

(*3*) In any of the following cases, the Controller may fix the standard rent at such amount as, having regard to the provisions of this Act and the circumstances of the case, he deems just;—

(*a*) where by reason of any premises having been let at one time as a whole, and at another time in part, or where a tenant has sublet a part of any premises let to him, or where for any reason any difficulty arises in giving effect to this Act;

(*b*) where in the case of any premises let furnished, it is necessary to distinguish, for the purpose of giving effect to this Act, the amount payable as rent from the amount payable as hire of furniture;

(*c*) where any premises have been, or are let rent-free, or at a nominal rent, or for some consideration in addition to rent;

(*d*) where the rent paid on the first day of November, 1918, or, where the premises were not let on that date, the rent at which the premises were last let before that date was in the opinion of the Controller unduly low; or

(*e*) where there has been a change in the condition of any premises, or an increase in the municipal rates, taxes, or cesses in respect of any premises subsequent to the standard rent having been fixed:

Provided that—

(*i*) under clause (*d*) the standard rent shall not be fixed at a higher amount than the highest rent actually paid for the premises at any time since the first day of November, 1913: where however the rent has not been increased since the first day of November, 1913, by more than twenty-five per cent., or where a premium or other like sum has been paid in addition to rent, the

(*ii*) under clause (*e*) the Controller shall not increase the rent by more than ten per cent. per annum on the amount expended on the improvement or structural alteration of the premises as provided for in section 5.

(*4*) Before exercising any of the powers conferred on him by this Act, the Controller shall give notice of his intention to the landlord and tenant, if any, and shall duly consider any application received by him from any person interested, within such period as shall be specified in the notice.

(*5*) All orders of the Controller passed under this Act shall be in writing, and a certified copy thereof shall be affixed to some conspicuous part of the premises to which it relates, or to some conspicuous object near such premises, and a certified copy shall also be delivered to the landlord, or his authorised agent, in such manner as the Local Government may by rule prescribe.

(*6*) Any person affected by any order of the Controller shall be entitled to be furnished with a copy thereof, duly certified by the Controller to be a correct copy, on payment of such sum as the Local Government may prescribe. Such copy shall be admissible in evidence in any Court of Law to prove the order of the Controller.

Power of entry.

16. For the purpose of any inquiries under this Act, the Controller, or any person duly authorised by the Controller in writing, either generally or specially in this behalf, may enter any building or land with or without any assistants between the hours of 9 A.M. and 6 P.M.:

Provided that no building shall be so entered, without the consent of the occupier, unless twenty-four hours' previous notice in writing has been given.

Revision of Controller's order by the President of the Tribunal, or the Civil Court.

18. A certified copy of the order of the Controller shall be filed with the petition of revision. The petition of revision shall bear a Court-fee stamp of eight annas. Any such petition shall be filed within thirty days from the date of the order passed by the Controller. LIST OF BUSINESS—ITEM No. 2.

STARRED QUESTIONS.

The following questions, which had been starred, were put and answered :—

By the Hon'ble Rai Mahendra Chandra Mitra Bahadur:—

Pay of the lower division assistants of the Bengal Legislative Department.

(*a*) Will the Government be pleased to state whether the pay of the lower division assistants of the Bengal Secretariat has been recently raised?

(*b*) If so, will the Government be pleased to state whether it is a fact that the Legislative Department, which is a part of the Bengal Secretariat, has been excepted from the operation of the said scheme of revision of pay?

(*c*) If so, why?

Answer by the Hon'ble Mr. Marr:—

" (*a*) Yes.

(*b*) Yes.

(*c*) The Legislative Department was only recently constituted a department of the Secretariat. The conditions, which regulated the appointment and grading of clerks in that department in the past, were so widely different from those in force in the Secretariat, that it was considered advisable to keep the ministerial establishment of the Legislative Department separate from the general cadre of Secretariat establishments, specially as the educational qualifications of the former are markedly inferior to those of the latter. The pay of the clerical establishment of the Legislative Department was reorganised on the 1st June, 1918, independently of any question of revising the pay of the clerks in the other departments of the Secretariat. It will also shortly come under re-examination again in connection with the arrangements for the Reformed Councils."

By the Hon'ble Rai Mahendra Chandra Mitra Bahadur:—

***11.**

Increase in the pay of veterinary inspectors.

(*a*) Will the Government be pleased to state whether they are contemplating increasing the pay of the veterinary inspectors?

(*b*) If so, to what amount?

(*c*) Are the Government considering the desirability of allowing them travelling expenses according to the scale of the Civil Service Regulations?

Answer by the Hon'ble Mr. McAlpin:—

" (*a*) Veterinary inspectors are paid on the scale Rs. 100—5—175. It is not proposed at present to increase this scale.

(*b*) The question does not arise.

(*c*) Veterinary inspectors at present draw travelling allowance according to the Civil Service Regulation."

Questions and Answers.

By the Hon'ble Rai Mahendra Chandra Mitra Bahadur:—

***111.**

Transfer of teachers from Government high schools to Government normal schools.

(*a*) Will the Government be pleased to state whether it is a fact that teachers are very often transferred from Government high schools to norma training schools and *vice versa?*

(*b*) If so, are the Government aware that the teachers in the Lower Subordinate Educational Service who have been recently transferred tc Government normal schools will suffer considerably in view of the fact that these schools have been excluded from the scheme published in the *Calcutta Gazette* of the 17th March, 1920, for the improvement of secondary education?

(*c*) What measures are being adopted by the department for the redress of the grievances of these officers?

Answer by the Hon'ble Mr. O'Malley:—

"(*a*) Transfers of Government high school teachers to normal schools are not frequent and are ordinarily made on the application of the teachers themselves. Such transfers are sometimes accompanied by promotion.

(*b*) Yes.

(*c*) A scheme for the improvement of the pay and prospects of teachers in normal schools is under the consideration of the Director of Public Instruction."

By the Hon'ble Rai Mahendra Chandra Mitra Bahadur:—

***IV.**

Proposed Agricultural School at Chinsurah.

(*a*) Will the Government be pleased to state the reasons why the proposed Agricultural School at Chinsurah has not yet been completed whereas the Dacca school has already been started?

(*b*) Is it a fact that the plan and estimates of the Chinsurah school have not yet been completed?

Answer by the Hon'ble Mr. McAlpin:—

"(*a*) The Chinsurah work was delayed mainly on account of the difficulty in obtaining bricks.

(*b*) The detailed plans and estimates for the buildings originally proposed for Chinsurah were sanctioned in May, 1919. Plans and estimates for certain additional buildings which are now considered necessary are under preparation."

UNSTARRED QUESTIONS.

(Answers to which were laid on the table.)

By the Hon'ble Babu Kishori Mohan Chaudhuri:—

1.

Reorganisation of the Provincial Judicial Service

(*a*) Will the Government be pleased to state whether any sanction has been received from the Secretary of State regarding the proposed reorganisation of the Provincial Judicial Service, in accordance with the recommendations of the Public Services Commission?

(*b*) If the answer be in the affirmative, will the Government be pleased to lay on the table the orders of the Secretary of State in the matter?

Questions and Answers.

(*c*) Are the Government aware that a feeling exists that until any re-organisation is given effect to or announced, it will be difficult for provincial judicial officers to make the election about the new pension rules as directed in the India Government Resolution No. 1085 E. A., Finance Department, dated the 15th November, 1919?

(*d*) If so, are the Government considering the desirability of extending the time for making such election?

(*e*) Will the Government be pleased to state whether the actual period of continuous and non-continuous service put in by judicial officers before confirmation will be taken into account in granting time scale increment in respect of the proposed re-organisation?

Answer by the Hon'ble Mr. Stephenson:—

" (*a*) The Secretary of State has passed orders defining leading principles and suggesting certain lines of action. The scheme to be adopted in Bengal is under discussion with the Government of India and it is hoped that a final decision will shortly be arrived at.

(*b*) Government do not propose to lay the Secretary of State's statement on the table at this stage.

(*c*) Yes.

(*d*) An order extending the period within which the option should be exercised is under issue.

(*e*) The matter is still under consideration."

By the Hon'ble Maulvi Abul Kasem:—

2.

Representation of Muhammadans on Local and District Boards in Mymensingh.

(*a*) Will the Government be pleased to state what is the proportion of Hindus and of Muhammadans to the total population in the Mymensingh district and the Tangail subdivision of that district?

(*b*) Will the Government be pleased to state the number of Hindu and Muhammadan members of the Local Boards and the Mymensingh District Board, elected and nominated by Government?

(*c*) Will the Government be pleased to state whether in making nominations to these bodies full effect was given to the Government resolution on the subject of Muhammadan representation on local bodies?

(*d*) Are the Government aware that a petition was submitted to the Magistrate in which it was alleged that there were several serious irregularities in the election of members of the District Board by the members of the Tangail Local Board and that the petition was rejected without hearing the petitioners or giving them an opportunity of establishing their case?

Answer by the Hon'ble Mr. O'Malley:—

" (*a*) and (*b*) Statements are laid on the table.

(*c*) In making nominations regard was had to local circumstances and the Government circular on the subject.

(*d*) Government are informed that a petition was submitted to the District Magistrate and that he did not forward it to the Commissioner as it was couched in improper language. Two petitions received by the Commissioner were inquired into."

Inferior prospects in the Educational Service of M.A.'s and M.Sc.'s in Science.

(*a*) Is it a fact that M.A.'s and M.Sc.'s in science subjects are rarely appointed directly to the Provincial Service, however brilliant their academic careers may be, while in Arts subjects even second class M.A.'s are directly appointed to the higher service?

(*b*) Is it also a fact that science graduates have to serve many years in the Subordinate Educational Service before they get into the Provincial Educational Service?

(*c*) Are the Government aware that as a result of this differentiation the science graduates, who are fortunate enough to get appointments in the higher service are always in lower grades and in inferior positions than their class friends, and many of their juniors who took up Arts subjects?

Answer by the Hon'ble Mr. O'Malley:—

"(*a*) Direct appointments to the Provincial Edcuational Service both of M.A.'s in Arts subjects and of M.A.'s and M.Sc.'s in science subjects are rare. M.A.'s in Arts subjects do not receive preferential treatment.

(*b*) Yes.

(*c*) In view of the reply to (*a*) this question does not arise."

Subsequently in 1901 he passed the Intermediate examination of the Institute of Chemistry, of which he became a Fellow in 1914. Communications between Calcutta and Dacca and Dacca and Aricha.

(*a*) Regarding the inquiries referred to by the Hon'ble Mr. Cumming in his reply to the motion of the Hon'ble Maulvi Abul Kasem, at the meeting of the Council held on the 12th August, 1919, on the question of the improved communication between Calcutta and Dacca, has any practical solution been arrived at in the matter?

(*b*) Is it a fact that the Government have addressed the Government of India on the question of a railway line between Dacca and Aricha?

(*c*) If so, will the Government be pleased to state the purport of such communication and at what stage the matter now lies?

Questions and Answers.

Answer by the Hon'ble Mr. Cowley:—

"(*a*) No.

(*b*) Yes.

(*c*) In September, 1919, the Government of India in the Railway Department were asked to communicate their views on the general question of the construction of railways or light railways in the area lying between the Padma and Dhalleshwari rivers, and more particularly on the improvement of railway communication between Dacca and Calcutta, consistent with the protection of the natural drainage and the sanitary condition of the area. After further correspondence the Government of India, Railway Department, in February, 1920, intimated their acceptance of the proposition that an examination of the question of railway extension in that area should be undertaken by a committee consisting of railway, drainage and sanitary expert officers with the co-operation of a representative of the inland steamer companies, and have undertaken to nominate a suitable railway officer to conduct the inquiry as soon as circumstances permit."

By the Hon'ble Babu Bhabendra Chandra Ray:—

8.

Increase in the price of rice.

(*a*) With reference to the reply to my unstarred question No. 42 of the 5th March last, has the attention of the Government been drawn to the answer to question No. 1 asked at the meeting of the India Legislative Council on the 11th March, 1920, regarding the relative increase in the price of rice in the different districts of Bengal?

(*b*) Is it a fact that the statement made in answer to the said question shows that there has been no noticeable increase in price this year over the corresponding period of last year in any province except Bengal and Sindh and that there has been actually a decrease in the United Provinces, Punjab and the Central Provinces?

(*c*) In view of the above, how far is the rise in price of rice in Bengal attributable to the change in the purchasing value of money (referred to in reply to my unstarred question No. 41 of the 5th March, 1920) or other non-local factors?

Answer by the Hon'ble Mr. McAlpin:—

"(*a*) Yes.

(*b*) Yes.

(*c*) Government adhere to the reply given in answer to the Hon'ble Member's unstarred question No. 41 of the 5th March, 1920. The Hon'ble Member must be aware that the widespread failure of the monsoon in the year 1918 led to famine and distress on an extensive scale in other parts of India with the usual result of a rise in prices. On the other hand, stocks of rice were so plentiful in Bengal before the end of the same year 1918 that it was a matter of anxiety at one time as to how to dispose of them. Therefore Bengal was longer in feeling the full effect of the change in the purchasing value of money or of other non-local factors on the price of rice. In this connection the Hon'ble Member is referred to the following remarks of the Hon'ble Mr. Mant made in the Indian Legislative Council on the 15th September, 1919:—

'The Punjab consumer has suffered from the high price of wheat practically from the beginning of the war. In Bengal, on the other hand, rice prices were so low up to the end of last year that they were a cause of serious anxiety. At the Conference of Registrars of Co-operative Societies held here in August last, the Bengal Registrar said that the solvency of many societies was endangered by the low prices of rice and jute, and in this Council, in September, the Hon'ble the Maharaja of Kasimbazar, as I

Questions and Answers.

reminded him the other day, called attention to the large surplus stocks of rice in Bengal and asked whether we could not do something to find a market for them. Even up to the 8th of July, *i.e.*, about two months ago, the Director of Civil Supplies, Bengal, reported that there was no demand for Burma rice in Bengal, and that the Burma rice shops opened in Calcutta had definitely proved a failure. Possibly the rise in prices is now being felt more keenly in Bengal, because it has come so suddenly.' "

9.

Publication of the recommendations of the advisory committee appointed to consider draft rules in connection with the reforms.

(*a*) Is it proposed to publish the recommendations made by the advisory committee appointed by the non-official members of this Council to consider draft rules in connection with the reforms, for public criticism before they are forwarded to the Government of India?

(*b*) Are the Government considering the desirability of giving this Council an opportunity of discussing the said recommendations before they are so forwarded?

Answer by the Hon'ble Mr. Stephenson:—

" (*a*) The attention of the Hon'ble Member is drawn to the reply given in the Imperial Council on the 17th March to a somewhat similar question put by the Hon'ble Mr. Patel. Sir William Marris then remarked, as regards the request for the publication of the proceedings of the advisory committee appointed by the Imperial Government, that—

' It would be neither suitable nor in consonance with the practice in such cases that these reports should be made public.'

The local Government propose to be guided by that ruling in the case of the proceedings of the informal advisory committee selected by the Provincial Council, while as regards the publication generally of proposals relative to the rules to be framed under the Reforms Scheme, the attention of the Hon'ble Member is similarly invited to another reply given in the Imperial Council on the same date, in course of which Sir William Marris remarked as follows :—

' The Government of India will consider when they despatch the rules to the Secretary of State whether they will also publish them for general information for the purpose of affording parties interested an opportunity to lay their views before the Joint Committee. But it is quite impracticable for the opinion of all the various communities and interests concerned to be invited and considered before the rules are sent home.'

(*b*) The Governor in Council does not consider that any such opportunity could be given compatibly with the dates on which the recommendations of the local Government are required to reach the Government of India."

10.

Improvement of the pay and prospects of the navigation establishment of the P. W. D.

(*a*) Has any action been taken for the improvement of the pay and prospects of the navigation establishment of the Public Works Department, since my question on the subject in July, 1918?

(*b*) If so, will the Government be pleased to indicate the features of the revision, the date from which effect has been given thereto, and the total increase in expenditure involved thereby?

(*c*) Will the Government be pleased to state their reasons for not giving effect to the revised scale as from 1914, when a circle cadre was introduced for the benefit of clerks attached to the Executive Engineer's office?

Questions and Answers.

Answer by the Hon'ble Mr. Cowley:—

"(*a*) Yes; proposals were formulated and worked out in December, 1918, for a complete revision of the pay of the navigation establishment of the Public Works Department.

(*b*) The features of the revision proposed in 1918 provided for the introduction of a time scale for promotion in a combined provincial cadre. Effect was not given to these proposals for financial reasons. The increased expenditure involved in these proposals amounted to Rs. 1,100 per mensem.

(*c*) The reason has already been stated in the answer given to unstarred question No. 3 (*b*) asked by the Hon'ble Member at the meeting of this Council on the 3rd July, 1918."

By the Hon'ble Babu Bhabendra Chandra Ray:—

11.

Revised rules of Travelling Allowance.

(*a*) Has the special attention of the Government been drawn to the fact that the revised rules of Travelling Allowance as per Government of India, Finance Department, Notification No. 1809, dated the 30th September, 1919, affect prejudicially the Provincial Service officers drawing a salary of over Rs. 200 inasmuch as they are allowed inter class fares on steamer journeys where there are only three classes of accommodation and no second class accommodation?

(*b*) Was it not the intention of the Government of India in issuing the said notification to simplify the rules and at the same time to make them more liberal?

(*c*) Was the attention of the Government drawn to the question put by the Hon'ble Haji Chaudhuri Muhammad Ismail Khan in the Imperial Council and to replies thereon?

(*d*) Are the Government considering the desirability, in view of the reply given by the Hon'ble the Finance Member that "Local Governments have been specially authorised, in cases in which arrangements for accommodation on the steamer make it desirable to raise the class of officers," of raising the class of officers referred to in clause (*a*) in cases where there is no second class accommodation on steamers?

(*e*) Are the Government aware of the existence of a feeling that it is undesirable that Provincial Service second class officers, whose pay is not below Rs. 200, should be classed in such steamer journeys with officers who are subordinate to them?

Answer by the Hon'ble Mr. Marr:—

"(*a*) Officers of the second class, drawing Rs. 200 or more, benefit in comparison with the old rates whenever they happen to travel first class. This is invariably the case when there are only two classes on the steamer. In cases in which arrangements for accommodation on the steamer make it desirable, the Government have been authorised to raise the class of an officer.

(*b*) Yes.

(*c*) Yes.

(*d*) Individual cases will be dealt with under article 1020, Civil Service Regulations, if any instance of real hardship is represented, but the general question will also be further examined.

(*e*) This and the earlier question in the Imperial Council afford some evidence in the direction indicated, but apart from them Government have no definite information."

Discussion of the Budget.

Nawab Bahadur of Murshidabad.

LIST OF BUSINESS—ITEM No. 3.

DISCUSSION OF THE BUDGET OF THE GOVERNMENT OF BENGAL FOR 1920-21.

The Hon'ble the Nawab Bahadur of Murshidabad said :—

The point on which I desire to lay special stress is the Muhammadan education. It is needless for me to repeat how backward the Mussulmans are in this province (as also in other provinces) in their education and how badly they need special attention in this respect for their moral and material regeneration. The Reform Act opens a new era in the history of India. The realisation of responsible government depends for its success on the education of the masses and no effort should be spared to spread education among them if we mean to receive full success of the boon now conferred on India. In the matter of education, the Muhammadans are hopelessly behind their Hindu brethren.

The Hon'ble Mr. Hornell in his speech has dealt fully with the question of the establishment of a Muhammadan College in Calcutta. That the establishment of an Islamia College is of vital interest to the Mahomedan community is well recognised. But from the statement of the Hon'ble Member, it appears that the prospect of the fulfilment of the obligation promised long ago is still far remote. It is not known how far the intention of Government to construct a building with Rs. 50,000 to accommodate a first grade college by way of giving a first instalment of the promise will satisfy the fervent desire of the community, as the Hon'ble Member cannot assure that immediate steps will be taken to start the construction of the building. It is admitted that it will take some time to settle the preliminaries, but things done in the ordinary course in Government departments are apt to run the risk of considerable delay.

I gratefully acknowledge that a good deal has been done for developing Muhammadan education, still a good deal more has to be done for imparting education among this vastly backward community. Government have given effect to several measures referred to in their famous Resolution of August 3, 1916. But many of the proposals had to be postponed on account of the war, but now we hope the Government will give full effect to the schemes, both as regards the *primary* and the *secondary* and *collegiate* education.

It is very satisfactory to note that a good sum (Rs. 81,000) has been set aside for the improvement of the private madrasahs, and we trust the demands of those coming forward for help will be met readily and at the end of the year we may see substantial improvements in this respect.

Another point which I wish to put forward for the consideration of Government is this. The Muhammadan population of this presidency consists chiefly of agricultural classes, the majority of whom are very poor. These poor cultivators have to depend on their children at such tender ages as eight or so for help in many minor works, such as tending cattle, carrying meals to fields, etc., and can ill afford to send their boys to schools or madrasahs for education even if they have a strong desire to do so. In these circumstances, in spite of every effort of Government to spread education among the masses, these poor classes of cultivators will seldom have the chance of deriving the benefit of education and their condition will remain as deplorable as before. I would, therefore, urge that Government should take early steps to encourage the establishment of primary night schools and madrasahs, so that these poor classes may have the opportunity of giving elementary education to their children without losing the little service they are compelled under necessity to get from them.

Discussion of the Budget.

Raja Hrishikesh Laha.

The steady and continual increase in the expenditure under the head "Police" appears somewhat gloomy, and the rate at which the increase has taken place during the years for which the figures are given, if allowed to go on, it is not known what enormous figure will be reached at at the end of the next ten years or so Since 1916-17 every year shows a large increase over the preceding year, namely, by 10, 6 and 11 lakhs, and during the year for which it is forecasted it again shows an increase of 7 lakhs against the current year. Now a comparison of the figure for 1916-17 with that of the year of forecast (1920-21) shows an increase of 34 lakhs. I may be excused if I make the remark that the increase is abnormal and, as I have already remarked. The rate of increase, if not restricted in some way, will come to such a large proportion within the next ten years or so, that the State will ill afford to bear it considering the other pressing needs of the people for their welfare, viz., Education, Sanitation and several other matters.

Remarkable increases have taken place in the item "District Executive Force" for reasons explained by the Hon'ble Finance Member, but on the other hand under the head "Village Police" the figures show a tendency to curtailment, for which no explanation is given. In villages where robbery and dacoity are of frequent occurrence strengthening the force seems more desirable. The Criminal Intelligence Department shows some improvement in this respect. It is mainly due to the abolition of the extra establishment required in connection with State prisoners and political détenus who have now been set free under the Royal clemency. Still there should be further curtailment which it is expected Government will give effect to now that a throroughly new road of political activity is inaugurated by the Reform Act.

It is noticeable that there has been a considerable increase of expenditure during the current year owing to the revision of the scales of pay of the Imperial Police Service and provision made in the next year's budget for the improvement of the pay of the Sub-Inspectors and Head-Constables. We hope in the case of the latter officers the increase will be as substantial and liberal as has been in the case of the superior officers. On the other hand, the case of the rank and file of the police force, namely, the Constables, including the village police, remains still unattended. It is of the utmost importance that the question of improvement of the pay of these ill-paid officers should receive the kind attention of Government without any further delay owing to the high cost of living. As a consequence of this, of course, there must be increase of expenditnre, but we should ungrudgingly bear it."

The Hon'ble Raja Hrishikesh Laha said :—

"Your Excellency, I beg to congratulate Your Excellency's Government on the prosperity budget which has been presented to the Council. After the rigid economy practised during the last four years, I am glad that so many schemes for the prevention of malaria have been taken in hand. I hope there will be no unusual delay in the completion of some at least of the drainage schemes, so that the country which will be affected by them might derive benefit similar to that from the Magrahat scheme. I am glad to observe that provision has been made for contribution towards the pay of District Health Officers. Under the orders of Government, the District Boards have in their budget provided for the pay of such officers, but as the income of the Boards is moderate, the provision for paying half their salary would be a great help to them. The Boards are now completely in the dark as to how their Health Officers would carry out the sanitary works, and if it involves the Boards in a large expenditure, they would not be able to give effect to them. We want a declaration from Government whether in such a contingency the Government would come to their help and, if so, in what way.

There is a proposal to establish four laboratories in different parts of the presidency for the analysis of food and water. But I consider this number

Discussion of the Budget.

Raja Hrishikesh Laha.

to be too small for the purpose. Instead of four, we ought to have more of them in various parts of the province with a view to decrease the ravages of many kinds of disease, the causes of which may be traced to adulterated food and impure water. They would prove a great blessing to the people of the country who from ignorance of hygienic principles eat and drink whatever comes in their way. It is a happy idea that Rs. 50,000 has been provided for the establishment of a Publicity Bureau to educate the people in matters of public health.

It is indeed gratifying to observe that Rs. 33,60,000 has been fixed for the ensuing year for the development of primary and secondary education. Only Rs. 1,00,000 has been provided for primary education in the mufassal, but it is only intended for those municipalities which would be in a position to avail of it under the Bengal Primary Education Act. My friend, the Hon'ble Mr. Hornell has not, however, indicated in his speech whether any portion of the amount could be distributed to the District Boards which are also in a position to establish primary schools for the furtherance of upper and lower primary education, as there are many places where no schools have been established owing to the poverty of the population. I hope Government would reconsider this matter and place some fund at the disposal of the Boards for this purpose.

The long-felt want of a technical school is going to be removed, as the Technical School Committee has already recommended a site at a convenient position in Calcutta for the construction of the necessary building so as to accommodate approximately one thousand students. Government have provided Rs. 6,00,000 for the purchase of the site and a further Rs. 2,00,000 for the construction of the building which, I hope, will be commenced as early as possible, so that the school may be open at the end of 1921, or earlier, if possible.

I am glad that agricultural development has also received due attention. Four new district agricultural farms are to be established at a cost of Rs. 1,10,000 in pursuance of the scheme for better distribution of improved paddy and jute seed. This is a step in the right direction, as the agriculturists are too conservative, and as they are steeped in ignorance and poverty, they are very reluctant to accept any reforms unless it is demonstrated that they would be able to grow four blades of corn where they now grow one; and I have no doubt they will avail themselves of these advantages. In spite of adverse circumstances, some efforts should be made for the cultivation of cotton on an extended scale with a view to make us independent, in course of time, of obtaining our supply from the sister-provinces, as the mills for manufacturing cloth are gradually increasing. I hope this will receive the favourable consideration of Government.

Last year, there was a provision of Rs. 50,000 for the erection of residences for additonal Sessions Judges and Munsiffs, but this year they have been left out entirely in the shade. As most of the lattor have to live in wretched huts, the scheme for providing them with pucca buildings should be steadily followed every year, preference being given to those places where pucca buildings are not available, and there are still many such places in the mufassal.

As it is stated in the memorandum under the head of Superannuation, that 'owing to the improvement of the existing rules relating to superannuation and the retiring pensions of gazetted officers in certain of the civil services, recently sanctioned by His Majesty's Secretary of State for India in accordance with the recommendations of the Royal Commission on the Public Services in India,' it is, I think, incumbent upon Government to take into consideration the pensions of members of the Provincial Civil Service

who are drawing less than Rs. 300 a month, as they find it impossible to make two ends meet owing to abnormal rise in the prices of the necessaries of life and the excessive cost of living generally. They have devoted the best part of their lives to the service of Government and have to maintain a position which is not possible under the present economic strain. I hope Government will consider their case favourably.

A welcome feature of the budget is the allotment of Rs. 1,000 to 'meet expenditure in connection with the examination of *Vaishnab* Philosophy.' I have no doubt the effect of the institution of this examination will be highly beneficial inasmuch as it will furnish a stimulus to a deeper study of the philosophic principles underlying a cult professed by no less than 150 millions, or more than half of the Hindu population of India."

The Hon'ble Mr. Phelps said :—

"My Lord, I have no criticisms to offer; on the contrary I congratulate the Government on the statement showing increased expenditure on so many useful objects.

I desire, however, with Your Excellency's permission, to offer a few observations and suggestions which may serve to keep alive some interest in certain matters.

It is interesting to observe that on account of the enforced economy caused by the war, large balances have resulted which enables the Government to devote a large sum to extra expenditure in the coming year and yet leave a very large balance unspent.

Another interesting item is the increase of revenue by no less a sum than eight lakhs, under the head of Registration, 'mainly due to the abnormal increase in the value of house property in Calcutta,' and one wonders whether this could not be utilised in some way; for instance, by providing interest on a larger sum, which might be spent in the acquisition of cheaper lands for the benefit of those poorer people who have suffered by the speculative operations of the rich. Your Excellency's Government have no doubt already noted the unanimous recommendation of the Rents Committee to acquire land for building sites.

There is another matter, which is bound up with the development of Calcutta, and I am sorry to say does not appear to have reached a definite stage of advancement. I allude to the Grand Trunk Canal project. This pigeon-holing seems to me to have been thinly veiled under the Hon'ble Member for Finance's statement that 'owing to the paucity of superior officers, works in connection with waterways and drainage projects for which provision was made in the current year's budget are not likely to be undertaken, which accounts mainly for large savings under Minor Works and Navigation'. But the Grand Trunk Canal is not a minor work. In its first inception it was regarded mainly as providing a short route to Eastern Bengal; but of late years the project has assumed another added importance, inasmuch as it is so intimately bound up with the schemes for a greater Calcutta. I have visions of some day, when the spoil earth thrown out by giant dredgers will fill in the low-lying lands in the vicinity, and provide building sites for a new and healthy suburb, where tired denizens of the city will be able to approach their havens of rest by their own motor-boats. By the same token the cost of this project might be reduced by the sale of developed lands. I think the public have some right to expect some definite pronouncement on the Grand Trunk Canal scheme after all these years of waiting, and I hope this matter will receive the serious attention of Government.

Another matter in which I am interested is the use of the Kinema in education. I am quite aware that our educational quidnuncs are disposed

Discussion of the Budget.

Mr. Hindley.

to think that the education imparted through the medium of the Kinema is superficial. It may be; but it may for that very reason prove very valuable because of the incentive to imagination, and in affording the relief of colour in the drab lives of poor people whose horizon is so very limited.

I had occasion to call attention to this matter last year. It is not a mere passing fancy on my part, and I do not speak without knowledge, for in my capacity as one of the film censors I have been much impressed with the avidity with which young India flocks to the Kinema shows. Unfortunately, the material shown is often unsuitable for the class of people I have in mind; but educational authorities in England and America are keenly alive to the educational qualities of moving pictures, and are doing much by way of producing films specially calculated to serve the purpose of educating the young mind in nature studies, in hygiene, in healthful exercises, in the care of the body, in manners and deportment, in housing, in industrial occupations and a thousand good things which may be practised or acquired even by the illiterate. The Health Officer of the Corporation and the Sanitary Commissioner of Bengal are already turning their attention to the collection of suitable subjects in their own sphere of interest, and I know that Mr. Madan and Mr. Ducasse will be only too pleased to help with their resources to produce films of local interest.

Just think for a moment how even an ignorant person may be made to understand ideas in a few minutes which would take hours and days of painful study to assimilate from books. It is said that the knowledge gained is superficial. If you want to prepare a field for cultivation your first care is to clear away the jungle and prepare the earth for the good seeds. In like manner we want, in an uncultivated mind, to clear away the rank weeds of ignorance and superstition and then set about real cultivation. I claim that the Magic Lantern and the Kinema would do wonders in teaching the young minds to think, in stimulating curiosity and the desire for knowledge, and to suggest some ambition to excel in some occupation which will enable them to earn a good living, or may be to improve upon old methods.

I commend these simple ideas to Your Excellency's Government. There is no abstruse problem involved, but a few inquiries in the right quarter might be the means of starting a little scheme which would grow and probably expand into something great and good."

The Hon'ble Mr. Hindley said :—

"My Lord, it is a matter for satisfaction that the budget gives an indication of the desire of Your Excellency's Government to push on with the construction of the new Howrah Bridge. I find that provision has been made for the payment of fees to two eminent engineers in connection with the designs of the new bridge, and I take it that this means that some progress is being made. Much attention is now being directed to the pressing problem of the congestion in Calcutta and the economic difficulties caused by competition for the available house accommodation. The legislation now being undertaken will no doubt relieve some of the immediate difficulties, but it can only be regarded as an emergency measure and cannot provide any permanent remedy. The only practical remedies which will ensure against a recurrence of the same difficulties in the future are the methodical extension of the city into the outlying areas and the provision of means of rapid communication with those areas. Your Excellency's Government have no doubt recognized the necessity of adopting these remedies; and we have numerous evidences of Your Excellency's personal interest in the future development of Calcutta on broad lines.

Discussion of the Budget.

Mr. Hindley.

The temptation to leave posterity to solve its own problems is great, and we are sometimes led to think that our present day problems would have been easier of solution had our predecessors exercised more foresight and had they considered themselves trustees for the future.

The problems of traffic in this city with which we are now faced and with which the Calcutta Communications Committee are now grappling, as well as the difficulties which necessitated the creation of the Calcutta Improvement Trust, are the outcome of a shortsighted policy, or perhaps I should say the want of any policy in the past in connection with the lay-out and width of our streets.

It is the paramount duty of the present generation to see that the further expansion of our city is planned on such lines that never again in the future will there arise an emergency such as that with which we are now faced in the housing problem. To secure this end, in my opinion it is imperative that a comprehensive scheme of expansion and development of the suburban areas should be prepared without delay and co-ordinated with all feasible methods of passenger transit into, out of and within both the urban and suburban areas.

One of the most important works in this connection is the provision of a through main roadway from Calcutta to the district of Howrah, where there is a large area of good land awaiting development at no great distance from the heart of the city. This necessitates the immediate rebuilding of the Howrah Bridge and the provision of a well laid out network of roads connecting with it on the far side of the river. It is unfortunate that the war has impeded the progress of this work and as an engineer I may perhaps be pardoned for viewing with some impatience the rather cautious way in which Your Excellency's Government are dealing with the proposals for the new bridge.

The present bridge has long ceased to provide adequate means of communication between the two sides of the river, and as a structure, it is rapidly nearing the end of its normal life.

In 1909 the necessity for replacing the bridge by an improved structure was recognized as being so urgent that the Port Commissioners, who are entrusted with its maintenance, appointed a Committee of the most prominent engineers in the city to select firms from whom designs and tenders should be called for and to recommend the general design to be adopted.

In 1912 the designs received as the result of this action were considered by this Committee who in the following year determined on a modified specification for a floating bridge which they were satisfied would meet all requirements. I understand that this specification was submitted to Government and was sufficiently complete to enable tenders to be called for from bridge building firms, and if the war had not interfered with all further progress, I imagine that by this time we should have had our new bridge.

From this point the responsibility for further progress rested with Government, and it was unfortunate that the delay which the war caused gave an opportunity for another expert to come on the scene who was in favour of a single span design as against the floating bridge design previously accepted as satisfactory. The subsequent history of the matter or all that

Discussion of the Budget.

Mr Hindley.

is known to the public is contained in the following letter from Your Excellency's Government to the Bengal Chamber of Commerce :—

> The report of Mr. Basil Mott, who visited Calcutta in the cold weather in 1916-17, was not received until November 1918. Mr. Mott's report, which was in favour of a single span bridge was not sufficiently detailed to enable the Bengal Government to come to a decision on the matter at issue; and therefore subsequent negotiations regarding the preparation of more complete technical details were made. It is understood that Mr. Mott will visit Japan during the present winter, and negotiations are also in progress with a view to invite him to come to Calcutta and discuss matters personally and give his views to the professional advisers of Government.
>
> (2) On the other hand, negotiations have been made with Sir Bradford Leslie for the submission of complete drawings for a floating bridge; and it is expected that these will be received during the current calendar year.
>
> (3) It will thus appear that Government are desirous of obtaining the fullest particulars regarding both types of design, namely, a single span arch bridge and a floating bridge, before coming to a decision as to which type of bridge would combine most advantages under the modern conditions of the Hooghly.'

I do not wish to criticise the desire to explore every possible alternative before coming to a decision on this most important matter, but I think it is legitimate to ask whether it is likely that the best scheme in such a case would emanate from the engineers who formed the Committee who reported in 1913 or from either of the two eminent engineers who are now being consulted. On the one hand, we have engineers at the head of the profession in India and with many years' experience of local conditions and practical experience of bridge building, namely, Sir Robert Highet, Sir Robert Gales, the late Mr. John Scott and Mr. McCabe. On the other hand, we have Sir Bradford Leslie, who retired from India in 1887 and is now approaching his 80thyear, and Mr. Basil Mott, who has already given one opinion which it has been found necessary to ask him to elucidate by giving another.

I wish to pay every respect to the venerable Engineer, Sir Bradford Leslie, to whom Calcutta owes one of its most precious of ancient monuments, the present Howrah Bridge, and if a floating bridge is built over the Hooghly I believe it will be largely due to his energetic advocacy of this type of bridge. But my Lord one is tempted to ask if there are no engineers left in India.

The engineers of India have never yet found a river which they have not been able to bridge, and I venture to say that if a river similar to the river Hooghly had stood in the way of a railway project, the railway would have taken it in its stride.

The Technical Advisers to Your Excellency's Government appear to want a little heartening up in the matter, and if they want a practical suggestion, I respectfully suggest that the specification prepared by the Committee of engineers in 1913 be made public and that tenders be called for in accordance with that specification from experienced firms of bridge builders in Great Britain and elsewhere.

I believe that the adoption of this course would result in Calcutta being provided with a new bridge 12 months earlier than under the present proposals, and I recommend it to Your Excellency's Government as one important step

towards the expansion of Calcutta and the removal of the congestion which is causing so much public concern to-day."

The Hon'ble Rai Sri Nath Ray Bahadur said :—

My Lord, since my election to this Council, the irrigation and improvement of canals and khals in East Bengal have been the principal matters to which I have earnestly tried to draw the attention of Government by repeated interpellations. On several occasions, I had the honour of addressing the Council on the importance of this subject. But the Government do not appear to have paid that amount of attention to it which it deserves. Last year the Government allotted Rs. 50,000 for the Dolai and Tulsi khals in Dacca. But now I understand that no action was taken to give effect to the proposal, which is very much to be regretted. In reply to my last year's budget speech the Hon'ble Mr. Cumming was pleased to say 'that experience has shown that in the commencement of such projects as the Dolai khal and the new navigable route from the Pudma to the Dhalesvari expenditure cannot proceed at a rapid rate; and the amounts which have been allotted for the present financial year are meant primarily for land acquisition and other preliminaries.' During the last Dacca session, I interpellated the Government to consider the desirability of establishing a waterways division in East Bengal with Dacca as its headquarters. The Hon'ble Mr. Cowley on behalf of Government replied that "the question has already been receiving the attention of the Government and that when the projects investigated by Rai S. N. Banerjea Bahadur mature, the maintenance of such projects will form the nucleus of a permanent waterways division.' But absolutely no provision has been made in this year's budget for those khals and nothing has been done to establish a waterways division at Dacca. I am glad that a waterways division has recently been established at Khulna, but the waterways of East Bengal, which stand in need of immediate improvement, have been left entirely in the cold. The attitude of the Government towards this much-needed reform seems to be incomprehensible.

My Lord, I have been insisting on this matter for a long time and for very good reasons. The canals and khals of East Bengal are gradually drying up to the very great inconvenience of the people to whom they are the only mode of communication. The improvement of these waterways is also necessary for the purposes of irrigation and sanitation. The Government must be fully aware of the havoc caused by malaria and kindred diseases in our country. We are thankful to Your Excellency that the improvement of public health forms one of the principal items of reform of the present Government. I venture to say that if the Government were more attentive to the subject, East Bengal would have been comparatively less liable to the annual ravages of cholera and malaria than at present.

My Lord, the difficulty and hardship experienced by people in travelling over my part of the country with canals and khals gradually silting up are possibly not fully appreciated by the Government. For some time past railway projects in the Dacca district are in the air such as Dacca to Aricha *vid* Manikganj and Munshiganj to Aricha. It may be that on account of these projects the Government have put off the question of improving these canals and khals. Railways, my Lord, are good in their own way, but they should not be allowed to interfere with the scheme for improving the canals and khals. Improvement of waterways will benefit a much larger area and serve a greater number of people, especially the agriculturists, than the Railways. East Bengal is principally a land of rivers and khals and railways can never by themselves solve the difficulty of communication. If the Government cannot on financial consideration give effect to both at present, it is desirable that the railway projects should be postponed.

Discussion of the Budget.

Rai M. C. Mitra Bahadur.

On my last year's budget speech the Hon'ble Mr. Cumming was pleased to say 'that the levy of toll on all boat traffic in these water channels is indefensible on principle.' I never suggested any tax on all water channels but on 'silted-up khals only.' I may mention here that such a tax even now is levied on boats that pass throbgh Dolai khal. I reiterate what I said last year that nobody will grudge a small tax if khals are improved. On the contrary, people will consider a freely navigable canal a great boon even if a toll is levied, as they now have to incur greater expenditure and experience greater inconvenience due to the khals becoming gradually silted up.

My Lord, last year I objected to the spending of a huge sum for building magnificent hostels, etc. I am glad the Government have set apart a much lesser sum this year for that purpose. But I must affirm what I said then, that we do not want imposing hostels furnished with unnecessary costly paraphernalia. For the boarders being mostly boys of poor parents imbibe habits of luxury which are apt to spoil their careers in life.

My Lord, I view with alarm the general increase in the pay and pension of the Indian and provincial services in the country. This increased expenditure will be a great handicap on our province which will occupy financially a very weak position when the Reformed Councils will come into existence. Besides, when we expect the higher departments of the public service to be gradually Indianised there is no reason why the emolument of these services should be enhanced. In no country of the world are the Civil Services in receipt of such exorbitant salaries, and in a poor country like India with the calls upon its purse for various measures of social reform, a retrenchment in this direction is specially desirable and necessary. But I nevertheless plead for the betterment of the prospects of the subordinate services and the ministerial establishments. They can ill afford to stand the stress of high prices. I am sorry to observe that the Government are not paying that attention to these poor servants of State which they deserve.

My Lord, we have long been praying for a Medical College and Agricultural College at Dacca. Now that the Dacca University Bill has been passed incorporating these two colleges, we earnestly appeal to Your Excellency's Government to establish these colleges as soon as possible."

The Hon'ble Rai Mahendra Chandra Mitra Bahadur said :—

"My Lord, it is customary in the Council to be permitted to speak on the various items in the annual budget estimates. I have to offer a few remarks on the several heads provided therein.

Head No. 22.—The total amount of expenditure is Rs. 19,39,872.

It is a matter of satisfaction that there is a provision of Rs. 6,00,000 for a technical school site and Rs. 31,000 for a technical school hostel at Kanchrapara. There is a further proposal for the opening of manual training classes in 20 classes. On the head of Primary Education in the mufassal, the provision of 1 lakh is insufficient, but the result of the discussion in the Council is very cheering. The provision of stipends to pupil-teachers is not encouraging. On the general head Education, I may be permitted to say that the secondary education schemes, which have been sanctioned for Bengal, Bihar and Orissa, contemplate the creation of a District Inspector in the

Discussion of the Budget ;

Rai M. C. Mitra Bahádur.

Provincial Service in each district, the posts of Assistant Inspector being absorbed in the new grade (*vide* Progress of Education of India of 1912) In the budget estimates this is lost sight of.

By the promotion of a number of officers in the Lower Subordinate Education Service in connection with the improvement of secondary education, a large number of poorly paid deserving officers have got an increase of pay for which thanks are due to Government. We notice that a small number of men, viz., clerks in the offices of the Inspectors of Schools and of the Deputy Inspectors of Schools as well as Assistant Sub-Inspectors, remain unpromoted. Their cases deserve the consideration of Government, and Government are solicited to take immediate steps to alleviate their distressed condition.

I understand a scheme has been made and sanctioned by Government for providing a new and improved type of *guru*- and *moallim*- training schools with subordinate teachers on Rs. 30 per month. There are schools of this type at Hooghly, Bankura and some other districts, but the subordinate teachers are not getting Rs. 30 per month. They are now drawing Rs. 18 per month. There is a large number of *guru*-training schools in the province which are proposed to be gradually abolished with the establishment of a new and improved style of schools but at the rate at which these are being established now, it is clear that it will take a long time to abolish the existing schools. The salary of the teachers of the schools is most wretched. Most of the teachers hold permanent appointments. The question is—What is to be done for the increase of the pay of these officers until the abolition of the schools.

24B Sanitation.—I congratulate Government for providing a large sum on the head Sanitation. Since I have joined the Council, as a representative of the District Boards of the Burdwan Division, the aim of Government has been to steadily increase the expenditure on Sanitation. The public cess and augmentation grant have been made over to District Boards. There is a good deal of enthusiasm in local bodies to appropriate adequate sums for excavating tanks. Had it not been for the provisions in section 90 of the Local Self-Government Act, the efforts of the District Boards would have been more successful. The Village Local Self-Government Act has been hailed with delight by the rural population. We expect the co-operation of the absentee zamindars in this matter. Government have taken a great deal of interest in sanitation, and the people of Bengal are thankful to Your Excellency's Government. The Village Local Self-Government Act is a great sanitary measure. The responsibility lies upon the people themselves in looking after the sanitation of their own localities.

Regarding the provision of Rs. 12,500 on the head River Pollution, I have a few words to say. I am told that Government are making inquiries on the subject. I trust the result of these inquiries will be favourable to the strong view which I take for stopping the discharge of septic tanks in to the river. My Lord, ask any man who lives in the riparian municipalities and he will tell Your Excellency that the pollution of the river is chiefly due to the discharge of septic tanks. There were 39 mills in existence and recently many more have been added.

Your Excellency's Government are taking steps to drive away malaria from Bengal. Silted rivers are the depository of stagnant water, unhealthy tanks and *dovas*, want of drainage of villages are a standing nuisance from a sanitary point of view.

In the Burdwan Division the river Saraswati needs looking after. I notice that only Rs. 40,000 has been kept in the budget from the Imperial grant. The Bengal Agricultural and Sanitary Improvement Bill is an effort on behalf

of Government to make Bengal free from malaria and insanitation. The people of Bengal are much indebted to Your Excellency's Government for this measure."

The Hon'ble Babu Sarat Chandra Chakrabartti said :—

"My Lord, as I had had no opportunity of being present in this Council during the debate on the budget in its earlier stages, and as according to the rules of business I am precluded from moving any resolution regarding the modification or inclusion of any item of expenditure at this final stage, I will content myself in bringing to the notice of the Council and Your Excellency's Government a few matters which affect the part of the province from which I have the honour to come.

The districts of Dacca and Mymensingh are interspersed with some big rivers such as the Bramahputra, Jamuna, Padma, Dhaleswari, Buriganga and Lakhya and innumerable small rivers and khals. The Brahmaputra is well nigh dead and the others including the mighty Padma are showing signs of rapid decay. The river Buriganga, upon which the city of Dacca stands, has largely silted up during the last 30 years and the portion of the river up the city to its source from the Dhaleswari remains closed to all sorts of traffic for six months in the year. The condition of the Dhaleswari itself is the same, so that even small country boats cannot pass throughout for about seven months in the year. The health and prosperity of the rural areas depend upon these rivers. The question of water-supply is also intimately connected with them. Two years ago an Executive Engineer was deputed to Dacca to make investigation and formulate schemes for the improvement of some of the rivers. After the completion of his work he has been transferred elsewhere, and it is not known what became of the schemes. It is not possible to conceive the disaster that will follow the extinction of the rivers. It is for all these reasons a River Improvement Division, with an expert engineer at its head, is very urgently needed at Dacca, and I request Your Excellency's Government to kindly consider whether it will be possible to do so during the course of the year and before it becomes too late.

It is well-known that the city of Dacca has very highly congested areas. Its sanitary condition is also not what it should be. Its population in 1872 was 68,595 and in 1911 it was 108,551, and taking 10,000 as the average rate of increase in a decade, its population is now probably about 118,000. With the establishment of the University its population is likely to rise to about 125,000 in the near future. With the exception of one or two thoroughfares, the rest of the streets and lanes are too narrow. They are almost of the same width as they were perhaps in the days of Islam Khan, Mir Jumla and Shiasta Khan. The increase of wheeled traffic including motor-cars has made these narrow and tortuous streets and lanes positively dangerous to foot passengers. The underground sewerage, which has just been commenced, will only partially solve the question of a complete system of efficient drainage. There are quarters in the town in which filth of ages have accumulated without any prospect of removal. Insanitary ditches and *nalas* full of stagnant water and discharges from drains breed mosquitoes for which the city is notorious. Notwithstanding all these drawbacks the town is spreading north-east and west and innumerable buildings are being constructed every year in the midst of highly congested areas. There is no building regulation, no systematic plans of house building and laying out of surface drains. Distances with the spreading of the town are becoming great every year with no means of communication. Tramway lines are impossible through the narrow and twisted streets. With the establishment of the University the difficulties of communication will be felt much keener. An Improvement Trust under these circumstances is urgently necessary. It will not be a losing concern at

Discussion of the Budget;

all as demands for lands are great which are bought and sold at high prices. The sale of excess lands are likely to cover all outlays. I would therefore request Your Excellency's Government to seriously consider the feasibility of an Improvement Trust for the city of Dacca which boasts as the second capital and city of the province.

My Lord, the people of Dacca are glad that the Dacca University Bill has been passed into law, and that the University is going to be started within a short time. The people of Dacca are pressing for the establishment of a Medical College, an Engineering College and Agricultural College and a Technological College in connection with the University. In their opinion the University without these colleges will not give them anything more than what they have got. This no doubt will be the case if the University is started with the existing colleges only. The quality of education imparted in a residential University may be a great asset, but the great problem of supplying suitable vocations to our youngmen will not be solved unless the aforesaid colleges are established. I hope and trust that endeavours will be made to start these colleges soon after the University comes into being.

The rural areas in Bengal are notorious for insanitation and epidemic diseases, such as cholera, small-pox, influenza and malaria. The people suffering from these diseases either go without any medical relief or are at the mercy of quacks or untrained village doctors. The District Boards are supposed to be supplying medicines and doctors, but it is impossible to expect that with the limited resources at their hand they would be able to cope with the demand. The establishment of dispensaries means a great initial expenditure, and the cost of maintenance of such dispensaries is also very great. Unless some schemes are formulated to train doctors of a lower qualification and establish dispensaries of a cheaper type, it will be impossible for the District Boards to provide medical relief to any appreciable extent. A proposal was made some time ago to impart medical education in vernacular. I am not aware what became of that proposal, but I think this is a very good suggestion for having a class of medical men who, with a shorter period of training and in lesser number of subjects, may be trained in schools specially established for the purpose. Schools for training these class of doctors may be opened in such mufassal districts where there are suitable hospitals. One such school may be started at Mymensingh where a fine building has lately been constructed. I have no doubt that the zamindars of Mymensingh, who have always been known and respected for their liberality, will not be slow to endow an institution which will do such immense benefit to the rural population. The course of training may extend to two or three years, and some of the branches in which the students of the Campbell Medical School and the Dacca School of Medicine are taught may be omitted. In such a case the cost of maintenance of such schools may not be great. I am fully aware that medical men of low qualification may not be a very desirable class of persons. But if we consider the vast number of people who suffer and die without any medical help, then doctors of a lower type of qualification may be considered a boon. Moreover, these doctors after leaving the school will no doubt improve their status and knowledge by experience and private studies. Hospitals too of a cheaper and less elaborate type costing much less initial expenditure may be established throughout the country. For all these considerations I will earnestly request Your Excellency to make an experiment of two or three schools of this type in some of the mufassal districts during the course of the year.

A railway line from Dacca to Aricha opposite Goalundo is a thing for which the people of Dacca are making repeated and earnest prayer for more than 30 years. Owing to the silting up of the rivers Dhalleswari and Buriganga there is a total want of any means of communication between Dacca and the western part of the district for the greater portion of the

Discussion of the Budget

Babu Surat Chandra Chakrabartti.

year. Sufferings of the people, who have once to make a journey to this part of the Dacca district, know no bounds. The necessity of a railway line between Dacca and Aricha has been admitted on all hands. There is no doubt of a financial security and profit. So long it was suspected that the sanction to the construction of this line was withheld for the benefit of the India General Navigation and the Rivers Steam Navigation Companies, who have got the monopoly of traffic between Narainganj and Goalundo by steamers and who, it was feared, would lose the huge profit they now derive if a railway line between Dacca and Aricha were opened, which means a much shorter and cheaper route. Recently a new objection has been raised, namely, that the proposed railway line would contribute to the insanitation of the area through which it would pass by obstructing the free passage of water. A deputation of the residents of Dacca, which waited upon Your Excellency in August last, thoroughly explained to Your Excellency the hollowness of this novel objection. A very rich man of the Dacca district has asked for sanction to float a company for this railway. The District Board of Dacca has recommended and the Divisional Commissioner has lent his support to it. It is about a year since this requision for sanction has been forwarded to Your Excellency's Government, but it is not known whether it has been rejected or forwarded to the Railway Board. The construction of this line will open up a vast area of the district which remains closed to all sorts of traffic for more than half the year. It will tap a very rich jute-producing tract and command a passenger and goods traffic, which will make it a highly profitable concern. It will make the journey from Dacca to Calcutta shorter by several hours. By according sanction to it the Government will risk nothing and lose nothing. Yet it is not understood why the Government is still hesitating. I humbly pray Your Excellency will give your personal attention to this matter.

The little town of Munshiganj, which is the headquarters station of the Munshiganj sub-division in the district of Dacca, is full of insanitary ditches, so much so that it has been found impossible to initiate a regular conservancy system there. Mr. Birley, the then District Officer of Dacca, sent a scheme to the Sanitary Commissioner on the 7th January 1914 for the improvement of the sanitation of the Munshiganj town. After the inspection of the town by the Deputy Sanitary Commissioner, the Sanitary Commissioner requested the Sanitary Engineer to arrange for the necessary survey works and prepare an estimate. Accordingly a scheme was prepared with an estimate of Rs. 29,130. It was then arranged by Mr. Birley that the District Board would provide Rs. 10,000 and the Government would be asked to contribute the remainder of the estimated cost, namely, Rs. 19,130. A requisition was accordingly sent to the Sanitary Board through the Divisional Commissioner for the sanction of the scheme. But the Sanitary Engineer, who is also the Secretary to the Sanitary Board, intimated the Divisional Commissioner by his letter No. 344 S.—B., dated the 5th November 1915, that, in view of the financial situation prevailing at the time, the Board did not consider that time as opportune for recommending the sanction of the Government to the scheme which required so large a proportionate grant from Provincial revenues. Since then the project has been kept in abeyance. I would now request Your Excellency's Government to consider whether the time has not come when the contribution might be made from the Provincial revenue so that the scheme might be taken up.

The insanitary condition of the subdivisional area of Manikganj in the district of Dacca and the town of Tangail in the district of Mymensingh is too notorious to recapitulate. It may suffice to say that the former is the hot bed of malaria, cholera and influenza, so much so that its death-rate far exceeds the birth-rate. Its natural drainage system has been much affected by the gradual silting up of rivers, khals and bils. With regard to Tangail, it may be remembered that while the question of a headquarters station of a new district was considered by the Government, the town of Tangail, although

Discussion of the Budget.

Sir Nilratan Sarkar,

it was in other respects found to be a suitable place, was discarded mainly on account of its highly insanitary condition. Attention of the Government has been drawn by an Hon'ble Member of this Council to the insanitary condition of the subdivisional area of Manikganj and the town of Tangail. I would therefore request the Government to undertake to make a sanitary survey and prepare schemes for the sanitary improvement of these two places.

It may be within the memory of the Council that the District Administration Committee recommended the partition of the district of Dacca into two. They recommended that the sadar and Manikganj subdivisions should remain as one district with its headquarters at Dacca, and that the Narainganj and Munshiganj subdivisions should form into another district with with its headquarters at Narainganj. There is no knowing whether the proposed partition should at all be undertaken and, if so, when. It is now understood that the local authorities have recommended the partition of the district on another basis. In their opinion, it is understood the best way to partition the district would be to keep the sadar and the Narainganj subdivisions together with Dacca as the headquarters and to make the Munshiganj and Manikganj subdivisions into another district with a new headquarters to be selected by them. My Lord, I am not in favour of either of these two basis of partition nor in favour of the partition itself. The principal argument of the District Administration Committee in recommending the partition was on the assumption that the charge of the district upon one District Officer was too heavy. Admitting that it was so in 1912 and 1913, it is to be considered whether it is so in 1920 or will it be so a few years hence when the partition may at all be taken up in hand. Recently the District Officer has been given much relief by the appointment of a non-official Chairman of the District Board. Much of the function of the District Officer devolves upon the Additional District Magistrate. The heavy expenditure that will be required to make a new district headquarters and the recurring charges of maintaining a new district will far outweigh the consideration of a supposed efficiency of administration by having two districts instead of one."

[The Hon'ble Member having exceeded the time-limit had to resume his seat.]

The Hon'ble Sir Nilratan Sarkar said :—

"Your Excellency, I desire to offer my sincerest congratulations to Your Excellency's Government on the practical accomplishment of the long-pending scheme of a teaching and residential University at Dacca for which a substantial allotment has been made in the budget for the present year. There is an almost unlimited scope for expansion of facilities for higher education in the country. We all hope that the foundation of a second University in Bengal will help the diffusion of knowledge to the widest possible extent in the presidency. I trust that in addition to the Faculties of Arts, Science and Law the Dacca University will have the Faculties of Medicine and Agriculture in the near future.

Another important matter in which Your Excellency's Government have taken a decisive step forward is technical education. During the short space of a year two schemes having for their object the imparting of education in mechanical engineering may be said to have materialized. These are, first, the Kancharpara Apprentices' Technical School, started by the Eastern Bengal Railway authorities, at which provision has been made for training of a number of Indian and Anglo-Indian youths and, secondly the Technical Institute to be started in Calcutta, which the Hon'ble Mr. Hornell expects will eventually develop into a fully equipped technological institute. The grants made in the present budget for both these schemes, as also for

Discussion of the Budget.

Sir Nilratan Sarkar.

the Engineering College at Sibpur; show that Your Excellency is determined to wipe out the charge levelled against Government of continued neglect of one of the most important branches of education.

I cannot, however, congratulate the Department of Public Instruction on the provision for the education of girls in the province. It is true that a sum of Rs. 10,000 has been allotted for the establishment of a Central Pardanashin Hindu School in Calcutta and another sum amounting to Rs. 50,000 for the improvement of Bethune College, but those allotments are quite inadequate. They fail to satisfy even a fraction of the present needs. The results of the experiment of a Pardanashin School will be awaited with interest. With reference to the grant for the Bethune College, the Hon'ble Mr. Hornell, in introducing the Education Budget, said that it was proposed with this amount to relieve the existing congestion in the class-rooms by means of buildings of a temporary nature and to carry out some expansion of the work of the college. We have no information about the nature of the expansion of the work of the college that the Director of Public Instruction has in view, as also the amount that will be available for the purpose after the congestion in the class-rooms has been relieved. It appears to me, however, that the most pressing need of the college is the provision of teaching of physics and chemistry in the intermediate stage. The absence of such teaching is actually preventing many of our women-students from joining our medical colleges.

Your Excellency, it would serve no useful purpose if I were to recite a long list of the needs of the Calcutta University. We are all grateful to Government for the additional grants that they have made to the University. My excuse for pressing upon Your Excellency's notice some of the wants of the University, is that they are of the most urgent nature. One of these needs is additional accommodation. The fish market has been acquired for the University but we have no funds to begin building operations on it. The accommodation for the post-graduate classes is most inadequate; the library needs expansion and the press requires more space; and what is more serious it will not be possible for us to utilize properly Sir Rash Behari Ghosh's recent princely gift so long as funds are not available for providing further accommodation for the extension of the work of the University College of Science. I appeal to Your Excellency with all the earnestness at my command, to come to the rescue of the University and thus remove the impression created in the public mind, which ascribes the financial straits of the University to the unfriendly attitude of the Local Government.

In this connection, I would like to invite the attention of Government to a small matter. It appears that while the Presidency College and the Calcutta Medical College are allowed to use alcohol duty free for their laboratories, the University College of Science is treated in a different way. Is it too much to expect equality of treatment for the University College of Science with the other two colleges?

While thanking Your Excellency's Government for the new allotments in this year's budget under the head "Medical," and particularly for the grant of 4 lakhs to the Carmichael Medical College, I cannot help observing that the provision for meeting the growing demand for qualified medical practitioners in Bengal is not at all commensurate with the requirements of this presidency. The establishment of a medical school at Burdwan would, of course, afford some relief, but this touches merely the fringe of a vast problem. In a statement supplied by the Bengal Council of Medical Registration to the Calcutta University Commission, it was shown that in March, 1919, outside Calcutta, leaving out of account the holders of English medical degrees, and the small number of medical men employed on tea-gardens, jute-mills, coal-fields, etc., there was only one medical graduate or qualified practitioner of

'the assistant surgeon class' for every 181,000 persons, and one of 'the sub-assistant surgeon class' for every 48,000 persons. The number of registered practitioners of both classes was one for 38,000 for Bengal outside Calcutta and Bihar and Orissa. These figures tell their own tale. It has, however, to be noted that the field of medical practice is not vacant. The province is overrun by a large army of quacks and non-descripts, and in view of the recent recrudescence of reactionary tendencies in certain quarters, which unfortunately receive at times support from Government, it is imperative that efforts should be made to multiply as quickly as possible the number of medical schools for instruction in the scientific system of medicine. The time is opportune, and any scheme that Government may adopt for the wider spread of medical education may be expected to receive hearty co-operation from non-official members of the medical profession and material assistance from the general public. In the absence of any definite schemes the spirit of co-operation is likely either to stagnate or generate futile but mischievous rivalry and the sources of material help are likely to be diverted to other channels. I submit that such schemes need not be very expensive as the existing resources in the shape of mufassal hospitals and dispensaries and the services of non-official medical men may be advantageously utilized for such a purpose.

In view of the absence of any facilities for the teaching of dentistry anywhere in India, and having regard to the necessity of practitioners in this line, it was expected that Government would take steps for establishing a School of Dentistry in connection with the Calcutta Medical College at the earliest possible opportunity. It is a matter of very great disappointment that no provision has been made for any scheme for the teaching of this subject.

The thanks of the community are due to Your Excellency for your kind interest in the cause of maternity and child-welfare, for which an allotment of Rs. 30,000, has been made in the budget. What, however, the situation urgently demands is a provision for the training of a class of lady health visitors and a much larger number of midwives. It is also necessary to make arrangements for imparting elementary training to as many as possible of our 15,000 indigenous *dais*. Further, maternity homes and baby clinics should be started for the purpose of affording relief to suffering mothers and children as well as for providing facilities for training midwives and lady health visitors. Any steps that Government may take in this matter are sure to receive the support of the public from whom substantial assistance may be expected."

The Hon'ble Babu Surendra Nath Ray said :—

My Lord, this is the last budget under the Minto-Morley Reforms. The system of receiving doles from the Government of India will cease. We are still in the dark in what way the decision of the question of financial settlement between Your Lordship's Government and the Government of India will be arrived at by the Meston Committee. We simply ask for justice and fair treatment at the hands of the members of that Committee.

I do not want to enter into a criticism of the whole budget, but I should like to touch upon only a few of the important items.

Medical College Hostel.

The provision of a sum of Rs. 4,30,000 for land for a medical students hostel in Calcutta will give satisfaction to all. Since the year 1913 I have advocated the establishment of a hostel for the students of the Medical College. I am glad that a beginning in this direction is going to be made this year.

Discussion of the Budget.

Babu S. N. Ray.

Criminal Investigation Department expenditure.

Now that the political prisoners have been released and the ebullition of temper of some of our young men has calmed down, it behoves the Government if not to completely abolish the Criminal Investigation Department of the Police, at least to reduce the expenditure on this head to the lowest limit possible. I hope and trust Government will be pleased to make a sympathetic pronouncement on this head of expenditure.

Kidderpore Bridge.

It appears that some money has been allotted for the Kidderpore Bridge. It was in the beginning of September, 1918, that the bridge was condemned and was closed to traffic. We can see very little progress made in the construction of the bridge. The public press have been loud in their condemnation of the slow progress made in its construction. I have brought to the notice of the authorities the inconvenience to which the public have been put. Everything has been put down to the war—the unfortunate war—steels cannot be had, engineers cannot be found to prepare designs, mistakes in calculation, etc. We are now told that it will take another eighteen months for the completion of the bridge. When first in September, 1918, the bridge was pronounced unsafe and it was closed, I asked those who are responsible for the bridge how long it would take for the construction of a new one. I was told it would take about 12 months. Since then I have inquired probably half a dozen times and have invariably been told that it would take about a year, *i.e.*, in September, 1918, I was told that it would take about a year, three months after I was told the same thing, nine months after the same thing, a year after the same thing, 15 months after the same thing, 18 months after I was told that it would take another 18 months. To be assured in September, 1918 that the work will be ready in September, 1919, and then to be told in March 1920, that it would be ready in September, 1921, or beginning of, 1922, speaks of a state of things about which I leave it to Your Lordship to judge. I have been informed, and I give the information for what it is worth, that a firm of English contractors (Messrs. Brethwell & Clerk), who are not registered contractors of Government have sent in an incomplete tender after due date; that they want two years to complete the work, whereas some of the most respectable firms in India have also given their tender and they have promised to finish the work within six months; that it is the desire of the authorities to accept the first tender and wait for another two years. Is it a fact that the rates of the English firm are higher than those of the other firms. It is for Your Lordships to inquire if these are facts.

Hastings House School.

It appears that a provision of Rs. 15,000 has been made for a Head Master for the Hastings House School at Alipore. One fails to understand why the school was opened and what useful purpose it has served or is intended to serve. If it is intended for the sons of a few England-returned gentlemen who do not like their sons to be sent to England, all I can say is that they should maintain such an institution out of their own pocket. What is the number of such students and what is their expense? The school, as I understand, was established for five years. It was meant to accommodate 100 students. In August last the Member in charge admitted that the Government themselves were not satisfied with the present state of the school. but admitting it the Government were not prepared to cry *peccavi*. But unfortunately Government never do it. They never admit that they have committed a mistake. Though the probationary period of the school was for

Discussion of the Budget.

Babu S. N. Ray.

five years only *viz.*, from 1915 to 1920, we are surprised to learn that the Government of India have been approached to extend the period up to 1922. Not content with spending—*wasting* would be the better word—a very large amount of money per annum, Government are going to provide for a teacher on a pay of Rs. 1,250 per mensem. He would not only be an Indian Educational Service man but would get at one jump about the maximun salary of the service and that when the rupee is worth 2*s.* 1*d.* The probationary period has extended for a pretty long time. A tree is known by its fruit. The boys who are being educated in the school have so far become neither fish, nor flesh, nor good herring. Government have so far wasted more than a lakh of rupees in the experiment. The public have a right to ask Government to stop here and not to proceed any further. That the school has deteriorated will be evident from the fact that not only have the number of boys greatly decreased, it has decreased from 105 to 43—but that the results of the examinations of the last two years when compared with those of the first two years of its existence have been far from satisfactory. I am told that at the last examination no one was successful. Such is the school over which Government are going to spend more money. It is high time we should cry halt.

Primary Education.

I shall now speak a word about primary education. In the course of a resolution for allotting a larger amount on primary education I have practically said all I had to say on the subject. I am glad that a sum of three lakhs have been allotted for the development of primary education in Calcutta. It is said that only a lakh of rupees has been allotted for the development of primary education in the muffassal municipalities because the municipalities are not ready with their schemes and would not be able to utilize a larger amount even if it were allotted. The municipalities, as I have already said, would not be ready with the scheme necessary for the purpose of asking for a contribution from Government unless they are assisted by the executive officers of the Education Department. I would therefore ask the Director of Public Instruction to lend the services of, say, six Sub-Inspectors of Schools for three months to these municipalities to prepare the schemes for submission to Government, as required by the Primary Education Act. It would not cost more than Rs. 2,000. The amount is trifling, but the gain will be enormous. Government know very well how to make a scheme a success and how best to make it a failure. By helping the municipalities to a very small extent by lending the services of a few Sub-Inspectors of Schools in the way indicated by me, Government would be really furthering the cause of primary education in the country.

Provincial Civil Service.

Government have been pleased to set apart a substantial amount to give increment to the salary of the members of the Provincial Executive and Judicial Services and generally to give effect to the recommendations of the Public Services Commission. This has pleased a large number of deserving servants of Government. We hope and trust that the members of these services will be recruited by means of such competition as the Government think proper and not by nomination as is done at present. The present system has a most demoralising effect and ought to be put a stop to at once.

My Lord, We are literally on the parting of the ways. From next year we enter into a new stage in the political development of our country. We are on the eve of momentous changes in the constitutional history of our country. The financial side of this important change is of special interest to

Discussion of the Budget.

us at the present moment. A great deal depends upon the amount which is allotted on the reserved subjects in this year's budget for that would be the guide in succeeding years so far as expenditure on those subjects is concerned. The amount allotted this year on the reserved subjects seems to us to be rather large, larger than in any preceding year. Curtailment is necessary where it can be done. For Your Lordship will find that henceforth the fight between the non-official and the official members will be keen as regards the allotments on 'reserved' and 'transferred' subjects are concerned."

The Hon'ble Babu Kishori Mohan Chaudhuri said :—

"My Lord, I congratulate the Hon'ble Sir Henry Wheeler and the Hon'ble Mr. Marr on the budget presented this year for the lucid manner in which the general situation and the several heads of revenue and expenditure have been explained. Fuller information, however, is wanting for 42—Irrigation—Major Works, 43—Minor Works and Navigation and XXXI and 45—Civil Works, specially for repairs and works in progress under head 45—Civil Works. There is no explanation why the expenditure incurred under the management of Public Works officers under head 45—Civil Works should not be adjusted to the appropriate heads of account as far as possible as done in the case of lump grant to Commissioners of divisions and Collectors of districts under this head. A lump reservation of Rs. 20,00,000 has been shown as probable savings without any explanation for what particular works this heavy saving is expected. The budget should show in detail what repair works are to be undertaken and what are the works in progress and what explanation is there for the inability of the department in finishing the works undertaken within the year.

There was a large increase last year in the available free balance, and it has been shown that a sum of Rs. 33,65,000 has been utilised out of the balance at credit of this presidency. But when the figures are examined it will be seen that a sum of Rs. 29,46,000 only has been taken under the sanction of the Government of India from the real available free balance and at the end of this financial year there would still be at least Rs. 1,54,00,000 available to be spent for useful purposes in future years. The Hon'ble Sir Henry Wheeler very justly noticed in conclusion of his budget speech last year that this available free balance has in fact been built up by the overcautiousness of the department in preparing the budget estimates during the last several years. If this fortune really belongs to us and if it was accummulated through the economical management of the Provincial revenues for several years, I fail to understand why this heavy sum should still be allowed to remain idle wherever it may be. We may not be allowed to spend it without special sanction, but there is no reason why it should not be deposited in a bank at least to carry interest.

I may be permitted to notice in connection with the budget that th time has really come when some bold and courageous step should be taken for the relief of the people of Bengal. We are hard pressed on all sides. The price of every necessary of life has gone up abnormally high. The country is groaning under the oppression of the middleman and the money-lender on one side and on the other the profiteering and the privileged classes grown up under the peculiar circumstances of the great European war. If some means could be devised for being relieved from the clutches and grips of these persons most of the difficulties would be removed. What has been done at Naogaon for the *ganja* cultivators can, with great advantage, be done in other directions also so far as the cultivators are concerned. New industries should be started, and the vast resources of the country should be developed and fully utilized for directly benefiting the country. The purchasing power of silver has increased, and the exchange rate is very favourable

Discussion of the Budget.

Babu Kishori Mohan Chaudhuri.

for larger import. It is high time that the large free balance referred to before should be fully utilized, and any more useful purpose cannot be conceived for its further detention and development. If 16 lakhs will do for the full programme of the new Department of Industries as stated in the budget, why should 4 lakhs only be provided for the purpose this year and why should not a technological institute be at once started with up-to-date machines for its full working? Your Excellency will, I hope, rise to the height of the occasion for inaugurating schemes for the relief of the sufferers committed to your care. The co-operative movement at Naogaon has not only benefited the *ganja* cultivators, but the Government and the Naogaon public as well, and it remains for Your Excellency to see if, with the credit of this large cash balance within the reach of Your Excellency's Government, some such thing cannot be done for the immediate relief of the people of Bengal.

In this connection I may refer to one other thing of very great national importance which has attracted public attention—I mean the sale of reverse Council bills. It is an irony of fate, my Lord, that a sympathetic Secretary of State of Mr. Montagu's stamp should at this time of strain permit sale of reverse Council bills causing heavy loss to India and counteracting all the benefits of the favourable exchange rate.

There is additional provision in the Budget of Rs. 1,07,21,000 over and above the last year's revised budget. Of this heavy sum Rs. 34,19,000 come fromthe balance of Imperial earmarked grants for Education, Sanitation and Ranchi Lunatic Asylum, Rs. 29,46,000 from the savings and Rs. 43,56,000 from the general revenue, but the latter two items are nearly swallowed up practically for ordinary purposes by—

	Lakhs.
3—Land Revenue, nearly	12½
19—A—Courts of Law, over	8
20—Police (Presidency Police), nearly ...	7
29—Superannuation and retired allowances, nearly	2½
32—Miscellaneous, over	18½
45—Civil Works, nearly	21¾
Total ...	70¼

The budget, however, shows that Your Excellency's Government are keen about the requirements in all possible directions, and large schemes have been taken up for the improvement of sanitation and education and development of agriculture, forestry and industrial movement. Steps are being taken for giving effect to the recommendations of the Public Services Commission and for improving the pay and prospects of the Subordinate Educational Service and the ministerial departments. I may be permitted in this connection to bring to Your Excellency's notice the hard case of the Civil Court peons, mufassal ministerial officers, Subordinate Executive Service and Assistant Surgeons.

With due deference to the observations made last year, it is greatly to be regretted that the police expenditure is gradually increasing and the much-needed reform for the separation of the judicial and executive branches has not as yet been taken up.

Development of villages and the question of the unemployed and the solution of the bread problem are the burning questions of the day. If the villages are to be developed sanitation, education and medical relief shall have to be more largely provided for.

The spread of knowledge of the improved method of scientific agriculture and agricultural education is another very important factor in the village organisation. Hopes are being entertained that the recent measures for the

Discussion of the Budget.

Babu Akhil Chandra Datta.

development of village self-government and spread of primary education and the much coveted administrative reforms would be judiciously and sympathetically worked out without undue official interference and a new era of progress and relief may be inaugurated under your Excellency's guidance and support.

In conclusion, I beg to draw the attention of the Hon'ble the Finance Member to another requirement in the Budget Statement. In Appendix E a statement of receipts and charges of District Boards and District Road Fund has been given in an abstract form. Instead of this a comparative table showing the receipts and charges under the several heads enumerated for each district and a similar statement for the municipalities in Bengal would be a great help in understanding the real situation and the possible lines of improvement and this will make the budget complete for ordinary purposes."

The Hon'ble Babu Akhil Chandra Datta said :—

" My Lord, the most remarkable feature of the figures presented by the budget, mentioned on page 4, is a very large growth of revenue. Now, my Lord, a growth of revenue is always welcomed whether in private individual life or in the case of Government, and therefore it is a matter of congratulation ; but a cursory examination of the figures rather reveals to us that this growth of revenue is not a matter of congratulation so far as the people are concerned. I find that there has been an increase of revenue under Stamps, Income-tax, Registration, Jails, Scientific and Miscellaneous Departments, and so on. Let us take the case of the growth of revenue under the head Stamps. There, it is said, the high price of foodstuffs is one of the reasons which have swelled the receipts, and the next reason given is the continued industrial and trade prosperity in Calcutta. That is again a matter whether the people can be congratulated on that because it is well known how a certain section of traders acquired fabulous wealth at the expense of the people. Then again, under the head Registration, there are three causes mentioned for the large growth of revenue. The first reason is the abnormal increase in the value of house property in Calcutta. It is doubtful whether that is good fortune or a misfortune to the people. The next thing is the high price of foodstuffs. I cannot conceive a greater misfortune to the people than this high price of foodstuffs which leads to more borrowing and all sorts of evils. Then the third cause for the growth of revenue under this head is the cyclone in East Bengal—another great national calamity. These are the reasons which, it is said, have swelled the receipts under this head.

Then, my Lord, take another case, the case of Income-tax. This is due, it is said, to the satisfactory profits of the jute industry and the increased prosperity in certain mercantile trades. So far as the profits of the jute industry are concerned, there again, I do not know whether we can congratulate ourselves upon them It is well known how these profits are made at the expense of the growers. Here on page 4 it is said, 'in spite of the fact that the districts of Tippera and Bankura suffered from famine.' It appears to me that it would have been more appropriate if the phrase 'because of' were used instead of 'in spite of'.

There is one item for which I must congratulate the Government and the people also. I find that the revenue has fallen under the head 'Excise' and this is said to be mainly due to the measures adopted by Government to check consumption and to a fall in revenue under the head 'Liquors and spirits made in India after European methods'. I find in the Hon'ble Mr. Marr's speech that, with a view to check consumption, the duty on country spirit for different strengths was enhanced in the districts of Hooghly, Howrah, the 24-Parganas, Calcutta and Jalpaiguri in January, 1919, and in March last the retail prices of country spirit was increased throughout the presidency. The opening hour also of premises for the

retail vend of foreign liquor for consumption therein was fixed at 11 A.M. in July 1918. In January last the duty on country spirit for different strengths was again raised with effect from the 1st April, 1920, in the districts of Burdwan, Jalpaiguri, Rangpur, Dacca, Mymensingh and Darjeeling. I also find that the price per seer of *ganja* was also raised from Rs. 60 to Rs. 75, and the rate of duty on *bhang* was uniformly fixed at Re. 1 per seer for all districts. I must express our gratefulness to Government for adopting all these restrictive measures and for the fall in Excise revenue. This is about the receipts side.

On the expenditure side I find there are some savings over which, allow me, my Lord, to observe that I cannot congratulate Government. I find that savings have been effected under the heads of Education, Sanitation, Miscellaneous, Minor Works and Navigation and Civil Works—Public Works Department. As regards Education, speaking generally, that is not a matter where savings ought to have been effected. The savings under this head are said to be mainly due to the non-utilization of the provisions for the Dacca University scheme and for the scheme for the training of *gurus*, the sanction of the Government of India not having been received in time to admit of full expenditure being incurred. Then about Sanitation. Here also there should not have been any savings effected. It is said that the savings under this head are due to a certain extent to the non-utilization in full of the lump provision for Sanitation. It is rather a matter of regret that while there was money available, sanitary measures could not have been adopted. Then under another head—45—Civil Works—Public Works Department, the savings are said to be due to the inability of the department to spend the budget grant in full. Now, so far as this matter is concerned, this reminds me of a certain observation made by the Hon'ble Mr. Cumming in the course of the discussion of the budget resolutions last year when some of us suggested that a certain amount of money might be taken out of the grant for "Civil Works—Public Works Department". He said that 'everybody must dip his hand in the mine of the Public Works Department.' It is rather interesting to find that the full amount has not been utilized. Then we find, as regards the improvement of waterways and drainage projects, that, owing to the paucity of superior officers, these works could not be executed. This again is a matter of profound regret. There was money available, and only there were no officers forthcoming to execute the works.

So far as the budget for the next year is concerned, I find that under the head of Land Revenue there is a very large increase sanctioned. This includes Rs. 2,50,000 for carrying on the scheme of circle officers appointed under the Village Self-Government Act. As the case stands now, there must be provision made for circle officers, and I have no complaint against that; but what I do complain is the absence of some provision for financing the union boards themselves. When the Bill was passed into law we asked for same statutory obligation in the Act for financing these boards. That was not, however, accepted by Government, but assurance was given about these boards being financed although no statutory obligation was made. It is rather disappointing, my Lord, that there should be no provision made for financing these union boards which have already been constituted. Large or small, some provision should have been made for these boards, and in the absence of any such provision, the provision made for the circle officers will be more or less unfruitful.

Now, my Lord, I must express our thanks and congratulate Government for the increased provision made under Education. But in this connection I have got a small complaint and that is about the distribution of grants for primary education. The proportion of 3 lakhs for Calcutta and 1 lakh for the rest of the presidency is anything but satisfactory. I do not think the

The Maharajadhiraja Bahadur of Burdwan.

ground given, namely, that the municipalities have not matured any schemes for the development of primary education, is a sufficient ground. It was certainly the duty of the municipalities, but at the same time these things might have been expedited by Government also.

With the permission of the Hon'ble Member in charge, I want to make a small prayer in this connection. My prayer is this : For two years past I have been moving for raising the Comilla Girls' School to the status of a High English School. This is not a very ambitious project, and though it is a small matter it is very necessary, as there is a great demand for it. The poor people cannot send their girls to other districts, and the result is that their girls have to go without any education. I appeal to your Lordship to consider whether it is not possible to make some provision for raising the school to the status of a High English School."

The Hon'ble Maharajadhiraja Bahadur of Burdwan said :—

"My Lord, I do not propose on behalf of Government to reply at any length on some of the points raised by the speakers on the budget to-day. The Hon'ble the Nawab Bahadur of Murshidabad has very rightly brought to the notice of Government the general question of Muhammadan education. I can assure him that this Government are fully alive to the responsibility they have with regard to Muhammadan education. Recently the question of Muhammadan education arose in the Imperial Legislative Council in consequence of a resolution, and we hope shortly to re-examine the position with regard to Muhammadan education generally.

I shall now turn to some of the points raised by my hon'ble friend, Raja Hrishikesh Laha, in his speech. He has very pertinently put two questions to Government. First of all, he has asked for a declaration as to whether Government would come to the help of the District Boards if large expenditure was required for sanitary works which they could not meet, and, if so, in what way. This is rather a hypothetical question, and it is impossible for Government to give a definite promise or to commit themselves without any details as to the expenditure involved or the amount which the District Boards themselves would provide. I may remind the Hon'ble Member that Government have already been generous in making grants to anti-malarial schemes. The District Board, of which he himself happens to be the Chairman, has already received a grant of Rs. 2 lakhs for the Nawai-Sunthi scheme, while the Magrahat scheme was rendered possible by the loan and grant given by Government. If he will refer to the Sanitary Budget for this year he will also see that, in addition to Rs. 75,000 for quinine grants, Government are contributing Rs. 2½ lakhs towards anti-malarial schemes in District Board areas, besides providing a sum of Rs. 80,000 for works to be carried out entirely at Government cost. The contributions of Government in future years will depend on the amounts available for expenditure, but I trust that it will be possible for Government to contribute to help District Boards that are willing to take up large sanitary works. The Hon'ble Member has also asked whether any portion of the lakh of rupees provided in the budget for primary education in the mufassal would be given to District Boards. I am afraid that this cannot be done. The amount is intended for municipalities which are willing to bear their share of the burden of providing a more complete system of primary education and cannot be diverted to the District Boards. The District Boards in any case have no cause for complaint. Government have aleady put at their disposal large recurring grants, and an extra grant of Rs. 3½ lakhs was made to them as recently as 1918-19. The total amount which Government have made over to the Boards for primary education is already a little over 15 lakhs of rupees and represents no less than three-fifths of their

Discussion of the Budget.

The Maharajadhiraja Bahadur of Burdwan.

total educational expenditure. In addition to this, Government have undertaken the panchayati union system the object of which is to provide each union with a decent primary school. Under this scheme 119 primary schools for boys and 30 schools for girls were established during the last year for which statistics are available, and it was intended to go on with the scheme till each union had a primary school conducted on approved lines.

The Hon'ble Raja Sahib has very rightly pointed out that we have made no provision in this year's budget for the erection of residences for additional Sessions Judges and Munsifs. I plead guilty to a certain extent, my Lord, but if the Hon'ble Member will look to the budget he will find that for paucity of funds we have had to cut down the judicial portion of the budget considerably, but I believe the Public Works Department can later on advise us as to whether any schemes could be taken up, but for the present it is not possible to do so.

I shall now turn to some of the points touched by the Hon'ble Babu Sarat Chandra Chakravarti. He comes from Dacca and it is natural that he should advocate some of the needs of his city and his district. But I do not think he can complain that Dacca is at all neglected by the Government. We are already proceeding with the sewerage scheme, and I think that by the time Government are ready with a Town Planning Bill for the presidency the people of the city might desist from the rather indelicate use of the Dalai khal that they present indulge in.

As regards the starting of an Improvement Trust for the city of Dacca, I think that when the Town Planning Bill is before the Council it will be time to consider the matter.

With regard to the Dacca University, which we all hope will be started before long, the Hon'ble the Vice-Chancellor and both the Hon'ble Babu Sarat Chandra Chakrabartti have spoken and have given their approbation to the scheme. On the other hand, they have asked Government to provide for the Faculties of Medicine and Agriculture whilst Babu Sarat Chandra Chakrabartti would like also the Faculties of Engineering and Technology introduced. Regarding the Faculty of Engineering it ought to be quite clear by now that it has been definitely ruled out. As regards Medicine and Agriculture provision has been made and it is not for my department to make any comments as to the possibilities of starting them or otherwise.

Regarding the drainage of Munshiganj and sanitary improvements of Manickganj and Tangail, I shall certainly have the matters looked up, but at the present moment I am unable to say definitely one way or the other.

The Hon'ble the Vice-Chancellor has very rightly brought to the notice of Government the necessity for the provision of larger facilities for female education, and I fully sympathize with him in his desire. But on the other hand, I do not quite see eye to eye with him about Government's action in this matter. It is true with the growing needs of female education in this country the responsibilities of Government are increasing, but in Calcutta or in this presidency for that matter we do possess quite a fair number of institutions for the higher education of girls and where I differ from him is this, that our immediate need is more in the field of primary education for our girls than anything else.

It is true that in the quoted higher education figures further developments are necessary and will come, but it is from the bottom, so far as the education of girls is concerned, that we have to try to build, and I can assure the Hon'ble Member that the Education Department is working with their eye fixed on this point.

Discussion of the Budget.

Mr. Cumming.

I shall now turn to the speech of the Hon'ble Babu Surendra Nath Ray. He has mentioned two facts with which I am immediately concerned. One is of course the Hastings House School. Regarding this I have very little to add to what I said when the matter was discussed in Dacca. We have provided in the budget for more staff. It is true that the number of boarders is not what it used to be, but the number of day scholars is increasing. I hope my hon'ble friend from Behala will not charge me with introducing a spirit of levity, but I am inclined to say in the words of the well-known Bengali adage : যাকে দেখ্‌তে নারি তার চলন বাঁকা ; that is to say, "whom I do not like even his mode of walking or gait is distasteful," that anything in connection with the Hastings House School is not likely to meet with the approval of my hon'ble friend. But on the other hand, I think that there is another aspect of the matter to be considered. It is all very well to get up and say, "If a handful of enlightened gentlemen of Bengal desire to give an education on the lines of the education that is imparted in some of the public schools in England, that they should support the school and maintain it out of their own pockets," but on the other hand, is that really a true estimate of the traditions, the tenacity, the pride of the Bengalees as a race? Would he like that this project should be given up by Government without a fair trial; would he like that in a province where enlightenment is to be found to such a degree, where alone, if anywhere, such a public school could possibly exist, the Government should give it up without a full trial? My Lord, the Hon'ble Member has himself in his budget speech said that this will be the last budget discussion under existing conditions. It will be up to the ministers of the future to close down the Hasting House School if they like, but on behalf of Government I am not prepared at the present moment to cry a halt as my hon'ble friend has desired. I think that the Government should be permitted to go on with this experiment, which is being carried out at the request of some of the Hon'ble Mr. Ray's own countrymen like Lord Sinha of Raipur and others, and I think that it is a mistake to think that this Government has absolutely, so to speak, made up their mind and that in spite of repeated requests they do not wish to give up the project. Government only want to give this school or this type of school a chance, for after all, it is not very pleasant for the Government either to go on spending such a considerable sum of money each year, when the results have certainly not been altogether encouraging, and I would therefore urge my hon'ble friend to postpone judgment on this question until some time hereafter.

I now turn for a moment to the question of primary education regarding which the Hon'ble Babu Surendra Nath Ray has drawn the attention of this Council. My Lord, Government are only too anxious to assist municipalities with regard not only to the question of returns, but also to give advice and help by lending the services of the inspecting staff under the Director of Public Instruction, and if the Hon'ble Member were to bring the municipalities that are anxious to get such advice to the notice of the Director of Public Instruction, I am sure every facility would be afforded to them. I have nothing further to say."

The Hon'ble Mr. Cumming said :—

"My Lord, there are a few subjects regarding which it appears desirable I should offer some remarks to the Council. These remarks deal with points about which there seems to be some misapprehension in connection with the departments which are under my charge. There is first of all the Department of Agriculture. Under that head the Hon'ble Raja Hrishikesh Laha has recommended to Government that in spite of adverse circumstances some effort should be made for the cultivation of cotton on an extended scale with a view to making Bengal independent in course of time. I have been somewhat hopeful against hope in this matter myself; but I am afraid the

Discussion of the Budget.

Mr. Cumming.

Hon'ble Member is unduly optimistic. The Cotton Committee appointed in 1917 by the Government of India came to the conclusion that sufficient work had been done in Bengal to show that the exotic varieties of cotton are unsuited to its climatic and other conditions, and that there was no prospect of any appreciable extension of the areas under the indigenous varities. They, however, made one recommendation that regarding a certain class of cotton, namely, Comilla cotton, some selection work should be made. The Bengal Government have adopted this suggestion ; and have given orders that such selection work should be undertaken at a farm which Government propose to establish at Rangamati in the Chittagong Hill Tracts with a view to the improvement and standardization of the ginning percentage and possibly of its staple. Moreover, Government propose, as soon as it is possible and convenient, to make a botanical survey of cotton in this province. It therefore will appear to the Council that in this matter Government have taken the action which the Hon'ble Member desires should be taken.

I now turn to the head of Railways. In connection with railway construction in the Dacca Division, one Hon'ble Member, Babu Sarat Chandra Chakarvarti, desires further construction, whereas another representative of that division, the Hon'ble Rai Srinath Ray Bahadur, asks for postponement of railway construction in favour of water communications. Those who represent Dacca have at heart the improvement of communications between Dacca and Western Bengal ; and two alignments have in the past been examined with that object, one from a point opposite Goalundo to Dacca and the other from the same point to Munshiganj. A question was asked this morning, the answer to which gives a reply to the remarks of the Hon'ble Babu Sarat Chandra Chakravarti. It was the answer to the unstarred question No. 7. It will be found that after negotiations with the Railway Board it has been settled that an examination of the whole area should be made by a body of experts, over whom a suitable officer will be deputed by the Government of India to preside. These experts will represent such interests as sanitary and drainage requirements, and, further, a representative of the Steamer Companies will be invited to co-operate. It is far from the case that His Excellency's Government desires to stifle railway communication in those parts, as has been urged from time to time in this Council and out of it ; but it is absolutely desirable, in view of the very peculiar conditions of the area, that a more careful examination from several different points of view should be made than has hitherto been undertaken.

I now turn to certain features of the Public Works Department. The Hon'ble Babu Surendra Nath Ray has raised the question of the completion of the Kidderpore Bridge. In connection with that he has made certain allegations affecting the name of an eminent firm of contractors ; and has asked whether these allegations are facts. Now, Sir, if these allegations mean anything at all, they mean that certain responsible officers of Government have been guilty of some discreditable conduct ; and I deprecate very much the dissemination of gossip of this nature which the Hon'ble Member has admittedly taken no steps to verify. I can say at once that these allegations are not facts ; moreover, the tender which has been accepted is the lowest. the tender which has been accepted undertakes to complete the project in the shortest possible space of time, and the tender which has been accepted is not from the firm regarding which the Hon'ble Member has made these allegations.

I now turn to the question of another bridge, namely, the Howrah Bridge, with which I deal in this connection, although it is more properly under the Marine Department, and not under the Public Works Department. The Hon'ble

Discussion of the Budget.

Mr. Cumming.

Mr. Hindley has criticised the over deliberation of Government in connection with this project. I recognize that he is entitled to voice public impatience regarding the apparent absence of progress. He has mentioned certain relevant facts, and I am sure that he has every desire to be perfectly fair. But one relevant fact he has not mentioned ; and I feel quite certain that of that fact he is quite unaware ; further that, if he had been aware, it would have altered the tenor of his remarks. That fact is that the present Government is a legatee of certain action taken by its predecessor. That action was taken on what at the time seemed to be good and sufficient grounds ; and policy no less than courtesy demands that the successors to that Government should explore the line of action which was then opened up. This has been done. I can say, moreover, that Government have anticipated the Hon'ble Mr. Hindley in taking into consideration the proposal which he mentioned towards the end of his speech regarding a practical suggestion. But I venture to think Mr. Hindley does not recognize that this practical suggestion does not answer the question which has hitherto been before Government, namely, what is the best form of bridge to suit both present and future requirements ; for the practical suggestion means the calling for tenders for only one type of bridge, namely, a floating bridge. I have, however, hopes that in view of action which has recently been taken by Government, it will be found possible to advance with more speed than has hitherto been the case.

The subject which has next to be considered is that of the Irrigation Branch of the Public Works Department, which covers not only questions of drainage, but questions of internal waterways. In this connection, the Hon'ble Babu Sarat Chandra Chakravarti and the Hon'ble Rai Srinath Ray Bahadur have made certain observations. Government quite appreciate the force of their remarks, and recognize that some impatience is inevitable ; but I demur to the statement that the attitude of Government in this connection has been incomprehensible. It is, and has been, practically impossible to carry on the work, which Government equally with the Hon'ble Members desire to effect, without a staff. The Public Works Department—and to this the Hon'ble Babu Akhil Chandra Datta made a passing remark—suffers very considerably from paucity of officers. At present the department is 20 per cent. understrength. Recently the Chief Engineer of this department has submitted proposals with my personal full concurrence for a very large increase in the cadre of this department ; and to my mind the demands which he puts forward are by no means in excess of the requirements. My own view is that this deparment requires no fewer than 18 more officers ; and proposals have been made to create two new waterways divisions and two new circles of superintendence. One of these waterways divisions is the very one for which the Hon'ble Babu Sarat Chandra Chakravarti has pleaded, namely, a waterways division at Dacca ; but as I said before, until we have a staff for that, we cannot carry on the work which must be done. I should like, in this connection, to correct a small misunderstanding which has arisen in the Hon'ble Member's speech in which it was stated that the Khulna waterways division has been started. It was doubtess from jealousy of Khulna that he desired that the Dacca division should be started. That is not the case. The Khulna division has not yet been started, though provision both for building and for staff has been included in the present year's budget.

The last item with which I shall trouble the Council under the main head of Public Works in the Irrigation Department is the question of the Grand Trunk Canal. The Hon'ble Mr. Phelps has asked Government to give some definite pronouncement in the matter of this large project. He has said, very correctly, that it is not a minor project. It is of course a productive public work ; and a work of such magnitude that the sanction is far beyond the powers of the Local Government. It is possible that the Hon'ble Member is not aware that recently in the Imperial Council a short statement was made

Discussion of the Budget.

Sir Henry Wheeler.

by the Hon'ble Sir Claude Hill which is quite relevant in answer to his present enquiry. With Your Excellency's permission I shall read it :—

"The project for the Grand Trunk Canal in Bengal, which has been long under consideration, has now been worked out in detail and the estimate, which amounts to Rs. 309 lakhs, has been forwarded to the Secretary of State for sanction. The scheme is designed to provide direct routes for steamer navigation between Calcutta and (*a*) the Ganges, (*b*) Assam, Cachar and Sylhet and (*c*) Barisal. The canal is eventually to have a width of 400 feet, though in the first instance its width will be 250 feet, with widenings at intervals for crossings. The canal will form a most important link in the chain of waterways in Bengal, and will be an asset of the greatest value to Calcutta and those districts in the presidency which depend upon waterways as an outlet for their trade."

I do not think I require to add anything further to that statement, except to say that Goverment regret just as much as the Calcutta Improvement Trust that circumstances over which they have no control have deferred the construction of this very important scheme. It was sent to the Government of India last year ; and if ever it materializes, the public of Bengal will have reason to be very grateful to its engineers, and more specially to Mr. Addams-Williams to whom the merit for this particular alignment should be assigned.

My Lord, I have no further remarks to make regarding the subjects in the departments which are under my control."

The Hon'ble Sir Henry Wheeler said :—

"My Lord, it has already been noticed by more than one speaker, and the fact seems to me to be worth emphasising, that this is the last occasion on which the budget will be discussed in a meeting of this kind. In that sense we are at the end of a chapter. This somewhat discursive and general debate had a *raison d'être* in the old days, before the time of questions, private legislation and resolutions. It really died a death with the Morley-Minto Reforms, and it might almost have been discarded when these were introduced. In fact the idea of discarding it was then mooted, but it survived largely in deference to traditions and in accordance with the wishes of the non-official members. But under the new procedure it will disappear, and under the revised budget rules, in so far as we have seen them in draft, the future course of action will be the presentation of the budget, followed by an adjournment ; a general discussion upon the budget, in which there will be no voting but which, it is to be hoped, will be confined more closely than now to financial issues, and lastly the introduction by the different members and ministers of votes on grants, which will be taken according to the different budget major heads. That will probably be the procedure of the future, but, immediately, we are concerned with things as they are, and, following precedent, I will notice briefly one or two points which have been raised to-day by different members concerning the Departments of which I am in charge.

A general criticism has been offered by Babu Akhil Chandra Dutta, who has lamented certain aspects of the reasons which have been given in the budget statement for increases in the revenue of the year. He appears to think that the attitude of the Finance Department is one of fierce joy over the misfortunes of the province, rising almost to exultation if we hear of anything so disastrous as a cyclone. That of course is not so. We merely give these reasons in the statement as explanatory of different financial fluctuations, and we share with him his regret in so far as they indicate facts which are unfavourable to the prosperity of the people of the province.

Discussion of the Budget.

Sir Henry Wheeler.

Another general issue was raised by Babu Kishori Mohan Chaudhuri who seemed to advise us to signalise the last year of the old official Government by spending in one grand blaze every penny of which we are possessed. As I understand him, he would like to see the whole of the three or four crores of our balances cast into the budget in the form of grandiose schemes of expenditure. The suggestion has something to recommend it, and possibly we officials would rather like to have gone out introducing, or at any rate accelerating, to the best of our power, the millenium. But I doubt if the suggestion would commend itself to the Ministers who will come after us, and there are also practical difficulties. In the first place there is a point beyond which we cannot conveniently draw upon our balances, and we have reason to believe that we and other provinces have already drawn on them to the utmost extent which would be welcomed by the Government of India, which in this matter, after all, stands in the position of our banker; and secondly, there is a practical point beyond which we cannot spend money during the year even if we go through the formality of putting it in the budget. Mr. Cumming has already referred to the depletion of staff in the Public Works Department, and that is true not only of the Public Works Department, but of practically every Department. With the difficulties that still surround business and the conduct of affairs as a sequel to the war, it is practically impossible to get things through at more than a certain pace. Therefore we were precluded from undertaking the ambitious programme which my hon'ble friend would have liked to see.

Coming to more particular issues, we have our old friend the Police and the foreboding voiced in various quarters, notably by the Hon'ble Nawab Bahadur, as to the growth of police expenditure, while recently in another place we had a sporting offer from another member that if the Department was handed over to him he could double its efficiency at half the present expenditure. I am naturally rather sceptical of that kind of offer. It savours of the flat-catching advertisements which characterise the less reputable financial papers, designed to catch the gullible investing public. Unfortunately the Hon'ble Member is not here to-day to explain in detail how he would proceed. Probably, judging from previous utterances of his, I imagine, the first step in his programme would be to replace all the European Superintendents by Deputy Superintendents of Police. It is perfectly true that on those lines he could effect a financial economy. The same could be done by replacing Members of Council by Assistant Magistrates, or future Ministers by members of the Provincial Civil Service; if that were done it would be possible to save a good deal, though other results might ensue not quite consistent with the ideal of efficiency which it was hoped to attain. The criticisms of the Hon'ble Nawab Bahadur are naturally more moderate and reasonable, and I will notice very briefly his general criticism that the expenditure on police is going up abnormally. It is true that the expenditure on Police is rising, and, as I have before pointed out in this Council, it is true not only of Police but also of other Departments, where we see equally phenomenal rises. Thus taking the year 1916-17 and the current year, we find that the expenditure on Forests has risen from Rs. 6½ lakhs to 13½; Education from Rs. 77 lakhs to 1 crore 21 lakhs; Medical from Rs. 23 lakhs to 37; Sanitation from Rs. 4 lakhs to 15½ and Agriculture from Rs. 10¾ lakhs to 21. So the mere fact that expenditure on the Police has gone up does not necessarily indicate that something is radically wrong, and, if the Hon'ble Nawab Bahadur will scrutinise the detailed explanations which are given in the budget note, he will find that there are various abnormal items, such, for instance, as the Rs. 5 lakhs payment on account of the Alms House; various items that will largely be covered by the fees which will be realised, such as the expenditure on the Hackney Carriage Department in Calcutta and the issue of new Arms Act

Discussion of the Budget.

Sir Henry Wheeler.

licenses; and another large item, the enhancement of the pay of head-constables, which is accountable for two lakhs of rupees and which he himself advocates as a necessary and reasonable measure. The matter of the village police has of course, been misunderstood since Government do not pay for village chaukidars. In our budget there is a small item on account of clerks and rewards, but the ordinary expenditure is incurred under the Village Chaukidari Act. I think if the Hon'ble Member will study our explanations of the Police budget, he will see that the expenditure on the Police is largely of a reasonable and justifiable character.

Babu Surendra Nath Ray has joined with him in expressing a hope that I should make a sympathetic pronouncement on the subject of the Criminal Investigation Department, the abolition of which is very close to his heart. In talking of the Criminal Investigation Department it is somewhat overlooked (largely, no doubt, due to the fact that the political aspect of the Criminal Investigation Department has loomed rather conspicuously in recent years) that it was primarily an organisation for dealing with ordinary crime, and until criminal tribes become angels, and the ordinary criminal who preys upon society grows wings, it will be necessary to maintain an organisation for curbing their activities. Therefore, it is never likely that the Criminal Investigation Department will entirely disappear from the budget. On the political side it is no doubt true that unfortunate events of recent years have led to an enhancement of our expenditure, but with the disappearance of various ugly features in our provincial life we have already reduced our expenditure on the Criminal Investigation Department, and Hon'ble Members will notice that the budget shows a reduction of Rs. 65,000 under "temporary force," which, roughly speaking, is the force employed more particularly in connection with seditious crime. We hope, if the present state of things continue, to effect still further reductions. We have saved money by the very large reductions we have made in the number of detenus under surveillance and of people who unfortunately had to be dealt with under Regulation III, and with the return of happier time further economies may be possible. So much, Sir, for the police.

I now turn to Medical. Most of the criticisms which have been offered under that head have to do with Medical Education, and I defer my remarks on that point till the resolution which is about to be moved by Mr. P. C. Mitter. Apart from this we have a wish expressed by Babu Sarat Chandra Chakravarty that the Dacca University should include a Medical Faculty; that is already dealt with in section 22 of the Act, and we shall now have to consider in consultation with the Education Department how the practical details can be worked out. Sir Nilratan Sircar has brought up again the very worthy project of a school of dentistry, and I share with him the hope that before long that may be an accomplished fact. Unfortunately it is going to be expensive. We recently had a full scheme before us, and approved of it even despite its cost, as it had been examined by our expert advisers, who thought that it was the minimum which we ought properly to undertake. But the total estimate was no less than a matter of Rs. 10,00,000 with some Rs. 32,000 for recurring expenditure. Therefore it may be difficult to find the money, although I hope it may be possible to do so before very long. But we have not included it in next year's budget in view of various other important projects which are already in progress in connection with the Medical College.

One other miscellaneous point is perhaps worthy of remark, and that is in connection with the comment of Babu Surendra Nath Ray that the Provincial Services should in future be recruited by competitive examination. It has not much to do with the budget, but as we have just published the improved terms which we are giving to the Provincial Executive Service, it may be

Discussion of the Budget.

Sir Henry Wheeler.

worth while explaining how matters stand in this matter of recruitment. When we submitted our opinion to the Government of India on the report of the Public Services Commission in connection with the Provincial Service we made a recommendation in the matter of future recruitment. To that we have had no reply from the Government of India, and the issue has become complicated by another consideration which has been introduced. Section 38 of the Government of India Act establishes a Public Services Commission to discharge in regard to recruitment and control of the public services such functions as may be assigned by rule by the Secretary of State. We do not yet know what rules the Secretary of State is going to make, and we do not know whether this Public Services Commission, which will be a statutory body, will deal with such things as the recruitment of the Provincial Services. The same idea was mooted by the University Commission, who desired to see small Service Commissions established in all provinces to deal with the standard of educational qualifications required in different services, to conduct the examinations and to approve direct nominations. That idea has not so far been pursued, and until these two matters are settled I am afraid we shall not be able to come to any definite decision as to the future recruitment of the Provincial Services.

These are the only detailed points raised to-day with which I propose to deal, and as I began by a reference to the future, so I will end.

We not only to-day see the end of an old procedure for the discussion of the budget, but we stand on the threshold of entirely new changes in the presentation of the budget and the control over it which will be exercised by this Council. In future the budget will be presented under "reserved" and "transferred" heads, and the power of the Council in controlling the votes on grants will be very much greater than they are now. From every point of view we are deeply interested in seeing that the rising sun of the Reforms is not obscured by heavy financial clouds. For the dispersal of these clouds we look to the Meston Committee, which has recently visited this province, and the report of which has not yet been published. Since it has not been published it would not be suitable that I should discuss in detail the considerations which we put before them, but I would like to mention the two main lines of argument which we took. As the Council is aware, the general scheme of finance under the Reforms Scheme is to take a standard of expenditure in the different provinces, and, deducting that from the various estimated provincial revenues, to arrive at an estimated provincial surplus. Against that surplus the scheme put the anticipated deficit of the Government of India, after keeping for that Government the normal Imperial revenues as they exist at present—that is to say, Post Office, Customs, Railways, etc.—and adding to them Income-tax and non-judicial Stamps; lastly it was proposed to realise that deficit by similar percentage contributions from the different provincial surpluses. That, very roughly, is the financial scheme of the Reforms Report, and Hon'ble Members will doubtless have noticed that other provinces have criticised Bengal as being very lightly treated under the scheme, and have suggested that we shall not subscribe our fair share to the Imperial revenues. In putting up our case before the Meston Committee we tried, with the valuable assistance of the Finance Committee of this Council, to press two points. In the first place, that in calculating the standard expenditure of the province account ought to be had of the fact that, under instructions from the Government of India, all expenditure had very largely to be curtailed during the war, and therefore things were not in our normal standard, which in ordinary times would have found a place there; that is to say, but for the war our expenditure would by now have risen to a higher figure than that at which it actually stands, thus giving claim to a higher standard. The second point we tried to press was that the financial division of the Reforms Report was not fair to Bengal;

Resolutions.

Mr. P. C. Mitter.

that is to say, the Government of India first took away Income-tax and non-judicial Stamps, and then judged us (or rather not the Government of India, but our outside critics judged us) by our contributions under the remaining heads of which the chief, of course, is Land Revenue. Bengal being a permanently settled province, our land revenue is much smaller than in other provinces, and we seemed to show up badly. But on the other hand, under Income-tax and non-judicial Stamps the Government of India take from Bengal very much larger sums than they take from any other province except Bombay. The same is true under Customs, although it is difficult to assess under Customs exactly what duty levied in Calcutta is derived from things consumed in Bengal and what from consumption outside it. But there is little doubt that the lion's share is derived from Bengal, and, therefore, we argued that if the contributions from the different provinces to the Government of India are to be properly judged, they should be judged under all heads of revenue including in particular those of Income-tax and non-Judicial Stamps.

I apologise for boring the Council with this rather technical discussion, but as the report of the Meston Committee will be published shortly I thought the members would like to know the general lines on which the Finance Department had presented the provincial claims.

This, however, is at the moment a matter of the future and we are dealing with the present and the past. It has been, I think, a matter of regret to us all that during the three years of Your Excellency's incumbency our expenditure has been very badly hampered by the war and its consequences, but it is equally a matter of gratification to us all that during this year 1920-21 we hope to be able to some extent to shake ourselves free from those fetters that have bound us during the last two or three years, and to make real progress in many works of utility and benefit to the province. We hope to hand over to the new Ministers a large share of the accumulated provincial balances, as also approved schemes in various stages of maturity and elaboration, which, we trust, under their able guidance will be duly carried through. If they are carried through to fruition under the auspices of the Ministers and not of the old official Government, the old official Government will at least have the satisfaction of knowing that they have toiled at the foundations, though it was left to others to raise the superstructure "

RESOLUTIONS.

LIST OF BUSINESS—ITEM No. 4.

(*Under the rules for the discussion of matters of general public interest.*)

The Hon'ble Mr. P. C. Mitter moved the following resolution :—

This Council, while placing on record its appreciation for what the Government have done for extension of medical education, recommends to the Governor in Council that early steps be taken to open more medical schools in the Presidency of Bengal.

He said :—

"My Lord, I venture to observe that the question of the extension of medical schools is a question of the utmost public importance. My Lord, the fact that there is need for a large number of medical practitioners is evidenced by the figures of the census table, where we find that in the year 1911 37,439 persons were returned as medical practitioners, but although such a large number were returned as medical practitioners in that year, we find that in the year 1918 only 3,000 and odd persons were registered as qualified medical

Resolutions.

Mr. P. C. Mitter.

practitioners under the Medical Act. One may therefore say with confidence that in the year 1911 as many as 34,000 medical practitioners were quacks, men without any proper medical qualification, and if that number were 34,000 in 1911, the number is not likely to be less than 40,000 to-day. My Lord, with such a demand for medical men is it not very desirable that we should have more qualified men to serve the needs of the Province? My Lord, I hope the Council will bear with me if I address them on another aspect of the question. My Lord, in rural Bengal we have only one medical man with registrible qualification—and it must be remembered that a medical man who passes the vernacular course is deemed to have proper qualification under the Medical Act—to a population of 42,500. In England that figure is somewhere near 1,250 and this difference is all the more striking when we compare the state of public health of England with that of Bengal. The figure 42,500 which I have given may not be absolutely accurate. According to Sir Nilratan Sarkar it is nearer 48,000 than 42,500. So if I erred I have erred on the side of moderation. In the face of this undoubted need it is hardly necessary to labour the point about more medical schools. I ought to say that my resolution deals with more medical schools not colleges, and I think a word of explanation is necessary for this. From the medical schools we hope to turn out men who will be of service in the rural areas—the population there is poorer than the urban population—and they cannot afford to have highly qualified men. If they can get medical men with a training of say 3 or 4 years, then they will be able to afford to pay their fees, whereas in the case of highly qualified men, they will not be able to meet their fees. I do not for a moment advocate that we should not have more medical graduates, but the proper course for increasing medical graduates will be first of all to increase the number of medical men educated in medical schools, and the increase in their number will create a demand for a larger number of consultants. At the present moment, I believe we are turning out less than 150 medical men from our medical schools. I believe that the total number of medical students is somewhere near 600 or 700—I am quoting these figures from the Director of Public Instruction's report. Now about 150 medical men pass out of the medical schools yearly, and that number is wholly insufficient to meet the demand. As against this small number of medical students we have about 26,000 undergraduates passing through our literary and scientific colleges every year. Many of them have no liking for higher education but for want of something better drift towards higher education. Many of these undergraduates will welcome a course of instruction in our medical schools if they get the opportunity. I always favour higher education, but I do not like that those who are not really cut out for higher education should drift to higher education. My Lord, if my suggestion be accepted, in the course of the next few years we shall have a larger number of medical men who will be earning their living, and who will not only benefit themselves but will benefit their society and country. Now let us see whether the students who pass out of these medical schools will lack employment. The Hon'ble Sir Henry Wheeler is, I believe, under the misapprehension that these men will perhaps lack employment, but I can assure him that there will be no lack of employment. I may relate one of my personal experiences in this connection. Some time ago I advertised for a number of medical men who had passed from a medical school, on a salary of Rs. 40, and with liberty of private practice. I got only two applications, but I am sure if I had advertised for ordinary graduates, I would have got at least a hundred applications. About six weeks later when I was in a position to appoint these two applicants I found they were already employed elsewhere. For their education we might utilise the hospitals in the town such as the Mayo Hospital, the Howrah Hospital, or the Sambhu Nath Pundit Hospital, and in the mofussil we have the Mymensingh Hospital, Chittagong Hospital and others. As regards the town hospitals the question was discussed last year, and the hon'ble

member was apprehensive that it would add to the already increasing number of students in the town, but I venture to point out for the consideration of my hon'ble friend opposite that if we substitute a member of medical students for general students it will not add to the congestion of student population in Calcutta. I agree with Sir Henry Wheeler that it may be desirable to reduce the congestion of the student population in the city, if possible, but that is a very different problem, and should not be confused with the present issue. However, all I want is more medical schools, and I would leave it to the Government to choose for themselves whether they should have more medical schools in the town or in the mofussil or in both places. My Lord, at the present moment, I believe at any rate, according to the actuals of 1917-18 we have been spending about 1½ lakhs for the two medical schools we have in the province. I know this expense will be higher when the Burdwan school is started, but whatever the expense may be, it will be very little as compared with what we spend on education in general and higher education in particular in Bengal. I do not want the Government to commit themselves definitely to medical schools and the financial question a number of will have to be considered by the Government when they take up any particular scheme. What I do want is that the Government should push ahead. My Lord, the resolution which I move is a modest one, and I do not think more words are necessary from me to commend it to the Council."

The Hon'ble Sir Nilratan Sarkar:—

"My Lord, in supporting the resolution moved by my hon'ble friend Mr. P. C. Mitter, I have to draw the attention of Your Excellency's Council to the fact that the Medical Act and the Medical Degrees Act have restrained the educational activities of the regularly trained medical men of Bengal. Indirectly, therefore the field has been left to outlaws and quacks and this has been rather unfortunate. Of course, quackery can never be suppressed directly by law, but we can do a lot in the way of cornering quackery by a diffusion of medical education far and wide in Bengali society. It was expected, my Lord, that provision would be made after the passing of this Act for the diffusion of medical education throughout Bengal. At one time there was the idea of subsidising and reorganising some of the medical institutions that were being conducted by some of the practitioners of Calcutta. One may be mentioned here—the National Medical College—which was then and is still conducted by Dr. Mullick and a Committee. There was an idea that this medical institution should be subsidised and reorganised by Government, and that this institution should be brought into contact with some of the hospitals in Calcutta for clinical teaching. Evidently this idea fell through. Then on another occasion, Government accepted a resolution containing a proposal for starting a lower grade medical school for the training of village practitioners. Nothing came out of that proposal. I do not regret it because times have changed, and it is not necessary to sacrifice quality to quantity at the present time. We could now enlist a sufficiently large number of passed students of our higher schools for the purpose of receiving medical education in our medical schools. The question is we must have a larger number of medical schools. As regards such institutions it would always be necessary for Bengal to pool our resources both in the mofussil and in the town—resources both in existing hospitals and in prospective hospitals and the service of non-official medical practitioners. It is in this way that some of the medical institutions of this city have been built up. Of course we cannot expect to start such institutions on the same standard on which the medical school of the whilom capital of Western Bengal, I mean Burdwan, has been established or the standard on which the prospective school of dentistry is going to be established in Calcutta. At the same time I believe if we work combining the principles of efficiency with economy, it will be possible to conduct medical

institutions for the purpose of training a fair number of medical men at different centres in Bengal. My Lord, I should not enter into details at this stage, but the need is urgent. The field, as I have already said, is left to quacks and outlaws, and medical schools well spring up, turning out practitioners and who will have nothing whatever to do with the Medical Act or the Medical Degrees Act, and the only way to prevent the activities of such institutions and such practitioners would be to increase the number of medical schools of the right sort in different parts of Bengal.

I have nothing more to say. I am rather frightened to see the activities in different quarters—activities devoted to start schools and institutions that do not come within the scope of the two Medical Acts, both of Bengal and of India. I hope Government will realise this, and will devote their attention towards the solution of this most important problem."

The Hon'ble Babu Kisori Mohan Chaudhuri said :—

"My Lord, I fully support the proposal. After what has been said by the Hon'ble Sir Nilratan Sarkar, I am fully convinced that Government will consider the question carefully. There is very great need of medical practitioners in the mofussil, but as to how relief is to be given it is for Government to decide. They will collect the necessary material. I would only make one or two suggestions. There is one class of practitioners—I mean the *Kabirajes*—and some of them are very successful physicians; but the difficulty is that there is no good system of studying Ayurveda. I would take this opportunity to suggest that if an examination like the *tol* examination is introduced and anatomy and surgery are taught to the *Kabirajes* the question of medical relief in the mofussil will be partly solved. As the matter of granting medical relief to the mofussil will have to be considered in various aspects, I beg that my suggestion may also be considered in this connection."

The Hon'ble Khan Sahib Aman Ali said :—

"My Lord, I rise to support the resolution. To my mind under Your Excellency's adminstration medical education has become very important and urgent. If Your Excellency's Government will look to the births and deaths account of the Province, Your Excellency's Government will see that the number of deaths is nearly double the births. This is a fact which Your Excellency's Government should not lose sight of; moreover the Government of India wants that the mofussil districts should have more hospitals; and Your Excellency's Government are not unmindful of the necessity. Your Excellency in different centres evinced feelings for the health of your people. Such being the facts, I hope and trust that Your Excellency's Government will be pleased to accept the resolution. In my question in this Council Government told me that for having a medical school for Chittagong, the matter is under consideration of Government. When in last year's budget time I had opportunity to move the Finance Member in the matter, I was told that the scheme is a new one and so could not be taken up during war time when there was a crying need for money. In this year I repeated the same thing over again; I was told that before the Burdwan Medical School is completed no question for a medical school can be taken up for Eastern Bengal. My Lord, the remark was very disappointing A member of this Council has taken up the subject right earnestly. The learned Vice-Chancellor in his speech expressed his earnestness for medical schools. Every non-official member, I think, is keen for having medical schools in the mofussil. Government energy should be directed to the mofussil. I hope and trust that Government will accept the resolution and give effect to it as soon as possible. In the mofussil qualified doctors are not available for giving effect to private enterprises for establishing hospitals. Under such circumstances, I would pray again to Government that they will grant relief as suggested in the resolution."

Resolutions.

Babu Akhil Chandra Datta, Sir Henry Wheeler.

The Hon'ble Babu Akhil Chandra Datta said :—

"My Lord, I beg to support this resolution. In doing so I do not want to make any speech as the resolution speaks for itself. The only question is the question of ways and means and how this can be accomplished financially or otherwise. It is a question of vital importance to the people of the country, and I hope that if there are any difficulties they will be overcome.

I have got only one suggestion to make, and that is this, that we should start with one school in each division of the Presidency. With these words I beg to support the resolution."

The Hon'ble Sir Henry Wheeler said:—

"I apologise for so often having to stand before the Council to present facts and arguments of which they are already aware, but the position is rather one into which I am forced than one of my own choice. In this particular matter of medical education, we had a fairly lengthy discussion in connection with the budget of 1919-20, and as recently as February last Your Excellency, when laying the foundation stone of the Burdwan Medical School, gave a very full explanation of the policy of your Government. In the matter of policy, those gentlemen who have spoken to-day urging the importance of increasing the number of medical men in this province are already, so far as Government is concerned, preaching to the converted. In Your Excellency's speech at Burdwan some six weeks ago, you defined the policy of Government in the following words:—

'The local Government have decided that the right policy to pursue is gradually to establish in important centres throughout the Presidency, medical schools on modern lines,'

and Your Excellency defined that policy after dealing with the argument that we should supply an inferior form of medical education—something less than the standard of sub-assistant surgeons which, compatibly with our obligations to the province, we thought to be the lowest standard we could endorse—and with the argument that we should add still further to the congestion of students in Calcutta by concentrating new medical institutions in this city. Therefore the policy of the local Government and the policy of the Hon'ble Mover of this resolution are very largely one and the same, and it is merely a question of the pace at which we shall proceed. In our view we cannot proceed at too rapid a rate, but we have already done a good deal both by increasing the facilities in existing schools, by starting the Burdwan school (which we hope to complete this year), and, again, in this year's budget, by giving the very liberal sum of Rs. 4 lakhs to what is practically a new medical college in Calcutta.

In this connection I would deprecate drawing a line between school and college education, or between one form of medical expenditure and another. The object of all Medical expenditure is the relief of suffering, and the training of new doctors is not for the purpose of providing fresh careers but in order that doctors may go forth and help the sick. The provision for hospitals is designed to attain the same end in another way.

Well, Sir, that is what we are doing now and the extent of what we contemplate taking up during the ensuing year. There are other possibilities before us, noticeably in connection with the creation of a Medical Faculty at the Dacca University. If that is gone into and found to be a practical proposition, it will naturally raise the question of the status of the Dacca School, and were it found possible to raise that to a College—I do not know whether it will be found possible or not—it might equally then be desirable to open a new medical school in Eastern Bengal for which Mymensingh, with its new hospital, is an obvious place. Then again, the other

Resolutions.

Sir Henry Wheeler.

day, a representation was made to us from Jalpaiguri that the tea industry would like to assist in the opening of a school at that place and the consequential improvements of the hospital. That suggestion came from the Indian section of the industry, and I do not know how far it will be borne out by the more influential European gardens: but we have referred the matter to the local officers and we shall see what comes of it. These are the only two definite propositions which we have before us, and we shall continue the examination of them during the year. Apart from them there is no very obvious centre in the mufassal where a new school could be started, since, as Your Excellency emphasised at Burdwan, it is very often overlooked that the first essential for a school is an efficient hospital. Neither do I think that it is wise to try to go too rapidly in this matter. We have got to complete the Burdwan School and we will be wise to see how it answers. It is a somewhat new experiment to open isolated schools of a small type, and we should reasonably like to be satisfied that the standard of efficiency of teaching will be maintained. It is not unreasonable if we move with some caution, progressing gradually where we see that facilities offer themselves.

In defence of our policy I would again advert to our efforts towards medical relief as a whole, as we so often hear speeches which seems to infer that the local Government is at any rate not overkeen on the subject of medical relief, although I admit the resolution of Mr. Mitter specifically states the contrary. I submit that the action of the local Government in the matter of a medical development should be judged as a whole. We can only spend money on the Medical Department compatibly with the claims of other Departments, and on one particular aspect of the Medical Department, compatibly with the claims of other aspects. Viewing our expenditure on the Medical Department as a whole, it has increased considerably during the incumbency of the present local Government, and we have undertaken many schemes for the benefit of the province. Our expenditure has risen steadily—Rs. 28 lakhs in 1917-18, Rs. 29 lakhs the next year, Rs. 31 lakhs in the revised budget of 1919-20 and Rs. 37 lakhs in the budget of the ensuing year, *i.e.*, an increase of about 32 per cent. in four years, and I think the Council will admit that we have not neglected the very important claims of this side of the administration.

As regards individual works, I would emphasise the many improvements which we have effected since 1917. To take Calcutta first, and to confine ourselves to schemes of first rate importance, the works that we have actually carried out or which are in progress in the Campbell Hospital comprise various extensions, noticeably in the surgical wards, the construction of servants' quarters and the acquisition of a site for a hostel; in the Medical College the construction of an enormous block of servants' quarters, the commencement of the very long delayed project of the Eye Hospital, quarters for new nurses and the acquisition of a site for a hostel, to say nothing of improvements in the X'-Ray and Electrical Department; to Belgachia we propose to give a large grant of Rs. 4 lakhs during the ensuing year; the Tropical School of Medicine and Hospital have been constructed and are now only awaiting equipment and staff; the lunatic asylum at Bhowanipore is being rebuilt, and various improvements have been carried out at the Howrah hospital. Turning to the *mufassal*, we gave liberal grants to the Mymensingh hospital enabling its completion on a scale far superior to that of most other district headquarter hospitals. We have a fine new hospital nearing completion at Dacca and we have made material improvements to the school; finally we have the Burdwan school under construction. I could give an equally long list of projects waiting to be undertaken, but I will not weary the Council. Apart from these institutions we have added largely to our expenditure under the head of the pay of the Indian Medical Service, and we

Resolutions.

Mr. P. C. Mitter.

have also improved the pay of civil assistant surgeons. I urge, Sir, that we can show a very satisfactory record in respect of medical relief, as was indeed only to be expected from the well-known interest that Your Excellency takes in anything connected with the public health, which has been so frequently acknowledged by members of this Council. I have been associated with the Medical Department continuously since 1909, and from the financial point of view it has never been accounted as a disadvantage to a department that it should be a subsidiary charge of the Finance Member.

Therefore, Sir, we have gone ahead substantially under the head of Medical, and we hope to go ahead still more, and even though we are not prepared to go quite so fast as the Hon'ble Member would wish, I hope we may be given credit for our achievements in the past. I sympathise to such a large extent with the intention of this resolution that I do not propose to vote against it. On the other hand, if it means that we should undertake forthwith the opening of new schools, I cannot conscientiously vote for it, as I have just explained to the Council the extent to which only we are prepared to go. But if the Council pass the resolution as an ideal, I personally have not the slightest objection to it."

The Hon'ble Mr. P. C. Mitter said :—

"My Lord, I have to join my hon'ble friend opposite in apologising to the Council for bringing this matter so often to its attention. The reason for my bringing forward this matter so often is that although, as I have admitted in my resolution, the Government has taken some steps yet the progress has not been commensurate with the demands of the situation, and that is the reason why I have again brought forward this resolution. The Hon'ble Member in charge has remarked that I am preaching to the converted, and I hope he will excuse me if I say that if he is a convert he has certainly not the zeal of a convert. He has approached the question more from the point of view of a hard headed Finance Member than of a zealous convert imbued with the enthusiasm of opening more medical schools for the medical relief of the province. The Hon'ble Member has said that it is the policy of Government to have medical schools in important centres throughout the Presidency. We welcome that policy, but our point of disagreement is that Government is not following the policy it has laid down with sufficient earnestness, determination and expedition. The Hon'ble Member says that Government has increased expenditure on the medical head. It is undoubtedly true that medical expenditure has gone up under your Excellency's administration : the figures given just now show that what was 28 lakhs four years ago is now 37 lakhs, but in the earlier part of to-day's debate it was explained that on account of the war many necessary expenditure had to be curtailed, and I have no doubt that medical expenditure generally had to share the fate of various other important projects which were abandoned or the expenses of which were curtailed. From that point of view, my Lord, the rise from 28 lakhs to 37 lakhs is not very much, and when we remember that this year at any rate we have some money to spend and that for some years past this question has been pressed upon the Government and that Government has accepted the policy of extension of medical schools, I expected more money being spent on the extension of medical education. No doubt the Burdwan school was started last year which I hope and trust will be completed this year, but will these additional expenses referred to by Sir Henry Wheeler on the Burdwan school really solve the question to any appreciable extent? Is Government satisfied that it will bring medical relief to the rural population to an appreciable extent?

Resolutions.

Mr. P. C. Mitter.

Appreciable relief can be rendered if the Government makes up its mind to spend 3 to 4 lakhs annually. Human life is far more important than a few lakhs of rupees, and for a Government like ours which has an income of nearly 7 crores of rupees, I do not think it ought to be very difficult to find four lakhs of rupees. My Lord, I quite appreciate that the Hon'ble Member's real point is that he wants to see how the experiment will work. This question was discussed in the Imperial Legislative Council years ago, and this question has also been discussed in the local Council more than once and the Government has accepted the position that it is necessary to have more medical schools. Then why wait any longer? My Lord, if the resolution be accepted in the sense in which Sir Henry Wheeler wants to accept it, and if you will only give me the assurance that Government will try to do all they can, I shall be satisfied. After all, the elected representatives of the people will come in shortly, and as your Government has tried to be helpful to the future Ministers, they will no doubt be helpful in doing the necessary spade work in the intervening period. With these words I leave the resolution to the Council."

The motion was then put and carried.

LIST OF BUSINESS—ITEM No. 5.

The Hon'ble Mr. P. C. Mitter moved the following resolution:—

This Council recommends to the Governor in Council that Government do take into consideration the amendment of section 153A of the Bengal Tenancy Act (VIII of 1885) with a view to the addition of a provision to the following effect—

"The applicant must file an affidavit stating whether he has paid any rent during the period in suit and, if so, the amount and particulars of such payment or payments together with receipts or vouchers in support thereof."

"My Lord, I shall very briefly explain to the Council the object of this resolution. The object of this resolution is to minimise preventible litigation as also to give effect to what was suggested in the report of the Select Committee when the Bengal Tenancy Act was passed into law. In dealing with this section the Select Committee Report says that a deposit of the decretal amount is required in the case of such an application under section 17 of the Provincial Small Cause Courts Act, 1887. We have inserted a new section 153A with the object of preventing vexatious applications for the purpose of delay, not only under section 108 of the Code of Civil Procedure but also under section 623 of the same Code. We think that the tenant should be bound to deposit either the amount, if any, which he admits to be due or such amount as the Court directs. The Court should be empowered to regulate the amount of the deposit after consideration of the statement of injury filed with application. In all cases the Court should state its reasons for the order it passes whether it requires or excuses a deposit. The section is quite explicit on the point, and that was undoubtedly the object of the Select Committee, but in actual practice what is happening is this: the section unfortunately does not say anything about demanding an affidavit or a verified statement; the tenant merely files a statement on a petition stating that he has paid everything although he has not paid anything, but when the landlord files a suit he has to submit a verified plaint, and if there is a misstatement the Court can get at the landlord, whereas when a person who wants to set aside an *ex-parte* decree he files the application without a verified statement or without any affidavit and the Court cannot hold him responsible for the statement. The result is that litigation goes on merrily much to the profit and enjoyment of the village touts but to the detriment both of the

Resolutions.

tenant and the landlord. Therefore if my resolution be accepted much preventible litigation will cease. Neither the landlord nor the tenant is benefited by prolonging the agony. While the landlord gets his money in two or three years the tenant has to pay a great deal more because he has to pay interest for that further period besides costs. I therefore submit if this resolution be accepted litigation will be greatly minimised."

The Hon'ble Rai Mahendra Chandra Mitra Bahadur said :—

"I beg to support this resolution with this object that litigation will be avoided a good deal. When this section was before the Select Committee it was thought that a mere statement on the part of the applicant (the tenant) will be sufficient for the purpose, but my own experience shows that a mere statement is not sufficient because, my Lord, it appears that the Court has authority under clause 153 (*b*) to regulate the amount of deposit to be taken from the tenant. If the tenant pays the amount in full or pays it in part or in excess or if there be any other reason for the claim to be accepted he can say so; it is highly necessary that a sworn statement or an affidavit should be filed in Court. If that is not done and merely a petition is put into Court, the Court is powerless hereafter to deal with the question. Therefore if there be full materials before the Court as evidence the Court will be in a position to deal with the matter. When no such statement is made the tenant can put the landlord to difficulty, but once he had made a sworn statement he cannot resile. It will benefit the landlord as well as the tenant if this procedure, which was the subject matter of consideration by the Select Committee, were adopted. These are the reasons for which I support the resolution moved by my hon'ble friend."

The Hon'ble Babu Sarat Chandra Chakrabartti said :—

"My Lord, I beg to oppose this resolution and I hope that all the members of the Council who have got the interest of the tenants and raiyats at their heart, will oppose it. The object of this resolution is simply to benefit the landlords and to add to the already heavy difficulties under which the tenants are to live and carry on litigation with a powerful member. What is the object of this resolution? The hon'ble mover says that there ought to be an affidavit sworn by the tenant when he files an application under section 108 of the Bengal Tenancy Act, that is to say, when there is an *ex-parte* decree in favour of the landlord or when there is a revision of the judgment or when there is a failure of justice on any insufficient ground the tenant has under the existing law only to file an application before the Court. My Lord, we have to consider what sort of difficulties he labours under. Besides the court-fees on his petition or application he has to pay process-fees, pleader's fee and other necessary expenses incidental to litigation. In view of these harassments the learned Judge shall have to take into consideration the fact whether the application of the tenant is justifiable or not. Moreover under section 153(*a*) he has to deposit the very limited amount of rent which he admits is due from him to the landlord. So notwithstanding all these difficulties if the tenant think that there has been a failure of justice or there has been some misrepresentations of the overzealous zamindar's agent or that there has been, for some reason or other, an *ex-parte* decree against him he has the power under the legislature to submit an application before a Court either to review the judgment or reconsider the matter altogether. So, my Lord, I think my hon'ble friend's resolution proposes an amendment which will add to the difficulties of a tenant. He has simply moved it for the benefit of the landlord to the detriment of the tenant. Moreover what will be the benefit of passing this resolution if it is proposed that the applicant must file an affidavit stating whether he has paid any rent during the suit and, if so, the amount and particulars of such payment or

payments together with receipts or vouchers in support thereof. If this be done landlords would not be greatly benefited, but it would simply add to the difficulties of the tenant. With these remarks I beg to oppose the resolution."

The Hon'ble Mr. Cumming said :—

"My Lord, I am sorry that the Council should be troubled with a suggestion of a somewhat technical nature regarding tenancy legislation, which the Hon'ble Member has seen fit to bring forward. Indeed I am also astonished, since I am sure the hon'ble mover must be aware that there are many possible changes which might be made in the Tenancy Act, whether in the landlords' interests or in the tenants' interests. Indeed some, of which Government are personally well aware, are of greater importance than this. I may also say that so far as the Revenue Department have information there has been no general demand for the increased protection which he asks ; nor am I prepared to admit that, so far as Government are aware, the landlords have any legitimate grievance in the matter. Now, shortly, what is the point ? The hon'ble mover says that he desires to minimize litigation in the interests of both landlords and tenants ; but, even according to his own statement, the interest is primarily that of the landlord ; and, as the last speaker has shown, it is almost entirely in the landlords' interests. The point is that at the time when this section 153A of the Tenancy Act was passed in 1907, it was laid down that under certain circumstances an applicant who wished to have a review in his favour should deposit in court the amount of rent which he admitted to be due. The hon'ble mover says—so far so good ; but in practice that advantage has been minimised by the fact that the tenant puts forward vexatious statements on the basis of which he is able to persuade the court to forego this deposit. As a further check the hon'ble mover now suggests that it is desirable that a tenant defendant should file an affidavit stating the amount due from him as rent together with the details of payment. In the matter of this kind, Government at present have no preconceived views. Government are quite prepared to make an enquiry as to whether this proposed amendment is necessary or not, but Government at present are not prepared to be committed in any way regarding either its merits or demerits, or as to the wording or the terms of the Hon'ble Member's resolution ; nor are they prepared to commit themselves to any promise of future legislation. If the hon'ble mover is prepared to accept this view of Government, that they will make enquiries as to the necessity or desirability of such a change in the law, then on that understanding Government will accept the resolution. But I should like to point out, my Lord, that if any amendments of this nature are to be brought forward, it is highly desirable that they should be preceded by a Rent Law Commission. During the time that I have been in charge of the Revenue Department of this province, I have realized that the time must come, though the present time is not opportune, when there should be a further stock-taking as to the working of the Tenancy Act. It may be that some pro-landlord amendments are required and that some pro-tenant amendments are required ; but unless some definite injustice has been committed, or some wrong has to be remedied, Government are not prepared at present to undertake piecemeal legislation of the nature suggested. As regards the particular matter which has been placed before the Council, namely, that an affidavit as well as a deposit is required in certain cases, Government are prepared to make an enquiry ; and to that extent, as I have already stated, Government will accept the resolution."

The Hon'ble Mr. P. C. Mitter said :—

"My Lord, I am prepared to accept the position laid down by the Hon'ble Member in charge that Government will inquire into the matter, but in doing

Resolutions.

so I should like to explain one or two points. The Hon'ble Mr. Cumming has pointed out to the Council that it is not desirable that changes in the Tenancy Act should be introduced piecemeal, and that all changes should be preceded by a Rent Law Commission. I may assure my hon'ble friend opposite that I have fully and carefully considered that position, and I quite agree that that is a valid position. But even while holding that view my reason for moving this resolution was this. I am not seeking for the introduction of a new principle ; this principle has been accepted by the Act as it stands ; it is only an evasion of the principle embodied in the Act which renders my resolution necessary. I have no doubt that if the Government enquires into the matter, it will find that out of 100 cases in which ex-parte decrees are set aside, 90 cases are ultimately decreed to the full, so that Government will find that, although the wording of section 153A is quite clear, yet during all these years much preventible litigation has been going on. The consideration of changes in the Tenancy Law is a point of great importance. The Rent Law Commissioners will have to consider all the various changes in principle which may have to be introduced. But this does not involve a question of change of principle. That is all I have got to say in reply to the Hon'ble Mr. Cumming.

With reference to the remarks of the Hon'ble Babu Sarat Chandra Chakravarti, to whom I have listened to with the utmost respect, I may say that my resolution is certainly not opposed to the real interests of the tenants. I look upon the true interests of the landlord and the tenants are identical. The interests of the oppressive landlord are no doubt entirely different from the true interests of the tenants, but the landlord who has certain dues to realize, if he sues the tenants, and if interested people advise the tenant to go on litigating, that is not serving the true interests of the tenants, because in any case the tenant will ultimately have to pay, and the utmost he can get is one or two years' respite, and in that case he will have to pay much more. I have no doubt that my hon'ble friend will agree with me when he considers the matter in cooler moments that such a course is not furthering the interests of the tenants.

With these words, my Lord, I beg that this resolution be put."

The motion was then put and agreed to.

LIST OF BUSINESS—ITEM No. 6.

The Hon'ble Babu Kishori Mohan Chaudhuri moved the following resolution :—

"This Council recommends to the Governor in Council that the Railway Board be moved to take up immediately the construction of the railway line from Issurdi to Nachoul *viâ* Rampore-Boalia connecting the two sections of the Eastern Bengal Railway, viz., Godagari-Katihar line and Calcutta to Santahar main line, the construction of which has already been approved."

He said :—

"My Lord, in moving this resolution I cannot perhaps do better than to quote a letter of my friend, the Hon'ble Mr. O'Malley, then District Magistrate of Rajshahi, to the Commissioner, Rajshahi Division, dated Rajshahi, the 16th March, 1916, regarding the subject of the present resolution.

But before I do it I will ask for the indulgence of the House for giving a short account of the movement that has, as a last resort, resulted in the present resolution before this Council. It was in the year 1882 or 1883, when the divisional headquarters of the Rajshahi Division was at Rampur-Boalia, that Lord Ulick Brown, the then Commissioner of the Rajshahi Division, started the proposal for a railway line from Nator to Rampur-Boalia, a distance of only about 28 miles, and even went so far as to settle with

Resolutions.

Babu Kishori Mohan Chaudhuri.

Messrs. Mitchell & Co—I am saying all this from memory and therefore speak subject to correction—for the construction and working of the line by them with a guarantee from the Road Cess Committee and the Rampur-Boalia Municipality for a profit of Rs. 850 a mile and a lump contribution of Rs. 90,000 was then promised by Babu, afterwards Maharaja, Gobindalal Roy of Tajhat in Rangpur, on the occasion of his accession to the Raj title, for a bridge at Jhalmalia. Every arrangement was complete for the taking up of the work and even the necessary deeds were drafted and considered, but, unfortunately for the people of Rajshahi, Lord Ulick Brown retired sometime in 1884 and his successor in office, Mr. Lowes, with the help of his then Personal Assistant Rai Bahadur Harimohan Chandra—my predecessor in this Council—induced the donor to divert his promised contribution towards constructing the Lowes Jubilee Sanitarium at Darjeeling. I do not know whether this diversion was the consequence of the removal of the divisional headquarters to Jalpaiguri. The result, however, was that the proposed railway line was practically abandoned altogether. The sanitarium became extremely useful in its way no doubt, and it might have also secured a life pension of Rs. 900 a year to my friend Rai Bahadur Harimohan Chandra, but the people of Rajshahi could not help regarding it as a great loss to them and as an act of deliberate injustice—possible only because of the official influence of some interested persons—done to them stifling their natural aspiration to be in closer touch with Calcutta and the outside world. No one can possibly doubt that it was a great loss to them for if the proposed line were then established, Rajshahi would surely have expanded much more than it has done in the past few years. There was at that time no metalled road, as now is, from Rajshahi to Nator nor was there any steamer service connecting Rajshahi with the railway line and thus Rajshahi remained, as before, cut off for want of speedy communication and more especially so during the rains. Your Excellency and my hon'ble colleagues can easily realize the great disappointment that we the people of Rajshahi felt at the time.

After that again and again the people of Rajshahi tried their level best to have their just grievances redressed by the construction of a railway line, if necessary with a contribution from the Provincial fund. They even got, my Lord, repeated assurances from the successive rulers of the province and His Honour the Lieutenant-Governor, Sir Alexander Mackenzie, on the occasion of his visit to the town, assured us that as soon as the site of the Sara Bridge would be finally settled we would get a railway connection with that place. The site of the bridge was settled, the Hardinge Bridge was completed and traffic over it has been going on for several years, still the people of Rajshahi are, my Lord, just where they were, and the much repeated promise by the Government—I am very sorry to say—remains unredeemed to this day. The people of Rajshahi are even worse than they were before, because, not to speak of the establishment of the promised railway connection with Paksey, the steamer service that was plying before the construction of the Hardinge Bridge was discontinued—to our great surprise not altogether unmixed with a sense of humour at this irony of fate.

There are now at Rajshahi a first-grade college with about 800 students, a central jail, an agricultural farm, the Varendra Research Society, a sericultural school, a technical school with B classes attached to it, a Sanskrit College, two High English Schools teaching up to Matriculation standard, and within 10 miles from Rajshahi there is the big Police Training School at Sarda, and there is every possibility of the Rajshahi College being developed into a University and other educational institutions are also likely to come into being at no distant date. Then there is at Rajshahi the headquarters of the Executive Engineer of the Rajshahi Southern Division. Though there is now a metalled road from Nator to Rajshahi, the means of communication are very uncertain, irregular and costly for the ordinary public

Resolutions.

especially for the ladies. I have heard instances when students of the Rajshahi College coming from the eastern side, *i.e.*, those who are compelled to take the Nator route when they return to college from their homes after the vacations, had sometimes to wait for two days at Nator for want of conveyance. And such instances are not rare. There is also of course a daily steamer service between Sarda and Lalgola Ghât *viâ* Rampore-Boalia, which is also very uncertain and irregular, especially during the summer. This aspect of the question has been very fully dealt with in the letter referred to above of my friend the Hon'ble Mr. O'Malley, which I may be permitted to quote here—

No. 4006, dated Rajshahi, the $\frac{16}{18}$th March, 1916.

From—L. S. S. O'MALLEY, ESQ., I.C.S., Chairman, District Board Rajshahi,

To—The Commissioner of the Rajshahi Division, Jalpaiguri.

I have the honour to forward herewith a copy of a resolution regarding railway communications in the district of Rajshahi, which was passed at a special meeting of the District Board held on the 7th February last.

2. I may, in the first instance, state briefly how the district is situated in respect of railway communications. To the east Northern Section of the Eastern Bengal Railway runs through the Nator subdivision from near Issurdi to Raninagar, the length of the line within the district being approximately 14 miles. To the extreme south-east a short length of the Godagari-Katihar extension of the same railway runs from Godagari Ghât on the Ganges to Digram station, a distance of about 11 miles. The whole of the district between these two lines is without any railway.

3. The absence of railway facilities is especially felt by the headquarters station of Rampur-Boalia. This town was formerly the headquarters of the division as well as of the district, but owing to difficulty of access the Commissioner's headquarters were transferred from it in 1888. In spite of this recognition of its inaccessibility nothing has yet been done to extend the railway to the town. Its position has, moreover, been seriously affected by the opening of the Hardinge Bridge across the Ganges in 1915. Before that bridge was opened, a steamer service ran between Lalgola Ghât and Damukdia Ghât touching at Rampur-Boalia and thus furnishing a link with the railway ; but since the bridge has been opened the service to Damukdia Ghât has been discontinued and the steamers now run only from Lalgola Ghât to Charghat, a village 14 miles south-east of Rampur-Boalia. The result is that persons who wish to go to Calcutta have to travel by steamer to Lalgola Ghât or by road to Godagari Ghât. Those who undertake the latter journey have to go over a bad road, 13 miles long, the first two and a half miles of which are on the Public Works Department embankment and so badly maintained that they are passable with difficulty. Those who wish to go to other parts of North Bengal can only do so by going to Nator—a tedious and expensive journey of 28 miles. In addition to this, the steamer service cannot be altogether relied on owing to the shifting of the river channels ; in 1914, for instance, the steamers could not put in nearer than 7 miles from Rampur-Boalia.

4. The present state of affairs is a source of considerable inconvenience not only to the public but also to the administration, there being no means of speedy access to the outlying subdivisions and to the greater part of the sadar subdivision. Rampur-Boalia, moreover, is the fifth largest town in North and Eastern Bengal, its population being exceeded only in Dacca, Cittagong, Narainganj and Serajganj. It contains a central jail with over 800 prisoners, most of whom are received from other districts of North Bengal

Resolutions.

Babu Kishori Mohan Chaudhuri.

and require escorts. It also contains a Government college, which is the third largest Government college in Bengal, the number of students being surpassed only in the Presidency College, Calcutta, and the Dacca College. The actual number of students varies, but averages from 725 to 750. They come from 22 districts of Bengal and as one-sixth come from Pabna and a fourth from Dacca, Faridpur and Mymensingh taken together, it will easily be realized to what inconvenience they are put in coming to and going from Rampur-Boalia.

5. The people of Rajshahi are naturally anxious to have a railway to the headquarters, but have hitherto taken no steps to secure the construction of a line as it has long been expected that one would be constructed by the Eastern Bengal Railway. No such line, however, has materialized. Their long deferred hopes have given rise to a not unnatural impatience, and they desire to know definitely what is intended by the railway authorities. It is now felt that if the Eastern Bengal Railway is not likely to build a line in the near future, the District Board itself should take up the question. The District Board considers that such enterprise is directly encouraged by the recent pronouncements of the Government of India in paragraph 31 of its resolution Nos. 55-77, dated the 25th April, 1915, on local self-government policy and of the Government of Bengal in paragraph 12 of its resolution No. 2993 L. S.-G., dated the 29th December, 1915, on the working of District Boards in Bengal. At the same time it realizes that it is out of the question to consider any such project if the railway itself will definitely undertake to build a line. It is also aware that the sanction of the Railway Department would be necessary in order to ensure that the project shall not conflict with others that it may have under consideration. It, therefore, considers it desirable to ascertain, in the first instance, whether the railway authorities will build a line to Rampur-Boalia and, if so, when.

6. In this connection, I may remark that a note by the Agent of the Eastern Bengal State Railway, on the development of railways in North Bengal, was published in the *Statesman* of the 21st August, 1915. In this note the comparative merits of a line from Nator to Godagari through Rampur-Boalia and of another line from Issurdi to Nachaul through Rampur-Boalia were discussed. The conclusion of the Agent was that the advantage lay with the latter route and that 'this line should take an early place in the programme of railway extensions.' The proposed line, it was stated, would be on the standard gauge, the portion from Godagari to Nachaul being converted to standard gauge when it had been built; and the hope was held out that if traffic really justified it, a short chord might be built later on between Nator and Rampur-Boalia. The District Board has not, however, been consulted in the matter and is not aware whether any decision has been arrived at.

7. The construction of this line from Issurdi to Nachaul *viâ* Rampur-Boalia may conceivably be delayed by financial considerations, by questions of gauge and by engineering difficulties in the section between Issurdi and Rampur-Boalia. If this is the case, I would urge that for the present the question of constructing a short branch from Rampur-Boalia to Godagari Ghât may be considered. The Godagari Ghât station was formerly situated 19 miles from Rampur-Boalia, but last year owing to the formation of a *char*, which impeded the passage of the ferry steamers plying between that station and Lalgola Ghât, the station and ferry wagon were shifted to a place 13 miles from Rampur-Boalia to which the name of Godagari Ghât has been given. For this purpose a line, about 5 miles in length, was built from Godagari to the present Godagari Ghât, and it is a matter of regret that the question of extending the line at the same time over the comparatively short distance of

Resolutions.

Babu Kishori Mohan Chaudhuri.

13 miles to Rampur-Boalia was not considered. Such an extension would give Rampur-Boalia the railway connection which is so badly needed, and it would, I believe, present no engineering difficulties and involve no very heavy expenditure. If, therefore, there is likely to be any delay over the construction of a line from either Issurdi or Nator to Nachaul or Godagari *viâ* Rampur-Boalia, I would strongly urge that the desirability of constructing, in the first instance, a branch line between Rampur-Boalia and Godagari Ghât should be considered."

I take this opportunity of expressing on behalf not only of myself but of the whole public of Rajshahi our deep gratitude to the Hon'ble Mr. L. S. S. O'Malley for his active and genuine sympathy and the great interest which he took in this matter. The letter speaks for itself and is a great support to me for this resolution coming as it does from a responsible officer of Government.

Now, my Lord, so far back as the year 1913 we were told in a letter from the Hon'ble Mr. B. K. Finnimore, Secretary to the Government of Bengal, to the Commissioner Rajshahi Division, being No. 67 T.—R., Government of Bengal, Railway Department, dated Darjeeling, the 12th June 1913, that 'it is almost certain that the line would be constructed from Nachoul, *viâ*, Rampur-Boalia to Gopalpur' and it is nearly seven years from that date and the railway which was so certain seven years back has not yet seen its way into the budget.

We have waited for about 37 years from the year 1883, and the District Board, during the Chairmanship of Mr. O'Malley—probably despairing of any action by the Government—ultimately proposed to construct a light railway themselves and pending sanction advertised for tenders for capital outlay on 4 per cent. guarantee. Tenders came but had to be refused because the scheme did not receive the necessary sanction of the Government (*vide* the reply given by the Hon'ble Mr. Cowley to the starred question No. 8 put by me in the meeting of this Council held on the 3rd September, 1918). So that scheme has also dropped, and we have had again to fall back upon the promise of the Government and are now most anxiously looking forward to them for the early fulfilment of our just and legitimate aspiration.

It appears from the reply given by Sir Arthur Anderson to a question put by the Hon'ble Maharaja Sir Manindra Chandra Nandi in the meeting of the Imperial Legislative Council on the 1st March, 1919 (*vide* pages 219 and 270 of Part VI, *India Gazette*, dated the 8th March, 1919), that the railway line from Issurdi to Nachoul *viâ* Rampur-Boalia was at that date under the consideration of the Government for early construction and the scheme has been approved having been placed in the list of "New lines to be financed from programme funds" and the line, the cost of which was estimated at 87 lakhs, was to be completed within three years. This, my Lord, has given a new hope to the people of Rajshahi. Your Excellency and the Government will, I venture to expect, be pleased to excuse the impatience of the Rajshahi people if there is any, for the impatience is only natural under the circumstances. Their inconvenience, cannot, my Lord, be exaggerated and their just ambition, which was on the point of fulfilment about 37 years back, is still now unfulfilled in spite of repeated assurances from responsible quarters. The war has now ended and the new era of joy and peace has again prevailed, and therefore, my Lord, I appeal to the Government, with all the earnestness that is in me and with all the emphasis that I can command, that this much-needed and longexpected reform be not deferred any further.

I have so long dealt with the question from only one point of view, viz., the inconvenience of the Rajshahi people, but I may add that the line

Resolutions.

Mr. Cumming.

running, as it will do under the proposed scheme, through the Barind, the rice-producing tract of the district, will also help commerce and this must have been taken into consideration by the Railway Board while sanctioning the project. There is a large rice-market at Nawabganj which I hope the new line will touch and this will certainly benefit the commerce in rice. There are also other commercial advantages to be derived from the proposed new line which I need not discuss in detail, the scheme having already been sanctioned by the Railway Board. But I may mention that when the connection between the two branches of the Eastern Bengal Railway in the way proposed will be complete the Godagari-Katihar line having secured an easy outlet would be paying and more prosperous.

I have detained the Council for long and I beg to be excused. This is a matter in which I feel very strongly and therefore I have spoken out of my heart.

With these few words I commend this resolution to the acceptance of the House."

The Hon'ble Mr. Cumming said :—

"My Lord, Government sympathize with the natural desire of the people of Rampur-Boalia to have a connection with the outside world. The Hon'ble Member has laboured in a somewhat attenuated Council by long quotations and somewhat technical arguments to prove his case in a matter in which Government are entirely at one with him. This matter of railway communications with Rampur-Boalia has been, I regret to say, before the Government for over 30 years ; and the alignment which the local officers have favoured has had the entire support of the Bengal Government for at least seven years. In recent years there has been a controversy as to the merits of two alignments. In each alignment Rampur-Boalia is the fulcrum. There are many arguments which were considered by the Railway Board in their final review of 1916 when they supported the alignment from Gopalpur through Rampur-Boalia to Nachaul on the Godagari line. This was considered by the Secretary of State in connection with the whole question of the improvement of railway communications in Northern Bengal in 1917 ; but I regret to say that on that occasion the Secretary of State passed no final orders in this matter. In March, 1919, as the Hon'ble Member has indicated, this project, although not the project which his townsmen have hitherto advocated, has been entered in the programme of the Railway Board which Sir Arthur Anderson placed before the Imperial Council. The hon'ble mover now asks that the Local Government should press the Railway Board to push on with its construction. I desire to say, on behalf of Government, that if the hon'ble mover will modify the word 'immediately' by substituting for it 'at an early date,' Government will be prepared to accept his resolution. The position is this : the Local Government have always favoured some such communication as he himself desires. The Bengal Government have been overruled as regards the alignment from Nator through Rampur-Boalia to Godagari, which they supported. The alignment which now holds with the Railway Board has been placed in their list of projected works ; but as Sir Arthur Anderson stated, the Government of India are unable to say when it will be possible to commence any of these projects. In the circumstances the Bengal Government would now rather press that this particular project should be pushed to an early completion, than contend further for the alternative alignment which has hitherto been considered by local officers in Bengal as the better of the two alternatives. With these remarks, I am prepared to accept the resolution, subject to the alteration which I have suggested."

Adjournment.

Babu Kishori Mohan Chaudhury.

The Hon'ble Babu Kishori Mohan Chaudhury said :—

"My Lord, I thankfully accept the suggestion. It may be put in the modified form."

The resolution was then put in the following form and agreed to :—

"This Council recommends to the Governor in Council that the Railway Board be moved to take up at an early date the construction of the railway line from Issurdi to Nachaul *viâ* Rampur-Boalia connecting the two sections of the Eastern Bengal Railway, viz., Godagari-Katihar line and Calcutta to Santahar main line, the construction of which has already been approved."

Adjournment.

The Council was then adjourned to Monday, the 12th April, 1920, at 11 A.M. at Government House, Calcutta.

RESOLUTION—No. 87T.—R.

READ—

Letter No. 5R.G., dated the 23rd April 1920, from the Commissioner of the Burdwan Division, submitting with his remarks the final report by the Collector of Bankura on the famine relief operations, in the district of Bankura, during the year 1919.

THE district of Bankura which comprises an area of 2,621 square miles and has a population of 1,138,000, enjoys the unenviable notoriety of being more susceptible to famine than any other district in the Presidency. It

suffered from famine in 1866, 1874, 1897 and 1916 and from scarcity in 1885 and 1908; it suffered again from famine in 1919. The causes for its liability to famine are peculiar to itself. The whole of the Sadar subdivision on the west in addition to a large area of the Vishnupur subdivision in the south and west, is an undulating rocky and jungly tract. Owing to the rocky nature of the soil only a little over one-third of the district is cultivated. On 83 per cent. of the cultivated area winter rice is grown and on 7 per cent. autumn rice. Except, however, in the valleys or furrows in the undulating country, much of the soil is not very fertile, and, as it lies on the slopes or uplands, cannot be properly irrigated except from reservoirs, called *bandhs*, which are, however, both inadequate in quality and quantity. If the rainfall fails or is not properly distributed, the cultivators of these lands suffer. The cultivating classes represent 74 per cent. of the total population of the district and consist largely of aboriginals and semi-aboriginals. They are mainly dependent upon the rice crop for their livelihood and subsistence. In normal times this is more than sufficient for their needs; but they are still far from acquiring the habit of thrift, so that when a failure of the crops occurs they have nothing to fall back upon. Moreover, owing to their improvident habits the best lands have been sold for their debts and thus concentrated in a proportionately small number of hands. The three main causes for famine in the district of Bankura are therefore (1) the unfertility of the upland soil, (2) the thriftlessness of the inhabitants, and (3) the unequal distribution of the soil amongst the different classes.

2 The above three causes operated to bring about the famine of 1919. It must not, however, be supposed that there was at any period of the famine an insufficiency of foodstuffs in the district. Such was not the case, though arrangements were made for the supply of Burma rice in local areas in which there was a temporary shortage, or where local dealers attempted to inflate prices. In normal times the district produces more rice than it requires for its own consumption; and last year sufficient rice remained in the district from the harvests of the previous years for its needs. The trouble was the unequal distribution of the surplus and the fact that the distressed classes had not the wherewithal to purchase it. During the two years following the famine years of 1915-16 there were bumper harvests; but before the people could entirely recover from its effects the rains again failed. In the months of July and September 1918, the rainfall was 50 per cent. in defect of the normal over the greater part of the district and practically failed towards the end of the latter month, with the result that the outturn of the autumn and winter rice crops was only 53 per cent. of the normal. Further, the situation was aggravated by the epidemic of influenza which levied a heavy toll on the people in the months of November and December, removing many of the bread-winners from amongst the poor.

The situation was moreover complicated by the high prices for the necessaries of life caused by the war, in particular by the high price of cloth. It was these two extraneous factors which made the distress as keenly felt as in 1916, otherwise the famine neither in point of duration, extent or numbers compared in magnitude with that of 1916. The classes affected by the distress were landless labourers, small cultivators, the poorer *bhadralog*, lepers and mendicants: of the latter two categories there is an unduly large proportion in the district. The industrial classes with the important exception of cotton weavers were hardly affected at all. No deaths occurred from starvation.

3. The first indication of distress was the lack of sufficient water for man or beast; for the improvement of this the District Board made arrangements by the provision of cheap wells. But the situation rapidly developed into a difficulty of food and raiment as well as of water. It was, however, carefully watched and timely preparations were made so that relief operations were started immediately they were required at the end of January 1919. Owing to the increase in the area affected and the intensity of the

distress the existence of famine was formally declared with effect from the 15th May 1919. The distress reached its zenith at the end of July and began to abate at the end of August; relief operations were closed in the middle of October 1919 when the harvesting of the early autumn rice-crop restored normal conditions. The area affected in varying degrees was 2,364 square miles and excluded the three most eastern thanas, in the district, of Kotalpur, Indas and Seromanipur. The whole expenditure met from public funds on the relief operations, including the relief work organised by the District Board, was borne by the State.

4. For the purpose of relief, the distressed area was divided into 17 circles. With few exceptions each circle was placed in charge of a special relief officer, who was responsible for the supervision of (*a*) gratuitous relief, (*b*) relief on works, and (*c*) the actual distribution of loans, the three main forms of Government relief. But the initial preparation of lists of persons entitled to gratuitous relief was entrusted to non-official local committees; and both this relief and the wages to persons employed on relief works were distributed by honorary agencies, ordinarily belonging to the chaukidari panchayat. The relief works included 26 reservoirs, 2 irrigation channels and 71 roads. They were village works selected so as to be near the home of the workers with a view to the completion of work left unfinished at the previous famine, to the very necessary provision of irrigation works and sources of water-supply and, lastly, to the development of internal and inter-district communications. Almost all the works have been completed and steps have been taken to complete those remaining unfinished at the close of the relief operations. The total expenditure incurred in wages was Rs. 2,62,907; the daily average of persons employed was 5,408, whilst the largest number employed at one time was 12,364 or 1·27 per cent. of the affected population. The average daily wage per head was annas 2-11 against annas 2-2·8 in the previous famine. This higher average is attributed to the higher scale of wages fixed under the piece work system on the basis of prevailing prices. The price of common rice which had been 7 seers to the rupee in January rose to 4¾ seers in September, though it was at no time high in comparison with the prices prevailing in the rest of the province. The wages given were sufficient to maintain the dependants of the workers.

Gratuitous relief was given chiefly in the shape of cash doles weekly at the rate of 5 pice daily for a man, 3 pice for a woman and 2 pice for a child. During July and August when the price of rice rose to 5 seers or less a rupee the rate was enhanced by a pice in each case. No kitchens or poor houses were opened. The cost of gratuitous relief amounted to Rs. 1,19,680; the average cost per head was 10·18 pies against 9:16 pies in 1915-16, the higher cost being due to the higher range of prices. The daily average of persons relieved was 9,769 being 1·008 per cent. of the population affected. The numbers on gratuitous relief were in excess of those relieved on works; but the Governor in Council is satisfied that this was inevitable owing to the presence of a large number of physical wrecks from poverty and disease in the lower strata of the population.

A certain amount of special relief was given by Government on light work of paddy-husking, net-bag making and the collection of *ghutin*, whilst cloth was provided by Government for free distribution through the District Relief Committee.

Loans under the Agriculturists' Loans Act were advanced to 50,655 persons to the extent of Rs. 5,70,193, and under the Land Improvement Loans Act to the amount of Rs. 25,951. The Governor in Council endorses the opinion of the Collector that these loans were beneficial to the recipients and preserved their morale. The percentage of the cost of the establishment to the total cost of relief was 6 per cent. against 6·5 per cent. in the previous famine. His Excellency in Council, therefore, notices with satisfaction that the relief works were conducted in such an economical manner.

5. Charitable relief from private funds was given mainly through the District Relief Committee of which the District Judge was the president, and several charitable societies some of which had co-operated during the previous famine. Relief was also afforded by means of private works. Amongst other activities the District Relief Committee gave relief to those cotton weavers who could not be formed into registered co-operative societies by the distribution of yarn to them for conversion into cloth which was subsequently in its turn used for gratuitous relief. They manufactured cloth valued at Rs. 11,198 and made a free distribution of 21,642 pieces of cloth valued at Rs. 31,434 including standard cloth supplied by Government. To the different charitable societies were assigned areas in which to distribute relief. This was mainly given in the form of doles of rice, cooked food or cash. They relieved 1,551 persons daily on an average, but were handicapped by lack of funds. They worked throughout in harmony with the official organisation. Some 872 works, including 153 irrigation works and 102 tanks and wells, were conducted by private agencies with or without Government aid. The total expenditure on such works was Rs. 1,67,558. The Marwari community opened useful kitchens in Bankura and Vishnupur.

6. The problem of relieving cotton weavers was satisfactorily solved by the timely formation of the Bankura Industrial Co-operative Union, Limited. The Bengal Provincial Co-operative Federation gave to the union credit for a lakh of rupees, while Government gave a guarantee against loss to the extent of a quarter of a lakh. This union rapidly extended its operations and had at the end of October 1919, 41 societies affiliated to it with a membership of 555 individuals. It gave employment to 500 families. Those cotton weavers who could not be formed into societies were relieved, as already mentioned, by the District Relief Committee.

7. Though it cannot be expected that the district of Bankura can be made proof against famine in any short time, remedial measures are being adopted, or being investigated, by Government. Indeed the report contains some indications of the directions in which an advance has been made for the economic regeneration of the district which will provide an insurance against future famine. In the resolution on the famine relief operations of 1915-16 a hope was expressed that amongst honorary workers of the district there would be found men who would undertake the task of introducing co-operation and thrift, and thereby prepare the people to meet future famines. His Excellency in Council is gratified to notice that since then the co-operative movement has begun to take a hold on the district as indicated by the good work done by the Bankura co-operative industrial union amongst the weavers. The union is now organising credit societies to promote the habit of thrift, and several co-operative granaries have already been registered. An effort is also being made to organise irrigation co-operative societies. It is obvious that the problem of irrigation is of the utmost importance in Bankura; and it is hoped that by the passing of the Agricultural and Sanitary Improvement Bill into an Act, greater facilities will be afforded to agriculturists for the execution of irrigation works. The Agricultural Department have taken up the problem of evolving a drought-resisting variety of autumn rice capable of germinating even in years of comparatively small rainfall; and it has been decided, in accordance with the general policy of expansion in the Agricultural Department, to establish an agricultural farm in the district headquarters where experiments on the agricultural problems peculiar to the district will be undertaken and demonstration of the results of experiments made.

8. The Hon'ble Mr. Cumming, Member-in-charge, visited the district in December 1918 and in March and August 1919 made extensive tours with the Commissioner and Collector and gave necessary instructions for the guidance of the officers employed on the work of relief: he found that the operations were conducted with economy and efficiency. The Governor in Council desires to place on record his appreciation of the services rendered

by Mr. Lees and Mr. Gupta, the Commissioners of the Burdwan Division, and Mr. Vas, the Collector of Bankura. Mr. Vas worked with great zeal, and displayed energy, tact, foresight, and resourcefulness in conducting the relief operations. The thanks of the Governor in Council are also due to the Rev. A. Brown and the other members of the District Relief Committee, who rendered highly valuable assistance. Among the officers serving in the district Rai Sahib Suresh Chandra Chatarji, District Engineer, and Babus Satish Chandra Ghosh and Prafulla Chandra Ghosh, sub-divisional officers, deserve special mention. His Excellency in Council is also pleased to notice the efficient work done by the panchayats, and the spirit of civic service with which they were imbued, and has decided to have tangible marks of recognition of their labours presented to those who were conspicuous in this respect. The thanks of His Excellency in Council are also due to the numerous charitable organisations and to all private persons who generously gave material assistance in the efficient and successful working of the relief operations.

RESOLUTION ON THE RELIEF OPERATIONS CARRIED OUT IN THE BRAHMANBARIA SUBDIVISION OF THE TIPPERA DISTRICT DURING THE YEAR 1919.

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Agricultural Branch.

DARJEELING, THE 1ST MAY 1920.

RESOLUTION—No. 82T.R.

READ—

Letter No. 619G., dated the 7th February 1920, from the Commissioner of the Chittagong Division, submitting the final report on the relief operations in the Brahmanbaria subdivision of the Tippera district during the year 1919.

THE report deals with the operations for the relief of distress which prevailed in the Brahmanbaria subdivision of the Tippera district during a period of nine months from February to October 1919. There was also some distress in local areas of the Sadar and Chandpur subdivisions of the district which was of short duration and promptly relieved. The total area of the subdivision is 769 square miles and the population is 385,996; out of this area 300 square miles with a population of 250,000 were affected. During the previous distress of 1915-16 the whole of the subdivision except one thana was affected. The duration and extent of the distress on the present occasion was not such as to necessitate at any stage of the operations the declaration of scarcity or famine; but a report under section 59 and and periodical returns under section 66 of the Bengal Famine Code were submitted to the Government of India.

2. The subdivision has come into unfortunate prominence within recent years on account of its floods. The north of the subdivision is low and marshy; it lies in the fairway of the effluent from Sylhet, which is fed by the rainfall in Cherrapunji and Silchar, which is the highest in India. It is inevitable that simultaneous heavy rainfall over a large catchment area in comparatively flat country must produce temporary floods. The result of a special examination made in 1919 was to show that the Assam-Bengal Railway embankment through the subdivision does not, as a matter of fact, aggravate the floods. The earlier history of the district indicates the occurrence of floods in the district in the years 1887 and 1907. The floods of 1915, however, combined the evils of untimeliness and unusual height. Then again in 1918 there was a high flood in the month of July which had a most detrimental effect on the autumn rice, the jute and also on the broadcast winter paddy. As the flood water subsided very late, the transplantation of winter paddy and the sowing of the winter crops was impeded. Furthermore, there was a drought which lasted from the middle of October 1918 to the end of June 1919. The floods caused damage to crops in the season 1918-19 to the extent of 70 per cent. of winter rice, 60 per cent. of autumn rice and 30 per cent. of jute, whilst the prolonged drought brought about a lack of drinking water and retarded the sowing of jute and *aus* paddy in the year 1919. The jute crop in that year was, however, on the whole successful; but not even half of the normal early *aus* crop was obtained. The people in the affected areas were also hard hit by the high prices of foodgrains and by the contraction of credit which is a marked feature of any distress in this subdivision. Further, there was some physical deterioration of the cultivating and labouring classes owing to outbreaks of influenza and cholera. The relief measures extended over a period of nine months from February to October 1919. The intensity of the distress was probably not half that of the distress in the years 1915 and 1916, except in the months of June, July and August 1919, when the distress was at its height.

3. The distress mainly affected cultivators, landless labourers, beggars and indigent widows. The principal measures adopted by Government were

directed towards the restoration of credit and the grant of relief on works or of gratuitous relief. Loans under the Agriculturists' Loans Act were advanced to the extent of Rs. 2,44,953 against Rs. 9,69,148 in the years 1915-16; and Rs. 1,803 was spent for the distribution of seed by the District Board with the help of the Agricultural Department. Apart from gratuitous relief in the shape of cash and rice and salt doles it was found necessary to distribute standard cloth; and a total sum of Rs. 99,056 was spent on gratuitous relief as compared with Rs. 1,59,407 in the years 1915-16. Employment was also provided for able-bodied persons seeking relief on test works, such as the excavation or re-excavation of tanks and *khals* and the construction of roads, which were opened by the District Board. These works were largely attended in spite of a strong local prejudice against earth-work. All the works are reported to be of public utility. The eradication of water-hyacinth also provided some work when earth-work became impossible. The expenditure on test works amounted to Rs. 83,992 against Rs. 1,57,516 in the years 1915-16: this has been met by the District Board.

The Brahmanbaria a Central Bank also advanced Rs. 1,25,959 to its affiliated societies during the period from October 1918 to October 1919, thus relieving 3,175 persons.

4. The average monthly percentage of persons relieved to the total population of the affected area from February to October 1919 was 1·7. The workers were paid in small gangs by piece work at rates varying from Rs. 3 to Rs. 8 per 1,000 cublic feet; these rates are reported to be generally lower than the rates allowed by the District Board. The price of common rice ruled high throughout the year; but it was the highest in the months of July, August and September, when the price of local rice at Brahmanbaria was approximately 5, 4 and 4½ seers per rupee, compared with 6⅔, 6 and 5⅓ seers per rupee in the corresponding months of 1915. There was an increase in the number of petty thefts and burglaries; but strong preventive measures checked the occurrence of violent crime. There was a decrease in the number of suits of all kinds except money suits, which increased slightly. The number of mortgages increased considerably over those of the previous year, whilst the sales of land showed only a slight increase on the whole. The distress had also a deterrent effect on general education in the affected areas: the number of pupils and the amounts of subscriptions and fees decreased. There were no deaths from starvation, but the distress affected the public health as indicated by a fall in the birth-rate and an increase in deaths as compared with the figures of 1918.

5. The Hon'ble Mr. J. G. Cumming, Member-in-charge, visited the affected areas in March and July 1919: during his visits he examined the measures and organisation of relief with the local officers. The Governor in Council is satisfied that the measures taken for the relief of distress were successful and were conducted with economy. His Excellency in Council appreciates the services rendered by Mr. De, the Divisional Commissioner, Messrs. Wares, Spry and Rai Ramani Mohan Das Bahadur, who carried on the relief operations as Collectors, Babu Basanta Kumar Das, the subdivisional officer, the two circle officers, Babu Sharat Kumar Guha and Babu Upendra Chandra Narayan Chaudhuri, who were in immediate executive charge of the relief operations, and by Mr. M. M. Halliday, manager, Sarail wards' estate. His thanks are also due to the subdivisional officer for his lucid and interesting report. The services of these officers will be brought to the notice of the Appointment Department. The Governor in Council notices with pleasure the assistance given by non-official agencies and associations and by non-official gentlemen to whom his thanks are also due. The services of the latter have already been recognised by the local officers through the grant of certificates and rewards.

By order of the Governor in Council,

Secy. to the Govt. of Bengal.

The balance, viz., Rs. 13,200, is in Government securities. The annual interest on the capital amounts to Rs. 37,079, which is kept in the Bank of Bengal. The year opened with a balance of Rs. 28,311-11-5 and closed with a balance of Rs. 30,180-0-9.

III. **Election to Vacancies, &c.**—(1) The Governors having found it necessary for financial reasons to reduce the number of wards, there was no election during the year.

(2) Of the 18 girls who left during the year, 14 had attained the age of 17 years, the limit ordinarily allowed under the rules, and 4 were withdrawn for various reasons before they had attained that age.

(3) Of the girls who were withdrawn during the preceding year, and in respect of whom reports have been received during the year under review, one was working as a steno-typist, one as a typist and one was learning shorthand and typewriting. Another is teaching Latin in the lower classes in the school where she was educated, and one is employed as a child's nurse. Two girls have married.

(4) At the close of the year, there were 79 girls on the fund against 97 in the previous year. They were distributed as follows:—

Loreto Convent, Entally ...	Boarding School—11 Orphanage — 8	19
Calcutta Girls' High School		21
Pratt Memorial School		10
La Martinière for Girls		6
Calcutta Free School		3
St. Paul's Mission Home		2

St Vincent's Home, Kidderpore		1
Loreto Convent, Asansol		11
St. Andrew's Colonial Homes, Kalimpong		1
Protestant European School, Cuttack		1
The Good Shepherd Training School, Bangalore ...		1
Wynberg School, Mussoorie		1
Temporarily at Home		1
Total ...		79

(5) The following table affords particulars as to the class and denomination of the foundationers at the close of the year:—

Class.	Roman Catholics.	Church of England.	Non-Conformists.	Total.
1. Orphans, or deserted by their parents	8	5	7	20
2. Fatherless or motherless, or deserted by their fathers or mothers	24	14	11	49
3. Those who have both parents alive	3	5	2	10
Total ...	35	24	20	79

(6) The health of the wards was on the whole satisfactory. One girl who was ailing was sent temporarily under medical advice to Pine Mount School, Shillong. Another girl who was subject to epileptic fits was placed in St. Vincent's Home, Kidderpore.

IV.—**Education and Maintenance.**—(1) The nature of the education given to girls on the fund was generally that prescribed for Elementary and Higher Elementary Schools under the Code of Regulations for European Schools in Bengal, and in a few cases, that for secondary schools.

(2) The Governors are anxious that their wards should not be allowed to drift until they leave school, and they have accordingly asked the school authorities and the Visiting-Governor to let them know with reference to each girl who attains the age of 15, what her capacities and prospects are, and to advise them in the light of these, how the last two years or so of their school-life should be spent to the best advantage. They have also prepared and distributed to schools a pamphlet showing what appointments are open to Anglo-Indian girls.

(3) Three girls were sent up for the Cambridge Local Examinations held in December 1918, of whom one passed the Junior Cambridge. Four girls were presented for the Elementary School Certificate Examination, of whom three passed. One girl was presented for the Supplementary School Examination but failed. Several girls appeared at the Cambridge Local Examinations held in December 1919; the results are not yet known.

(4) Under the rules, a girl is not ordinarily allowed to remain on the fund after she has attained the age of 17 years, when an outfit grant of Rs. 100 is generally given, on application, to enable her to make a start in life. In cases where a girl wishes to be trained as a teacher, or where some other special training is recommended, or they are preparing for

higher examinations, some extension of the period of benefit is generally allowed. One girl was granted an extension to enable her to undergo training as a teacher, and two girls were granted short extensions of few months to enable them to finish their course in shorthand and type writing.

(5) The monthly average cost for the education and maintenance of each girl on the fund amounted to Rs 27-12-8 against Rs. 19-3-4 in the preceding year. The increase is due to the rate in Elementary Schools being raised from the beginning of the year, from Rs. 16 to Rs. 25, and in secondary schools from Rs. 21-8 to Rs. 35 per ward.

(6) The amounts paid under the different heads of expenditure were as noted below :—

V. **Inspection.**—Mr. W. C. Wordsworth was appointed Visiting-Governor for the first half, and Mr. Maurice Remfry the second half, of the year.

Mr. Wordsworth reported that he had visited almost all the schools and interviewed all the Bruce wards with the exception of some half dozen. Also that he had seen them at work and at play, and generally had been kept in touch with their condition by the principals of the schools concerned. His general impression was that the wards were well looked after, and compare not unfavourably with their class-fellows. It was evident to him that a number of them were girls of distinct promise, both intellectually and morally, and that they were being given every opportunity by the authorities of their schools. Mr. Remfry reported that he had visited all the schools in Calcutta in which Bruce wards had been placed, and that (with the exception of a few who were absent when he called) he personally interviewed all the wards, no school-mistress or teacher being present. The general health of the wards seemed to him to be above the average of the class from which the girls were drawn, and that generally speaking the girls were bright and apparently happy, and, so far as he could gather, the fact, that they were Bruce wards, made no difference in their treatment by the school-authorities. He found that, in one institution, they had no form of physical training; the matter has been referred to the Inspector of European Schools. Mr. Remfry stated that from the school-reports it appeared that some of the wards had defective eye sight. The school authorities have been asked to have the eye sight of all Bruce wards tested, and where necessary, glasses supplied at the expense of the fund.

VI. Meetings.—Three meetings were held during the year, and among the various resolutions passed the following may be recorded :—

"That any question of importance arising, which requires immediate attention be circulated to the Governors for their opinion, and that the Honorary Secretary should act in accordance with the opinions expressed thereon, and bring up the matter at the next meeting for confirmation."

CALCUTTA,

INDIAN PUBLIC WORKS DEPARTMENT AND INDIAN STATE RAILWAYS.

REGULATIONS AS TO APPOINTMENT OF ASSISTANT EXECUTIVE ENGINEERS IN 1920.

[*The Secretary of State is unable to give any undertaking that the Regulations will remain unaltered in the future.*]

1. Until further notice the Secretary of State for India in Council will, during each year, make a number of appointments of Assistant Executive Engineers in the Public Works and State Railway Departments of the Government of India.

In making these appointments he will act with the advice of a Selection Committee, including at least one eminent representative of the Engineering profession.

In 1920 it is intended that 17 appointments of Europeans and 2 of Indians should be made.

The Selection Committee will probably sit in July.

2. Applications must be made on a printed form, which may be obtained from the Secretary, Public Works Department, India Office, Whitehall, S.W. 1, or, in the case of officers in India and Mesopotamia, from the Secretary to the Government of India, Public Works Department, Simla. Applications must be received at the India Office not later than 30th June.

3. An Indian candidate must have attained the age of 21 and not attained the age of 24 years on the first day of July of the year in which he offers himself for appointment.

Every European candidate must have been born on or after the 2nd August 1893 and on or before the 1st August 1898.

[N.B.—*Indians must obtain a certificate of age and nationality in the form explained in Appendix II. As the production of this certificate is a necessary condition of appointment, intending candidates are advised to procure it without delay. The certificate should be forwarded to the India Office together with the candidate's form of application or at the earliest subsequent opportunity.*]

4. Every European candidate in 1920, subject to the exception stated below, must have served in His Majesty's Naval, Military or Air Forces during the war for at least one year, or if his service be less than one year, have been discharged on account of wounds or sickness resulting from such service.

In the case of Europeans who have been prevented on adequate grounds from joining His Majesty's Forces, applications to be exceptionally admitted as candidates may be made to the India Office for consideration.

5. Every European candidate must be a British subject and, except as provided in Regulation 6, if he or his father or his mother was not born within His Majesty's Dominions and allegiance, the father must at the time of the candidate's birth have been a British subject and still be (or have continued to be until his death) a British subject. The decision of the Secretary of State in Council whether a candidate satisfies these conditions shall be final. A candidate must also be of good moral character and sound bodily health and, in the opinion of the Secretary of State for India in Council, in all respects suitable to hold an appointment in the Indian Public Works Department or State Railway Department.

6. Indians are eligible for the appointments open to them provided that they are British subjects or that the Governor-General in Council has made a declaration under section 96A of the Government of India Act, 1915, as amended by section 3 of the Government of India (Amendment) Act, 1916, that they are to be considered eligible.

7. Applications from European candidates in India and Mesopotamia should be forwarded direct to the Secretary, Public Works Department, India Office, Whitehall, London, S. W. 1. These applications will be examined by the Selection Commitee at the India Office, and any candidate who may be considered fit for appointment will be required to appear in person before a Local Advisory Committee in India.

8. Indian Candidates must produce evidence that they have either (1) obtained one of the University degrees mentioned in Appendix I; or (2) passed Sections A and B of the A.M.I.C.E. examination; or (3) obtained such other diploma or distinction in Engineering as the Secretary of State may decide to accept in any particular case. It is preferred that candidates should have taken a college course and obtained one of the degrees mentioned in Appendix I. It is advisable that in addition they should have had at least one full year's practical experience of Civil Engineering under a qualified Civil Engineer at the time when they appear before the Selection Committee. Those whose qualifying diploma has been obtained without a college course should have had a full three years of such practical experience.

9. European applicants eligible under Rule 4 who can produce evidence of the above qualifications will be admitted as candidates; others not holding one of the recognised degrees or diplomas must produce evidence—

(*a*) of having received a general education high enough to fit them to receive proper professional training and to become members of the Engineering profession;

(*b*) of having received some technical education (University or otherwise) in Engineering; and

(*c*) of having had some practical training and experience in Engineering as civilians and in military or quasi-military service.

An applicant who has served or is serving at the time of his application, must produce, if possible, a report by his Commanding Officer on his character, administrative capacity and powers of organisation, and aptitude, natural bent, and Engineering experience.

10. In the event of any candidate being selected who has not, in the opinion of the Selection Committee had sufficient practical experience, he may be required to undergo, after arrival in India, such period of probation

in charge of works as may be decided upon, and his final appointment will be made dependent upon the result of such probation.

11. Candidates must be prepared, if called upon, to attend at the India Office, at their own expense, for a personal interview with the Selection Committee. Applicants in India (*see* Rule 7 above) must be prepared to attend before the Local Advisory Committee authorised by the Government of India to investigate their candidature.

12. Candidates will further be required, before final appointment by the Secretary of State in Council, to appear, at their own expense, before the Medical Board at the India Office for examination as to their physical fitness for service in India, or in case of applicants selected without attendance at the India Office, before such Medical Board as the Government of India may appoint.

The Regulations governing the physical examination of candidates for the Public Works and State Railway Departments of the Government of India are given in Appendix III.

13. Selected candidates will also be required to satisfy the Secretary of State of their ability to ride.

14. They will on appointment be provided with a free first-class passage to India and they will be expected to proceed thither about the end of September or later in the year in which they are appointed.

Their pay will begin from the date of their landing in India, and, if they so desire, they will be able to obtain an advance of two months' pay, recoverable by monthly instalments of one-third of salary. Of this advance a portion not exceeding one-half may be drawn in England. The pay of candidates appointed in India will begin from the date of reporting for duty as they may be directed.

15. If less than 24 years of age on 1st August 1920, European candidates will enter the service as Assistant Executive Engineers on a salary of Rs. 6,300 a year. If above 24 years, they will be credited with service as though they had been appointed in their 24th year. The years of service so credited will subsequently count for purposes of pay and promotion, but not for leave.

16. Service in His Majesty's Forces will count for active and total service for pension (including invalid pension) as follows:—Candidates who have attained the age of 25 and are under 27 on 1st August preceding arrival in India, will be allowed to count a period not exceeding one year, provided such period was spent on active war service, including sick leave. Candidates of 27 years and over will similarly be allowed to count a period not exceeding two years subject to the same proviso.

17. The instruments required by Assistant Executive Engineers are supplied to them in India.

18. Particulars as to pay, pension, etc., are contained in Appendices IV and V.

INDIA OFFICE,
February 1920.

---

* Selected candidates will be examined by the Civil Service Commissioners as to their ability to ride and will be required to obtain either—

(*a*) a certificate from the Civil Service Commissioners that they are sufficiently at home in the saddle for the efficient performance of all the duties of the Indian Public Works and State Railway Departments ; or

(*b*) a certificate from the Civil Service Commissioners of minimum proficiency in riding.

In the latter case they will be subjected, on their arrival in India, to such further tests in riding as may be prescribed by their Government.

Candidates are warned that the certificate of minimum proficiency in riding, without which they will not be allowed to proceed to India, is only granted to those who can qualify in a series of tests, which includes jumping.

The chief tests will be saddling and bridling ; mounting and dismounting ; trotting and cantering ; riding at a trot without stirrups ; riding at a trot with stirrups but without reins ; jumping a hedge hurdle about 3 feet in height.

Although the examination will, in the main, be confined to those points, the examiner will not be debarred from applying any other tests which may appear desirable.

APPENDIX III.

REGULATIONS AS TO THE PHYSICAL EXAMINATION OF CANDIDATES FOR APPOINTMENT TO THE PUBLIC WORKS DEPARTMENT OF THE GOVERNMENT OF INDIA.

Note.—These Regulations are published for the convenience of candidates and in order to enable them to ascertain the probability of their coming up to the required physical standard. But it must be clearly understood that the Secretary of State reserves to himself an absolute discretion to reject as unfit any candidate whom he may consider, after hearing the opinion of his medical advisers, to be physically disqualified for the public service; and that his discretion is in no respect limited by these Regulations.

It is not the practice to communicate to candidates who may be reported as physically unfit for service in India the reasons for the Medical Board's opinion.

General Physical Requirements.

1. A candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with efficient performance of duty.

2. In the examination of candidates the Medical Board will apply the following table of correlation of age, height, and chest girth :—

Age.	Height without shoes.	Chest.	
		Girth when expanded.	Range of expansion.
	Inches.	Inches.	Inches.
21 and upwards ...	62½ and under 65 ...	35	2
	65 „ 68 ...	35½	2
	68 „ 70 ...	36	2
	70 „ 72 ...	36½	2½
	72 and upwards ...	37	2½

3. *Measurement of Height.*—The candidate will be placed against the standard with his feet together, and the weight thrown on the heels, and not on the toes or outside of the feet. He will stand erect without rigidity and with the heels, calves, buttocks, and shoulders touching the standard the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be noted in parts of an inch to eighths. In the Indian Police Force a minimum height of 5 feet 4 inches is required, but in other Departments no fixed limit of height is imposed.

4. *Measurement of Chest.*—The candidate will be made to stand erect with his feet together, and to raise his hands above his head. The tape will be carefully adjusted round the chest, with its posterior upper edge touching the inferior angles of the shoulder blades, and its anterior lower edge the upper part of the nipples. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to empty his chest of air as much as is possible. This is best done by continuous whistling with the lips as long as sound can be produced. The tape is carefully gathered in during the process, and when the minimum measurement is reached it is recorded. The candidate will then be directed to inflate his chest to its utmost capacity. This maximum measurement will likewise be noted. The girth with the chest fully expanded and the range of expansion between the minimum and the maximum will then be recorded.

5. The hearing must be good.

6. The speech without impediment.

7. The teeth in good order, *i.e.*, decayed or broken teeth must be properly stopped or crowned, and deficient teeth replaced by artificial teeth where necessary for effective mastication.

8. The chest must be well formed, the lungs and heart sound.

9. Rupture, hydrocele, varicocele, varicose veins in severe degree, or other condition likely to cause inefficiency will disqualify a candidate, unless such condition is cured by operation.

10. The limbs, feet, and toes must be well formed and developed, with free and perfect motion of all the joints.

11. A candidate must have no congenital malformation or defect likely to interfere with efficiency.

12. A candidate must not be the subject of chronic skin disease.

13. Evidence of previous acute or chronic disease pointing to an impaired constitution will disqualify.

14. The Regulations as to the standard of vision required are shown separately for each department. In all cases of "colour blindness" a note of the same will be made on the candidate's papers.

Candidates may, if they wish it, undergo a preliminary examination by the Medical Board, which meets at the India Office every Tuesday, under the following conditions :—

(*a*) Applications must be addressed to the Under-Secretary of State, India Office, Whitehall, London, accompanied by a fee of two guineas, and a statement as to the particular appointment which the candidate desires to obtain.

(*b*) Candidates must pay their travelling expenses.

(*c*) Candidates considered to be unfit by the Medical Board at this preliminary examination are not bound to accept its opinion but may, *at their own risk*, continue their studies, with the knowledge that they will have to submit themselves for a final medical examination by the Medical Board, prior to the examination, or to their appointment.

(*d*) On the other hand, it must be distinctly understood that the preliminary examination by the Medical Board is held solely for the candidate's information, and that, if after that examination he is reported to be apparently fit, he has not on that account any claim to be accepted as physically fit when he presents himself for the final Medical Examination, upon which alone his acceptance or rejection will depend. Candidates may be considered fit for the Service at the preliminary examination, but may be found at the final examination to be unfit, either on account of some physical defect which did not exist or passed undetected at the preliminary examination, or for other reasons.

REGULATIONS AS TO THE STANDARD OF VISION.

1. If myopia in one or both eyes exists, a candidate may be passed provided the ametropia does not exceed 3·5 D, and if, with correcting glasses not exceeding 3·5 D, the acuteness of vision in one eye equals $\frac{6}{6}$ and in the other $\frac{6}{9}$, there being normal range of accommodation with the glasses.

2. Myopic astigmatism does not disqualify a candidate, provided the lens, or the combined spherical and cylindrical lenses, required to correct the error of refraction, does not exceed 3·5 D; the acuteness of vision in

one eye, when corrected, being equal to $\frac{6}{6}$, and in the other $\frac{6}{9}$, together with normal range of accommodation with the correcting glasses, there being no evidence of progressive disease in the choroid or retina.

3. A candidate having total hypermetropia not exceeding 4 D is not disqualified, provided the sight in one eye (when under the influence of atropine) equals $\frac{6}{6}$, and in the other eye equals $\frac{6}{9}$, with + 4 D glasses, or any lower power.

4. Hypermetropic astigmatism does not disqualify, provided the lens or combined lenses required to cover the error of refraction do not exceed 4 D, and that the sight of one eye equals $\frac{6}{6}$, and the other $\frac{6}{9}$, with or without such lens or lenses.

5. A candidate having a defect of vision arising from nebula of the cornea is disqualified if the sight of one eye be less than $\frac{6}{12}$. In such a case the better eye must be emmetropic. Defects of vision arising from pathological or other changes in the deeper structures of either eye, which are not referred to in these rules, may exclude a candidate.

6. Squint or any morbid condition, subject to the risk of aggravation or recurrence, in either eye, may cause the rejection of a candidate. Any imperfection of the colour sense is a disqualification for appointment to the engineering branch of the Railway Department. In other cases the existence of imperfection of colour sense will be noted on the candidate's papers.

FOR ALL APPOINTMENTS UNDER THE INDIAN GOVERNMENT A DECLARATION AS FOLLOWS, IS REQUIRED FROM CANDIDATES.

1. I _____ declare upon honour that, to the best of my knowledge and belief, I am not at present suffering or affected with any form of disease or bodily infirmity, such as—

(*a*) Disease of the heart or lungs.
(*b*) Venereal disease.
(*c*) Fits.
(*d*) Rupture.
(*e*) Varicocele or varicose veins.
(*f*) Hydrocele.
(*g*) Malformation.
(*h*) Congenital defect.
(*i*) Defective sight or hearing.
(*j*) Loss of teeth.
(*k*) Impediment of speech.
(*l*) Gout or rheumatism.

2. That I have not to my knowledge any hereditary tendency or predisposition to mental or constitutional disease, such as—

(*a*) Fits or insanity. (*b*) Cancer.
(*c*) Consumption or scrofula.

3. That I will fully reveal to the Medical Board all circumstances within my knowledge that concern my health and fitness for the appointment for which I am a candidate.

4. That I have previously been examined by a Medical Board for the public service and was declared on the

N.B.—A wilful mis-statement by a candidate will invalidate any subsequent appointment obtained.

APPENDIX V. (*See para. 18 of the Regulations.*)

NOTE.—This Appendix is merely intended to show the principal leave and pension rules in the Civil Service Regulations at present applicable to Engineers appointed to the Indian Service of Engineers from the United Kingdom without going into minute details, and does not profess to deal with every case that may arise. The rules are subject to alteration, and any disputed question must be decided with reference to the authorised text of the Civil Service Regulations for the time being.

LEAVE.

1. The following is a summary of the principal regulations relating to the leave admissible to Engineers appointed to the Indian Service of Engineers by the Secretary of State from the United Kingdom :—

Long Leave.

2. Furlough with allowances (*see* paragraph 5) is admissible to an aggregate maximum amount of six years during an officer's service.

3. The amount of furlough "earned" is one-fourth of an officer's active service, and the amount "due" is that amount less any enjoyed.

4. Except as provided in rule 7, furlough without medical certificate is limited to the amount "due" and may not exceed two years at a time. On medical certificate furlough may be extended to three years.

5. The allowances admissible during furlough are—

(1) During any period of furlough not exceeding two years half average salary, subject to certain maximum and (in the case of furlough with medical certificate) minimum limits.

(2) After the expiration of the first two years of any period of furlough one quarter of average salary, subject to certain maximum and minimum limits.

6. Furlough on half average salary (*see* paragraph 5) may be commuted into leave on higher pay subject to the following conditions :—

(1) The leave on higher pay, or "commuted furlough," is fixed at one-half of the furlough commuted.

(2) The amount of furlough which may be commuted during an officer's total service is limited to two years.

(3) The commuted furlough will carry an allowance at the rate of average salary, subject to a maximum of 2,400*l.* a year.

(4) Subject to special consideration in exceptional circumstances, an officer must have six months' furlough at his credit at the end of the "commuted furlough" or any leave granted to him in continuation of it.

(5) In any one period of leave not more than eight months may be spent on "commuted furlough" or on "commuted furlough" combined with privilege leave.

(6) For the purpose of the rules governing the extent to which leave taken out of India may be allowed to count as service for pension, time spent out of India on "commuted furlough" will be reckoned according to its actual duration, and not according to the duration of the furlough in exchange for which it is granted.

7. In respect of urgent private affairs, an officer may be granted furlough in excess of the amount "due" for a period not exceeding six months at one time or 12 months in the whole of his service.

Short Leave.

8. Privilege leave is a holiday which may be granted to the extent of one-eleventh part of the time that an officer has been on duty without interruption; and it may be accumulated up to four months. It may be combined with leave of other kinds.

9. Joining time for a short period, usually with half average salary, is granted to an officer returning from leave out of India to enable him to rejoin his appointment.

10. Short leave is also granted to enable officers to appear at examinations, &c.

11. Extraordinary leave without allowances may be granted in case of necessity, and, subject to exception in special cases, only when no other kind of leave is by rule admissible. It may be granted in continuation of other leave.

General.

12. Leave of absence, whether on furlough or on privilege leave, cannot be claimed as of right, and is given or refused at the discretion of Government.

PENSIONS.

13. The following is a summary of the pension rules applicable to Engineers appointed to the Indian Service of Engineers by the Secretary of State from the United Kingdom :—

Ordinary Pensions.

14. Subject to the absolute right of the Government of India to decline to permit any officer to retire before reaching the age for superannuation, should it be necessary in the public interest to retain his services, officers will be allowed to retire optionally after 20 or more years service.

15. Retirement is ordinarily required at the age of 55 years, but for special reasons an officer is sometimes retained after attaining that age.

16. An officer becomes eligible for full retiring pension on completing 30 years' qualifying service.

17. If before completing this period of service an officer is permitted to retire voluntarily after completion of 20 or more years qualifying service (para. 14), or is compelled to retire on attaining the age of 55 (para. 15), or through ill-health not occasioned by irregular or intemperate habits, he will be eligible for a reduced pension or, if invalided with less than 10 years' qualifying service for a gratuity.

18. The amount of pension or gratuity is regulated as follows :—

(*a*) After a service of less than 10 years.—A gratuity not exceeding one month's emoluments for each completed year of service.

(*b*) After a service of not less than 10 years.—A pension not exceeding the following amounts :—

Years of Completed Service.	Maximum Limit of Pension.	Years of Completed Service.	Maximum Limit of pension.
	Rs.		Rs.
10	1,000 a year	19	3,000 a year
11	1,400 „	20	4,000 „
12	1,800 „	25	5,000 „
13	2,200 „	26	5,200 „
14	2,600 „	27	5,400 „
15	3,000 „	28	5,600 „
16	3,000 „	29	5,800 „
17	3,000 „	30	6,000 „
18	3,000 „		

19. Government may retire any officer after he has completed 25 years' service without giving reasons, and without any claim for compensation in addition to pension, and in that event the pension admissible to him will ordinarily be regulated on a scale not exceeding that laid down above. Government also reserves the general power to reduce the pension ordinarily admissible in all cases where an officer's service has been unsatisfactory.

Additional Pensions.

20. The Government of India have classified certain high appointments into two grades, the lower comprising those posts which involve high but intermediate responsibility, the higher consisting of those which require a marked degree of independent administrative and professional capacity. Officers who have held appointments listed in the lower grade will be entitled to an additional pension at the rate of Rs. 300 per year for each completed year of effective service in any appointment included in that grade, provided that no officer may draw an additional pension in excess of Rs. 1,500 in respect of service classed in the lower grade. Officers who have held appointments listed in the upper grade will be entitled to an additional pension at the rate of Rs. 500 for each completed year of effective service rendered in any appointment included in that grade, provided that no officer may draw an additional pension in excess of Rs. 2,500 in respect of service rendered in the lower and upper grades combined or in the upper grade alone

21. These additional pensions will be awarded only to officers who have given proof of special energy and efficiency, and will be subject to the condition that an officer must not retire voluntarily before the age of 55 with less than 28 years' service.

The upper grade includes the Secretary to the Government of India, Public Works Department, the Inspector-General of Irrigation, and Chief Engineers of the Indian Service of Engineers.

The lower grade includes Superintending Engineers, Indian Service of Engineers, and Deputy Secretary to the Government of India, Public Works Department.

PROVIDENT FUND.

22. A General Provident Fund, to which contribution is compulsory, has also been established on the following basis :—

(1) The contribution is compulsory up to 6¼ per cent. on salaries with voluntary contributions of not more than a further 9⅜ per cent. Subscriptions on leave of any kind are optional.

(2) Compound interest on such payments is annually credited by Government to each officer subscribing.

(3) The sum which thus accumulates to the credit of an officer is his absolute property, subject to the rules of the Fund, and is handed over to him, unconditionally, on quitting the service ; or in the event of his death before retirement, to his legal representatives or such other person or persons as, under and subject to the rules of the Fund for the time being in force, may be entitled thereto.

Orders and Notifications by the Government of India.

The following notifications issued by the Government of India, in the Home Department, published in the *Gazette of India*, dated the 24th April 1920, are republished for general information.

H. L. STEPHENSON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATIONS.

ESTABLISHMENT.

Simla, the 22nd April 1920.

No. 812.—Mr. J. D. V. Hodge, of the Indian Civil Service, is appointed to be Additional Under-Secretary to the Government of India in the Home Department, with effect from the 17th April 1920.

POLICE.

The 23rd April 1920.

No. 719.—The following regulations relating to appointments to the Indian (Imperial) Police Service in 1920 are published for general information.

2. The Secretary of State for India in Council proposes not to hold any competitive examination during the year 1920, for admission into the Indian (Imperial) Police Service, but to make a number of appointments of probationers by nomination as described below from among gentlemen who have rendered military service during the war.

3. *Number of appointments.*—Appointments will be made in the United Kingdom by the Secretary of State for India in Council and in India by the Government of India from among candidates who at the time of application were resident in India or adjacent countries including Mesopotamia. The precise number of appointments to be made in the United Kingdom and in India will be announced hereafter.

4. *Method of application for appointments made in the United Kingdom.*—For the appointments to be made in the United Kingdom a qualifying examination will be held for admission to which applications must be made to the Civil Service Commissioners, London, on the prescribed form, accompanied by a fee of 5*s*. The application form must reach the Civil Service Commissioners not later than the 29th May 1920.

5. *Method of application for appointments made in India.**—Applications must be made on the annexed form (copies of which can be obtained on application to the nearest staff office) to the Adjutant General in India, Simla. Such applications will be accepted up to the 15th June 1920 from candidates in India and up to the 30th June 1920 from candidates overseas. Candidates will in due course receive from the Adjutant General in India, any further information or instructions that may be necessary.

[*Warning.*—Any attempt on the part of a candidate to enlist support for his applications through officers of Government or other influential persons will disqualify him for appointment. The Selection Committee will disregard spontaneous recommendations from persons who are not personally acquainted with the candidate's work, whether at school, at the university, in the Forces or otherwise.]

6. *Conditions of eligibility.*—

(*a*) Every candidate must have been born on or after 2nd June 1894 and on or before 1st August 1900.

(*b*) Every candidate must be a British subject and at the time of his birth his father must also have been a British subject.

(*c*) Every candidate must have served in His Majesty's Naval, Military, or Air Forces during the war.

(*d*) Every candidate must be of good character in civil and military life.

(*e*) Candidates for the appointments made in India by the Government of India must satisfy the latter, or the Selection Committee appointed by them on that behalf, that they have received whole-time, continuous and systematic education up to the age of 18, or until the date of entering His Majesty's Forces, whichever is the earlier, and must undergo a qualifying examination† in English, Arithmetic and General knowledge. English will include essay writing, précis writing and other tests. General knowledge will include matters historical, economic, social, political, geographical and scientific.

7. Those candidates who satisfy all the conditions referred to above and are considered suitable will be summoned to an interview before a Selection Committee who will prepare a list of candidates suitable for appointment, subject to medical examination, and submit their recommendations for the orders of the Government of India.

NOTE.—A candidate who applied for appointment in 1919 but was not selected is not debarred from applying again for one of the appointments to be made in 1920.

8. *Medical Examination.*—Candidates who are recommended for appointment will be required to undergo an examination as to their physique and capacity for active out-door work in the plains of India.

---

* Rules applicable to the case of Indian candidates were published in a Press *Communique* on the 21st November 1919.

† The qualifying examination will begin on the 29th July 1920 at centres to be notified hereafter.

9. *Riding.*—Selected candidates will be required either to give satisfactory proof of their ability to ride or to undergo such riding tests as may be hereafter prescribed.

10. *Allotment to Provinces.*—Selected candidates will be allotted as probationers to the various provinces in India upon a consideration of all the circumstances including their own wishes; but the requirements of the public service will rank before every other consideration. The allotments will also be subject to the right of the Government of India to make transfers, if necessary.

11. (*a*) *Uniform.*—It is an ordinary condition of appointment that a successful candidate shall provide himself, or be provided by his parents or guardians, with his uniform or the cost thereof. Government makes a contributory grant of £30 towards the cost of uniform.

(*b*) *Horse and Saddlery.*—A successful candidate must, when required to do so by Government, provide himself with a suitable horse and saddlery at his own expense. Local Governments in India are authorised to make to a newly-appointed officer a grant of a sum not exceeding Rs. 600 towards the cost of such horse and saddlery.

12. *Joining the Police Service.*—Subject to what is stated in the next paragraph as regards the taking of leave before joining civil appointment, probationers will be required to join their appointments, if possible, within a short time of their final selection. Failure to do this will, in the absence of satisfactory explanation, lead to forfeiture of appointment.

13. *Leave before joining civil appointment.*—Each selected candidate will be granted leave at the rate of one month for each year of military service subsequent to his last departure from England, subject to a maximum of four months. He will receive, while on leave, the full pay of his new civil appointment. Every selected candidate who has earned the full period of leave admissible will be required to take it immediately after his release from military service and before joining his civil appointment. A selected candidate who has earned less than the maximum of four months will have the option of either taking the amount earned forthwith, or of joining his civil appointment with that amount to his credit and taking it later combined with civil leave earned in the meanwhile. In such a case combined leave on full pay will be limited to four months.

As the restriction of this concession to military service subsequent to a candidate's last departure from England might operate harshly in some cases, the Secretary of State has authorised the Government of India to relax this condition where it is considered necessary.

Any officer taking leave under these arrangements will receive a free passage from England to India on the expiry of his leave. In the event of his being discharged from the police service within three years of the date of his appointment on any ground other than that of ill-health, he will be liable to refund to the Government the cost of any free passages granted him under these leave rules.

14. *Rates of pay, and pay during probation.*—The rates of pay are set out in Appendix I.

In the case of candidates selected under these Regulations, the following modification of the normal scale has been approved. Those whose ages

on the 1st August preceding their reporting themselves for duty were as stated below receive pay in the time scale as follows, viz. :—

Age.	Pay.
	Rs.
20, 21 and 22 years ...	325 a month *plus* an overseas allowance
23 and 24 „ ...	350 of Rs. 125 a month in the case of
25 and 26 „ ...	375 officers of non-Indian domicile.

The pay of a probationer commences from the date on which he reports to the authorities for duty.

15. *Period of probation.*—Probationers will be required to qualify by passing the necessary departmental examinations (as well as the riding test if required—*see* Regulation 9) within two years of their appointment.

16. *Liability of probationers to removal.*—Any probationer who may fail to pass the prescribed examinations within two years or be found unfit for police duties will be liable to removal from the Service. Any probationer so removed from the Service will be furnished with a free passage to England provided that he utilises such passage within three months from date of such removal.

It should be understood that the probation to be undergone by selected candidates will be of a real character.

17. *Seniority.*—Candidates appointed during 1919 and 1920 will all be graded *inter se* strictly according to age.

18. *Promotion after probation.*—No probationer will be eligible for promotion for acting or substantive posts until he has passed the prescribed departmental examinations, including the riding test.

19. *Leave, Pension and Provident Fund.*—Officers joining the Indian Police under these conditions will find a summary of information regarding leave, pension and provident fund in Appendices II, III and IV. The Secretary of State for India in Council has decided that service in His Majesty's Naval, Military or Air Force during the war, including sick leave, shall count, as stated below, for retiring and invalid pension.

Age of candidate on 1st August preceding the date of reporting himself for police duty.	Period of service allowed to count for pension.

The rules are subject to alteration, and any disputed question must be decided with reference to the authorised text of the Civil Service Regulations for the time being.]

LEAVE.

1. The following is a summary of the principal regulations relating to the leave admissible to officers appointed to the Indian (Imperial) Police Service.

Long Leave.

2. Furlough with allowances (*see* paragraph 5) is admissible to an aggregate maximum amount of six years during an officer's service.

3. The amount of furlough "earned" is one-fourth of an officer's active service, and the amount "due" is that amount less any enjoyed.

4. Except as provided in Rule 7, furlough without medical certificate is limited to the amount "due" and may not exceed two years at a time. On medical certificate furlough may be extended to three years.

5. The allowances admissible during furlough are—

(1) During any period of furlough not exceeding two years half average salary, subject to certain maximum and (in the case of furlough with medical certificate) minimum limits.

(2) After the expiration of the first two years of any period of furlough, one quarter of average salary, subject to certain maximum and minimum limits.

6. Furlough on half average salary (*see* para. 5) may be commuted into leave on higher pay subject to the following conditions :—

(1) The leave on higher pay, or "commuted furlough," is fixed at one-half of the furlough commuted.

(2) The amount of furlough which may be commuted during an officer's total service is limited to two years.

(3) The commuted furlough will carry an allowance at the rate of average salary, subject to a maximum of 2,400*l.* a year.

(4) Subject to special consideration in exceptional circumstances, an officer must have six months' furlough at his credit at the end of the "commuted furlough," or any leave granted to him in continuation of it.

(5) In any one period of leave not more than eight months may be spent on "commuted furlough" or on "commuted furlough" combined with privilege leave.

(6) For the purpose of the rules governing the extent to which leave taken out of India may be allowed to count as service for pension, time spent out of India on "commuted furlough" will be reckoned according to its actual duration and not according to the duration of the furlough in exchange for which it is granted.

7. In respect of urgent private affairs, an officer may be granted furlough in excess of the amount "due" for a period not exceeding six months at one time or 12 months in the whole of his service.

Short Leave.

8. Privilege Leave is a holiday which may be granted to the extent of one-eleventh part of the time that an officer has been on duty without interruption; and it may be accumulated up to four months.

Subject to certain conditions Privilege Leave may be combined with furlough or extraordinary leave without pay.

9. Joining time for a short period, usually with half average salary, is granted to an officer returning from leave out of India to enable him to rejoin his appointment.

10. Short Leave is also granted to enable officers to appear at examinations, etc.

11. Extraordinary Leave without allowances may be granted in case of necessity, and, except in certain specified cases, only when no other kind of leave is by rule admissible. It may be granted in continuation of other leave.

General.

12. Leave of absence, whether on furlough or on privilege leave, can never be claimed as of right, and is given or refused at the discretion of Government.

APPENDIX III. (See *para. 19 of the Regulations.*)

(See *Note at commencement of Appendix II.*)

PENSIONS.

1. The following is a summary of the pension rules applicable to officers of the Indian (Imperial) Police Service.

2. Subject to the absolute right of the Government of India to decline to permit any officer to retire before reaching the age for superannuation, should it be necessary in the public interest to retain his services, officers will be allowed to retire optionally after 25 or more years' service.

3. Retirement is ordinarily required at the age of 55 years, but for special reasons an officer is sometimes retained after attaining that age.

4. An officer becomes eligible for full retiring pension on completing 30 years' qualifying service.

5. If before completing this period of service an officer is permitted to retire voluntarily after completion of 25 or more years' qualifying service (para. 2), or is compelled to retire on attaining the age of 55 (para 3), or through ill-health not occasioned by irregular or intemperate habits, he will be eligible for a reduced pension or, if invalided with less than 10 years' qualifying service, for a gratuity.

6. The amount of pension or gratuity is regulated as follows:—

7. The Government may retire any officer after he has completed 25 years' service without giving reasons, and without admitting any claim to compensation in addition to pension, and in that event the pension admissible to him will ordinarily be regulated on a scale not exceeding that laid down above. Government also reserves the general power to reduce the pension ordinarily admissible in all cases where an officer's service has been unsatisfactory.

Additional Pensions.

8. The Government of India have classified certain high appointments into two grades, the lower comprising those posts which involve high but intermediate responsibility, the higher consisting of those which require a marked degree of independent administrative and professional capacity. Officers who have held appointments in the lower grade will be entitled to an additional pension at the rate of Rs. 300 per year of service in any appointments included in that grade, provided that no officer may draw an additional pension in excess of Rs. 1,500 in respect of service classed in the lower grade. Officers who have held appointments classed in the upper grade will be entitled to an additional pension at the rate of Rs. 500 for each year of service rendered in any appointment included in that grade, provided that no officer may draw an additional pension in excess of Rs. 2,500 in respect of service rendered in the lower and upper grades combined or in the upper grade alone.

9. These additional pensions will be awarded only to officers who have given proof of special energy and efficiency, and will be subject to the condition that an officer must not retire voluntarily before the age of 55 with less than 28 years' service.

The upper grade includes:—

Inspectors-General of Police (except Inspector-General of Police, North-West Frontier Province, and Inspector-General, Railway Police, Rajputana).

Commissioners of Police, Calcutta and Bombay.

The lower grade includes:—

(2) Compound interest on such payments is annually credited by Government to each officer subscribing.

(3) The sum which thus accumulates to the credit of an officer is his absolute property, subject to the rules of the Fund, and is handed over to him, unconditionally, on quitting the service; or, in the event of his death before retirement, to his legal representatives or such other person or persons as, under and subject to the rules of the Fund for the time being in force, may be entitled thereto.

PUBLIC

RESOLUTION.

The 21st April 1920.

The attention of the Government of India has been drawn to a rule laid down by the Colonial Office that an officer who has retired from the Colonial Service may not accept a directorate of a company the principal part of whose business is directly concerned with the Colony or Protectorate in which he has served, or employment in the Colony or Protectorate under such a company, without obtaining the previous approval of the Governor; and they have had under consideration the question whether it is necessary to lay down some similar rule for retired officers of the Indian services.

2. After consultation with Local Governments and careful consideration of their views, the Government of India have come to the conclusion that, while it is not necessary at the present time to lay down a definite rule, it is desirable that retired Government servants, especially Gazetted officers, before accepting directorships, partnerships or agencies of, or employment by any company or firm or individual engaged in commercial business or associated with the management of land in India, should either obtain the consent of the Government of India, or if the company is managed in London, the consent of the Secretary of State. The Government of India believe that this procedure will conduce alike to the interests of the officers concerned and to those of the services generally, and are prepared to leave it to the good sense and loyalty of their officers to observe the procedure now suggested.

Order.—Ordered that a copy of this Resolution be forwarded to Local Governments and Administrations and to all Departments of the Government of India for information, and that it be published in the *Gazette of India* for general information.

The telegrams should be addressed to "Orders, c-o Advantage, Stock, London." A reply of 24 words (1-3) must be prepaid.

Applicants are requested in their own interest to confine their enquiries to orders needing a very urgent decision, since the fewer the enquiries the more promptly can answers be given.

WIRELESS METEOROLOGICAL INFORMATION TO AND FROM SHIPS AT SEA.

General Remarks.

No. 122 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No 478 of 1920), are republished :—

Former Notice—No. 8 of 1920 ; hereby cancelled.

I. It is earnestly hoped that all concerned will assist in making the wireless meteorological service a success. Negotiations are now in hand to extend and unify the system of collecting weather data by wireless from ships at sea all over the world, and at the same time to organise the free transmission of weather bulletins from a sufficient number of wireless stations to admit of ships being constantly supplied with reliable weather reports and forecasts wherever they may be.

2. It should be borne in mind that the needs of ships at sea in regard to information regarding the weather will march hand in hand with the requirements of aircraft. The importance of this service will therefore be constantly increasing and its success or failure will largely depend upon the co-operation of ships at sea in providing the data without which accurate forecasting is impossible. The matter does not depend solely upon the efforts of the ships selected to furnish the data. The essence of success lies in rapidity in passing such data by wireless from the ship to the coast station, and thence to the central meteorological office. It follows, therefore, that all ships not taking an active part in supplying data should use the greatest care not to interfere with the transmission of the wireless messages to the shore.

3. The following particulars refer to the scheme now being undertaken by the British Meteorological Office. This notice will, however, be subject to revision from time to time, and endeavours will be made to include in each revision all information available to date of the weather bulletins issued by the wireless stations of the world. Earnest endeavours are being made to obtain international agreement as to the form of these weather bulletins and to the methods and times of transmissions. It is hoped that the messages will eventually all be made in an international code at fixed times, so arranged that a ship with only one wireless operator will be able to read them. A similar scheme for time signals is being evolved.

Collection of Weather Data from Ships.

4. Certain ships are being asked to supply data regularly three times a day and in addition to the regular observations, which are taken at 0100, 0700 and 1300 Greenwich time and sent as soon as possible to Malin Head (GMH) or Valentia (GCK) coast stations, these ships may, on request from either of these coast stations, send special data messages at other times.

5. Precise instructions as to the procedure for ships which intend to send a data message, together with the necessary code, will be issued at an early date.

Issue of Weather Bulletins to Ships.

6. A wireless *weather bulletin* may contain both or either of the following:—

(*a*) A *weather report*, which is an official statement of existing weather conditions; and-or

(*b*) A *weather forecast*, which is an official opinion of probable future weather conditions.

7. The accompanying schedule of wireless weather bulletins is intended to provide, in a form suitable to give all information required by the wireless operator, a complete and up-to-date list of all weather bulletins transmitted at fixed times by wireless stations throughout the world. The same information will be found in detail in the Sailing Directions and in the International List of Radiotelegraph Stations (the Berne List).

8. The times given in the third column of the schedule are expressed in the 4-figure notation employed for signalling during the war. The term "G.M.T." here means the civil mean time of the meridian of Greenwich with the day commencing at midnight and the hours reckoned from 00 to 23.

9. Operators are reminded that Article 45 of the International Service Regulations imposes the general obligation of not interfering with reception of weather bulletins by other ships.

10. Certain other stations not shown in the schedule supply weather bulletins *on demand*, generally at reduced charges. Particulars will be found in the Berne List.

DEPARTMENT OF AGRICULTURE, BENGAL.

Third and Final Forecast of the Spring Oilseed Crops of Bengal, 1919-20.

[***Note.—On an average of the five years ending 1917-18, the area under linseed in Bengal has represented some 5·5 per cent. and that under rape and mustard 19·2 per cent. of the total areas respectively under these crops in British India.***]

Character of the season.—In the preceding two forecasts, the season was reviewed up to the first part of February. Since then excessive rain, accompanied in some places with hail, is reported to have caused damage to mature crops in the districts of Murshidabad, Jessore, Bakarganj, Noakhali and Tippera. Elsewhere the rain did not materially affect the outturn, as most of the crops were already harvested. On the whole the season may be regarded as having been fairly favourable.

Acreage.—The total area under oilseed crops (excepting sesamum for which separate forecasts are issued) is estimated at 1.265,800 acres this year against 1,304,800 acres last year.

Outturn.—According to the estimate of District Officers, the outturn of different kinds of oilseed crops (excepting sesamum) for the Province works out at 76 per cent. of the normal this year against 66 per cent. last year.

Taking 5¼ maunds as the normal rate of yield per acre for linseed, 6 maunds for rape and mustard and 4¼ maunds for other oilseeds, the total yield for the Province is estimated at 207,700 tons against 187,000 tons last year.

Taking 100 to represent the normal, what would be the average outturn per acre cropped.		Date by which the harvesting generally commenced this year and whether that date was early, normal or late.	Remarks by District Officers.
			Last year (1918-19).	This year (1919-20).	Last year.	This year.		
		Acres.	Acres.	Acres.				
24-Parganas	Linseed	1,600	600*	600*	67	83	End of December to February. Normal.	The weather has been favourable on the whole. A satisfactory outturn is expected.
	Rape and mustard	1,800	800*	800*	67	120

Nadia	Linseed	55,700	32,200	33,400	33	58	Beginning of February. Normal.	The increase in area was due to favourable weather at sowing time and to high prices of oil. Want of rainfall at the time of growth adversely affected the outturn to a great extent.
	Rape and mustard	23,800	14,400	15,300	33	58	Beginning of January. Normal.	
	Other oilseeds (excepting *til*).	18,900	3,300	3,700	33	58	End of December. Normal.

Murshidabad	Linseed	20,800	13,000	13,000	50	67	February to March. Generally normal.	The increase in area over that of last year is due to extension of cultivation owing to high prices of oil and favourable weather conditions. Continued drought at the period of growth and heavy showers in February, when the crops were mature have reduced the outturn.
	Rape and mustard	19,900	12,300	14,700	50	83		
	Other oilseeds (excepting *til*).	8,700	3,100	3,800	58	75

Jessore	Linseed	24,000	9,400	9,500	75	68	End of January. Normal.	The weather has not been favourable. The outturn has fallen much below the normal on account of damage done by drought and insect-pests in December and January and by excessive rain in February.
	Rape and mustard	49,600	18,000	18,000	67	66	Second week of January. Normal.

Burdwan	Linseed	22,500	7,700	6,300	67	67	End of January to end of February.	The decrease in area as compared with that of last year is due to want of moisture at the sowing time. The weather has not been favourable except in the Sadar subdivision. The outturn is much below the normal owing to damage done by drought in the Kalna subdivision.
	Rape and mustard	21,100	8,100	8,500	58	67		
	Other oilseeds (excepting *til*).	1,500	100	200	58	58

NOTIFICATION.

No. 724P.D.—The 15th May 1920.—The following message from His Excellency the Viceroy and Governor-General of India, which was published in the *Gazette of India Extraordinary*, dated the 14th May 1920, is republished for general information :—

"Today the decisions of the Supreme Council of the Allies in respect of the peace settlement with Turkey have been made known to the world. They have been reached after the most careful and anxious consideration of representations from the Muslims of all countries, and you have my assurance that before coming to its present decision the Supreme Council has had all the representations of the Muhammadan subjects of His Majesty in India. My Government are issuing along with a summary of the peace treaty a statement which explains the principal decisions and the reasons for them. These decisions are in full accordance with the high principles which have been applied in the peace settlements with all other peoples lately at war with Britain and her Allies. Nevertheless, they include terms which I fear must be painful to all Muslims. The long delays which have protracted your anxiety for over a year, although they have been unavoidable, have filled me with regret for your sakes, and now in your hour of trial I desire to send you a message of encouragement and sympathy, which I trust will uphold you. In the day of the Empire's need you made a splendid response to the call of your King and country, and by so doing you contributed much to the triumph of those ideals of justice and humanity for which the Allies fought. The Empire of which you are a part is now firmly established on those ideals, and a great future of political progress and material prosperity is within the grasp of the Muslims of India who have ever enjoyed under British Rule fullest religious freedom. Before the late disastrous war Great Britain had always maintained the closest ties of friendship with Turkey, and I am confident that with the conclusion of this

new treaty that friendship will quickly take life again, and Turkey, regenerate, full of hope and strength, will stand forth in the future as in the past a pillar of the Islamic faith. This thought will, I trust, strengthen you to accept the peace treaty with resignation, courage and fortitude and to keep your loyalty towards the Crown bright and untarnished as it has been for so many generations."

laid on good vision and hearing, when, if passed as fit for the work of the Forest Department, they will be interviewed by a Selection Board appointed by the Government of India.

8. Candidates will not be entitled to any travelling allowance for journeys to appear before local Governments, or Political Officers or Agents, or for journeys to and from the local centres referred to in paragraph 6; but those summoned to appear at Dehra Dun for the physical test, medical examination and interview will be reimbursed, by the President, Forest Research Institute and College, Dehra Dun, before the candidates leave Dehra Dun to return to their homes, the cost of a second class ticket [by rail or (and) by sea] to and from Dehra Dun from the nearest railway stations or ports to their homes. Candidates must make their own arrangements for board and lodging at Dehra Dun, but the President, Forest Research Institute and College, will endeavour to assist those who communicate with him on this subject.

9. Those finally selected as a result of the examinations, tests and interview prescribed in paragraphs 6 and 7 will be appointed as probationers for the Indian Forest Service; they will be required to leave for England early in September and, subject to their undergoing satisfactorily, as described below, a course in Forestry and allied subjects in England, will be appointed finally as Assistant Conservators of Forests. Candidates selected for training will be provided with first class passages to England.

10. *Period of probation.*—Before appointment to the Imperial Forest Service a probationer will be required—

(1) to have undergone and qualified in, to an extent to be prescribed by His Majesty's Secretary of State for India, the course of Forestry at such University as the Secretary of State may prescribe;

(2) to have undergone a special course of instruction in Forestry under the direction and supervision of the Director of Indian Forest Studies;

(3) to have passed an examination in forest engineering and, if required, in certain other special subjects, namely Systematic Botany of Indian trees, Indian Geology, Forest Law and Indian Working Plans;

(4) to have undergone a final competitive examination in Forestry;

(5) to have satisfied the Secretary of State, in such manner as may be determined, of his ability to ride.

The period of probation is, in ordinary cases, two years. The Director of Indian Forest Studies instructs probationers in each case as to the order and manner in which they should fulfil these various requirements.

11. *Charges.*—Probationers will be required to defray all expenses of lodging, board, tuition and excursions to forest centres in the United Kingdom while at the University and on practical instruction.

12. *Allowances.*—The Secretary of State for India in Council makes payment to each probationer at the rate of £200* per annum, not exceeding a total of £400. These payments are ordinarily made on the following dates in each year:—

On 1st December	...	...	...	... £ 60
On 1st March	...	...	...	... £ 60
On 1st June	...	...	...	... £ 80

The cases of probationers whose probation does not extend over the full period of two years will be specially considered.

For tours made on the Continent under the instructions of the Director of Forest Studies, subsistence and travelling allowance will be paid by the Secretary of State for India in Council at such rates as he may from time to time fix. The fees of the local forest officials at the centres visited will also be paid by the Secretary of State.

* This allowance is unlikely to be sufficient to meet all the needs of a probationer, who should be in a position to provide himself with at least another £ 150 per annum from other sources.

The grant of allowances is subject to the following conditions:—

(*a*) that the progress of the probationer in his studies is satisfactory;

(*b*) that the probationer gives security* to refund the payments in the event of his failing to qualify for an appointment in the Indian Forest Service, or not signing the articles of agreement as specified in paragraph 15 or failing to join the Indian Forest Service at the end of the period of probation.

13. *Conduct.*—Every probationer is required to conduct himself during the period of probation in a manner satisfactory to the Secretary of State and to give evidence of satisfactory progress in his studies in such a manner as may be required, failing which, or in the event of serious misconduct, he is liable to have his name removed from the list of probationers.

14. *Appointment and seniority.*—Probationers who comply with the requirements of paragraph 10 within the sanctioned period of time, and also satisfy such other tests as may be prescribed, are appointed Assistant Conservators in the Indian Forest Department, provided they are of sound constitution and free from physical defects which would render them unsuitable for employment in the Indian Forest Service. No probationer will be confirmed as a member of the Imperial Forest Service who fails to profit by the course of training, or who appears, in the light of the experience acquired as to his capacity and qualifications during the probationary period, to be unsuited for the work of a forest officer.

The position of the Assistant Conservators in the Provincial Forest Lists is determined by the Secretary of State for India in Council on the report of the Director of Indian Forest Studies. It is possible that officers promoted from the Provincial to the Imperial Service will take rank according to their pay in the latter service. In this case probationers recruited under these regulations must be prepared to find their names placed below those of officers promoted from the Provincial Service.

Probationers are allowed at the end of the period of probation to state their preference in respect to the province to which they desire to be allotted; but the distribution is made to the several provinces according to the needs of the public service, at the discretion of the Secretary of State for India in Council and no guarantee can be given that probationers will, on appointment, be posted to their own provinces Indians will not, however, be required to serve in Burma and Burmans will not be required to serve in India.

Officers are at all times liable to be transferred from one province to another at the pleasure of the Government of India.

15. *Articles of Agreement.*—A probationer is required, on qualifying for appointment as Assistant Conservator, to sign articles of agreement setting forth the terms and conditions of his appointment; he must embark for India when required to do so by the Secretary of State Failure to embark at the stated time will, in the absence of satisfactory explanation, lead to forfeiture of appointment.

16. *Passage to India.*—Each probationer on appointment to the Indian Forest Service is provided with a free first class passage to India.

17. *Salary.*—The scale of pay and allowances in force for officers of Indian domicile is given in Appendix II to these regulations.

18. *Promotion, Leave and Pension.*—Promotion, leave and pension are governed by the regulations laid down by the Government of India, and applicable to forest officers, such regulations being subject to any modifications or alterations which may be made in them from time to time by the Government of India, and their interpretation in case of any doubt arising being left to that Government.

Certain information regarding appointments in the upper controlling staff of the Indian Forest Service will be found in Appendix II, and a summary of information regarding leave and pensions is contained in Appendix III.

* Probationers will be required to give security to the local Government or Political Officer through whom they submitted their applications. If this condition is not satisfied they will not be permitted to leave for England.

APPENDICES.

PUBLIC WORKS DEPARTMENT.

ESTABLISHMENT.

The 18th May 1920.

No. 33.—The following Resolution, issued by the Government of India, in the Public Works Department, is republished for information :—

No. 264E.A., dated Simla, the 6th May 1920.

RESOLUTION—By the Government of India, Public Works Dept.

Since the issue of the Government of India, Public Works Department Resolution No. 558-E.A., dated the 22nd October 1919, promulgating revised scales of pay for engineers of the Public Works Department, His Majesty's Secretary of State for India has sanctioned the amalgamation of the Imperial service and of the Provincial service as constituted prior to the 1st February 1920 into one service designated "The Indian Service of Engineers". He has also had under consideration the question of effecting the necessary differentiation in the remuneration of Europe-recruited and India-recruited officers, respectively, by the grant to the former of special allowances in addition to the Indian or normal rate of pay. He has decided that European engineers recruited for the Public Works Department should receive an overseas allowance in common with European officers of other departments on the ground of expatriation, and that all Europe-recruited engineers, whether European or Indian, should receive a technical allowance on the ground of the superior professional qualifications at present obtainable in the United Kingdom. This decision has necessitated a revision and re-arrangement of the scale detailed in paragraph 1 of the Government of India Resolution of the 22nd October 1919. The Governor General in Council is pleased to announce that the Secretary of State has sanctioned the following time scale of pay, with effect from the 1st January 1920 :—

2. The technical allowance is admissible to all Europe-recruited engineers, whether Europeans or Indians. It will reckon as pay for all purposes of the Civil Service Regulations.

3. The overseas allowance (which will also reckon as pay for all purposes of the Civil Service Regulations) will be admissible only to officers of non-Indian domicile, except that Indians recruited in England under the 10 per cent. rule up to and including the year 1924, will receive this allowance. The question of the abolition of the arrangement under which 10 per cent. of the appointments made in England are allotted to Indians will be considered later.

4 An engineer, who is now in receipt of a higher rate of pay than that to which he may be entitled under the scale now introduced, may be allowed to continue to draw the excess amount as pay until it has been absorbed by annual increments.

5. The rates of pay of Superintending and Chief Engineers sanctioned in the Resolution of the 22nd October 1919 remain unchanged. These officers will not draw either the overseas allowance or the technical allowance.

URGENT ORDERS.

The Import and Export Licensing Section, Board of Trade, announces that ,in collaboration with the Department of Overseas Trade, an arrangement has been made whereby firms receiving orders which require immediate acceptance may telegraph details of any such order to the Department of Overseas Trade in order to ascertain whether a licence will be granted for the export of the goods if the order is accepted.

In the event of an applicant being promised a licence he will be enabled to deal with the order straightaway with the knowledge that upon application being made in the proper form to the import and Export Licensing Section (Board of Trade) the licence will be granted.

The telegrams should be addressed to "Orders, c-o Advantage, Stock, London." They should give in each case in addition to the name and postal or telegraphic address of the applicant the quantity and description of the goods comprised in the order and the name and address of the ultimate consignee if the goods are destined for a neutral country. In the case of orders from Allied or British Territory or from territory in the occupation of troops of the Associated Governments, the consignee need not be stated; and it will be sufficient merely to give the country of destination. A reply of 24 words (1/3) must be prepaid.

Applicants are requested in their own interest to confine their enquiries to orders needing a very urgent decision, since the fewer the enquiries the more promptly can answers be given.

Any subsequent correspondence that is necessary in connection with the telegraphic enquiries should be addressed to the Comptroller General, Department of Overseas Trade (Export Facilities Section), 35, Old Queen Street, Westminster, S. W. 1.

WIRELESS METEOROLOGICAL INFORMATION TO AND FROM SHIPS AT SEA.

General Remarks.

No. 122 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 478 of 1920), are republished :—

Former Notice—No. 8 of 1920 ; hereby cancelled.

1. It is earnestly hoped that all concerned will assist in making the wireless meteorological service a success. Negotiations are now in hand to extend and unify the system of collecting weather data by wireless from ships at sea all over the world, and at the same time to organise the free transmission of weather bulletins from a sufficient number of wireless stations to admit of ships being constantly supplied with reliable weather reports and forecasts wherever they may be.

2. It should be borne in mind that the needs of ships at sea in regard to information regarding the weather will march hand in hand with the requirements of aircraft. The importance of this service will therefore be constantly increasing and its success or failure will largely depend upon the co-operation of ships at sea in providing the data without which accurate forecasting is impossible. The matter does not depend solely upon the efforts of the ships selected to furnish the data. The essence of success lies in rapidity in passing such data by wireless from the ship to the coast station, and thence to the central meteorological office. It follows, therefore, that all ships not taking an active part in supplying data should use the greatest care not to interfere with the transmission of the wireless messages to the shore.

3. The following particulars refer to the scheme now being undertaken by the British Meteorological Office. This notice will, however, be subject to revision from time to time, and endeavours will be made to include in each revision all information available to date of the weather bulletins issued by the wireless stations of the world. Earnest endeavours are being made to obtain international agreement as to the form of these weather bulletins and to the methods and times of transmissions. It is hoped that the messages will eventually all be made in an international code at fixed times, so arranged that a ship with only one wireless operator will be able to read them. A similar scheme for time signals is being evolved.

Collection of Weather Data from Ships.

4. Certain ships are being asked to supply data regularly three times a day and in addition to the regular observations, which are taken at 0100, 0700 and 1300 Greenwich time and sent as soon as possible to Malin head (GMH) or Valentia (GCK) coast stations, these ships may, on request from either of these coast stations, send special data messages at other times.

5. Precise instructions as to the procedure for ships which intend to send a data message, together with the necessary code, will be issued at an early date.

Issue of Weather Bulletins to Ships.

6. A wireless *weather bulletin* may contain both or either of the following:—

(*a*) A *weather report*, which is an official statement of existing weather conditions; and-or

(*b*) A *weather forecast*, which is an official opinion of probable future weather conditions.

7. The accompanying schedule of wireless weather bulletins is intended to provide, in a form suitable to give all information required by the wireless operator, a complete and up-to-date list of all weather bulletins transmitted at fixed times by wireless stations throughout the world. The same information will be found in detail in the Sailing Directions and in the International List of Radiotelegraph Stations (the Berne List).

8. The times given in the third column of the schedule are expressed in the 4-figure notation employed for signalling during the war. The term "G.M.T." here means the civil mean time of the meridian of Greenwich with the day commencing at midnight and the hours reckoned from 00 to 23.

9. Operators are reminded that Article 45 of the International Service Regulations imposes the general obligation of not interfering with reception of weather bulletins by other ships.

10. Certain other stations not shown in the schedule supply weather bulletins *on demand*, generally at reduced charges. Particulars will be found in the Berne List.

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the wheat crop of Bengal, 1919-20.

(Note.—On an average of the five years ending 1917-18, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India.. The ratio of irrigated wheat acreage to total wheat acreage in (a) British India and (b) in the territory now reported on has, in the five years ending 1917-18, averaged (a) 40·7 per cent. and (b) 17·8 per cent, respectively).

Character of the season.—In the special forecast issued on the 8th April last, the weather was reviewed up to March, when most of the crop was harvested. The subsequent dry weather has been favourable for threshing.

Area sown.—The total area sown this year is estimated at 116,100 acres against 114,600 acres (revised) last year.

Outturn.—The estimated percentages of outturn as returned by the district officers in the important wheat-growing districts are as follows :—Nadia 67. Murshidabad 75, Pabna 50 and Malda 90.

The provincial outturn works out to 78 per cent. of the normal against 61 per cent. last year.

Taking the normal yield to be 8½ maunds per acre, the total yield for the province is estimated at 28,300 tons against 21,800 tons last year.

At the end of April, the average wholesale price of wheat at the principal marts of the province was Rs. 6-15 per maund or about the same as at the corresponding period of last year and about 38 per cent. higher than at the same period in 1918. The average wholesale price of common rice at the principal marts, on the other hand, was Rs. 7-6 per maund at the end of April this year or about 15 and 114 per cent. higher than the prices ruling at the corresponding period last year and in the year preceding respectively.

Offg. Director of Agriculture, Bengal.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR APRIL 1920.

I. **Character of the season.**—Excepting in the districts of Rangpur and Mymensingh, where it was a little in excess of the normal, the rainfall during the month was in defect throughout the Province. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Harvesting of spring crops was almost finished. Preparatory tillage for jute, paddy and other autumn crops was proceeding in some West Bengal districts, the progress being slow in places owing to want of sufficient rain. Sowings of jute and lowland paddy were progressing satisfactorily; the operation was well advanced in Eastern Bengal during the latter half of the month where weeding had also commenced.

III. **State of standing crops.**—Summer rice and other standing crops suffered from rain, accompanied in places with hail, in the districts of Midnapore, Rangpur, Dacca, Mymensingh, Tippera and Noakhali: elsewhere the standing crops were in fairly good condition, though a little more rain would have much facilitated their growth in the West Bengal districts.

IV. **Prospects and probable outturn.**—The prospects of standing crops were generally hopeful. The spring oilseed crops for the Province have yielded an outturn of about 76 per cent. of the normal and the wheat crop about 78 per cent.

V. **Damage to standing crops.**—Some damage to summer rice and other standing crops by rain and hail was reported from parts of Midnapore, Rangpur, Dacca, Mymensingh, Tippera and Noakhali.

VI. **Condition of agricultural stock.**—Excepting in the districts of Jessore, Burdwan, Bankura, Howrah, Bogra, Dacca, Faridpur, Chittagong and the Chittagong Hill Tracts, cattle-disease was reported from most parts of the Province.

VII. **Failure of pasturage and fodder.**—The supply of fodder was sufficient throughout the Province.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 13th May 1920.

Summary.—The rainfall during the week was generally heavy in the Dacca and Chittagong divisions and light to moderate elsewhere. It has improved the prospects of standing crops especially in the Eastern and Northern Bengal districts and has facilitated the ploughing and sowing of jute and autumn paddy in the Western Bengal districts. Weeding of jute and autumn paddy is proceeding satisfactorily in the Eastern Bengal districts. The average price of common rice for the province has risen by about 2·67 per cent. as compared with that of the previous week.

18. The board shall cause to be prepared before each date fixed for payment a register in form C showing the names of dafadars and chaukidars to be paid, the rate and amount of salary due to each, the period for which payment is to be made, and the amount of fine, if any, to be deducted from the salary of each.

19. Upon the date fixed all dafadars and chaukidars shall attend the board's office, and the president shall arrange for the distribution of their pay to them there.

20. The pay parade shall be conducted by the president of the board or, when he is incapable of conducting it, by any other member of the board, hereinafter referred to as the presiding member, deputed by the president in this behalf.

21. The presiding member shall in the first place ascertain whether any salary is owing to any dafadar or chaukidar for the period preceding that under payment, and shall first pay off any such salary which he finds to be due. Having done this, he shall then proceed to make payment for the current period.

22 All payments shall be made in cash and in full; and no payment shall be made to any payee for less than the sum due to him in respect of the period for which salaries are being paid. No admission of a payee of having received any pay in advance shall be accepted.

23. The amount of fine due from a dafadar or chaukidar shall be realised from him by the presiding member immediately after the payment of the salary due to him. No fine shall be realised otherwise than at the time of payment of salary.

24. All payments (less the amount of fine realised) and all realisations of fine shall be noted in the acquittance rolls of the payees, which shall be kept in form D, and shall be then and there signed and dated by the presiding member.

25. All such payments and realisations shall likewise be entered then and there by the presiding member in the board's payment register in form C.

26. If any dafadar or chaukidar is not paid, the fact and the grounds for non-payment shall be noted against his name in the remarks column of the payment register by the presiding member.

27. If any dafadar or chaukidar is absent from the pay parade, the amount due to him shall be kept in deposit in the board's office and paid to him in the presence of a member of the board on the first convenient opportunity That member shall attest the payment in the payee's acquittance roll and in the payment register.

28. After paying their salaries to all the dafadars and chaukidars present, the presiding member shall distribute any rewards which have been sent to the board for distribution.

29. As soon as the pay parade is over, the board shall send to the nearest treasury for credit to the district chaukidari reward fund the total amount realised as fine accompanied by a chalan in triplicate for the sum total of the fines realised, upon which shall be endorsed the details of the realizations made. Of the two copies of the chalan which will be returned by the treasury, one copy shall be forwarded to the circle officer and one filed in the board's office.

The circle officer shall grant receipts for the same to the board in form G.

34. The circle officer, when he receives a consignment of equipment, shall forward it to the board concerned with an invoice in form H, in which Part I shall be filled up and signed by the circle officer and the board shall distribute the equipment at the next pay parade. When distribution has been completed, the union board shall fill up Part II and return the invoice (form H) to the circle officer.

37. A chaukidar shall not be taken away from his beat for miscellaneous or other work except in cases of special urgency or when he is required to guard or escort a prisoner. The president shall determine by which dafadar or chaukidar each process shall be served, and shall endorse upon each the name of the dafadar or chaukidar who is to serve it. Orders and Notifications by the Government of India.

The following notifications, issued by the Government of India in the Home Department, published in the *Gazette of India, Extraordinary*, dated the 15th May 1920, are republished for general information.

H. L. STEPHENSON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATIONS.

Simla, the 15th May 1920.

No. 1158.—The following Message from His Excellency the Viceroy to the Muslim People of India, is published for general information :—

MESSAGE.

"Today the decisions of the Supreme Council of the Allies in respect of the peace settlement with Turkey have been made known to the world. They have been reached after the most careful and anxious consideration of representations from the Muslims of all countries, and you have my assurance that before coming to its present decisions the Supreme Council has had all possible regard to those representations which have proceeded from the Muhammadan subjects of His Majesty in India. My Government are issuing along with a summary of the peace terms a statement which explains the principal decisions and the reasons for them. These decisions are in full accordance with the high principles which have been applied in the peace settlements with all other powers lately at war with Britain and her Allies. Nevertheless, they include terms which I fear must be painful to all Muslims. The long delays which have protracted your anxiety for over a year, although they have been unavoidable, have filled me with regret for your sakes, and now in your hour of trial I desire to send you a message of encouragement and sympathy, which I trust will uphold you. In the day of the Empire's need you made a splendid response to the call of your King and country, and by so doing you contributed much to the triumph of those ideals of justice and humanity for which the Allies fought. The Empire of which you form a part is now firmly established on these ideals, and a great future of political progress and material prosperity is within the grasp of the Muslims of India who have ever enjoyed under British Rule the fullest religious freedom. Before the late disastrous war Great Britain had always maintained the closest ties of friendship with Turkey, and I am confident that with the conclusion of this

new treaty that friendship will quickly take life again, and a Turkey, regenerate, full of hope and strength, will stand forth in the future as in the past a pillar of the Islamic faith. This thought will, I trust, strengthen you to accept the peace terms with resignation, courage and fortitude and to keep your loyalty towards the Crown bright and untarnished as it has been for so many generations."

GOD SAVE THE KING EMPEROR.

CHELMSFORD,
Viceroy and Governor General of India.

The 15th May 1920.

No. 1159.—1. The following are the principal conditions of the Peace Terms which have been communicated by the Allies to Turkey :—

(1) The frontiers of Turkey will be as already demarcated and, where necessary, revised by a boundary commission to be created. According to this delimitation, Turkey will include the Constantinople sector of Thrace and all the predominantly Turkish areas of Asia Minor.

(2) The rights and title of the Turkish Government in Constantinople will not be affected, but the right to modify this provision is reserved in the event of the failure of Turkey faithfully to fulfil the Treaty.

(3) A Commission of the Straits will have authority over all waters between the Mediterranean mouth of the Dardanelles and the Black Sea mouth of the Bosphorous and of the waters within three miles of each of these months, also on the shores to such extent as may be necessary. The duty of the Commission will be to ensure freedom of navigation in these waters in peace and war.

(4) A scheme of Local Self-Government will be drafted for Kurdistan, including provision for the protection of Assyro-Chaldean and other minorities. The League of Nations will decide later whether Kurdistan should be granted independence of Turkey if it be proved that separation is desired by the majority of the Kurdish people.

(5) Certain portions of Smyrna are formed into a separate unit to be administered by Greece, the suzerainty of Turkey being continued for a period of years till the autonomous State of Smyrna decides its own destiny.

(6) With the exception of the Constantinople sector, Eastern Thrace is ceded to Greece, provision being made for the local self-government of the town of Adrianople.

(7) Certain portions of the Armenian districts of Turkey are added to the existing Armenian Republic, the boundary between Turkey and Armenia in certain districts being referred to the arbitration of the President of the United States, whose decision will be final thereon and on any stipulation regarding Armenian access to the sea.

(8) Syria, Mesopotamia and Palestine are provisionally recognized as independent States subject to administrative advice and assistance from a mandatory Power until such time as they are able to stand alone. The mandate for Syria has been entrusted to France and those for Mesopotamia and Palestine to Britain. The mandate for Palestine will include the provision for giving effect to the declaration of November 8th, 1917, regarding the establishment of a national home for the Jewish people.

(9) The Hedjaz is recognized as a free and independent State. The King of Hedjaz undertakes to assure free and easy access to Mecca and Medina to Muslim pilgrims of all countries.

(10) Turkey relinquishes all rights and titles over Egypt, the Sudan, and Cyprus.

(11) Turkey recognises the French protectorate over Morocco and Tunis.

(12) Turkey renounces her claims to certain islands in the Aegean.

(13) The military, naval, and air forces at the disposal of Turkey will consist of the following :—

(*i*) The Sultan's Bodyguard at Constantinople;
(*ii*) A troop of gendarmerie for the maintenance of internal order and security and the protection of minorities;
(*iii*) Special elements for reinforcement of the Gendarmerie and eventual control of the frontiers.

The bodyguard is limited to 700 and the Gendarmerie with special elements to 50,000.

All warships interned in Turkish ports are declared to be finally surrendered.

The Turkish fleet is limited to 6 torpedo boats and 7 sloops.

No military or naval air forces or dirigibles are to be maintained.

(14) Control will be maintained over the finances of Turkey until the discharge of her international obligations has been assured.

(15) Freedom of navigation and transit is secured. The following ports are declared international ports, provision to be made for free zones in each—Alexandretta, Basrah, Batoum, Constantinople, Dedeagatch, Haifa, Haidar Pasha, Smyrna and Trebizond.

In addition to the above, there are numerous provisions regarding :—

(16) (*a*) League of Nations, (*b*) Protection of Minorities, (*c*) Restoration of abandoned property rights, (*d*) Prisoners of War, (*e*) Graves of Allied soldiers, (*f*) Punishment of war criminals, (*g*) Economic questions and concessions, (*h*) Labour conventions, and (*i*) Antiquities, but it is not necessary to detail these in the present statement.

2. However much they may regret some of these decisions Indian Muslims must feel satisfaction in knowing that the settlement has been greatly influenced by their representations. When replying to the Khilafat deputation on the 29th January last, His Excellency the Viceroy gave an account of the steps which had been taken by the Secretary of State and himself from the date of the armistice onwards to represent to His Majesty's Government the views of Indian Muslims, especially with regard to the holy places in the Hedjaz and the future of Constantinople, and to secure that their representations should receive a full hearing from the Supreme Council of the Allies. After that date the representatives of the All-India Khilafat Conference were given every facility and assistance by the Government of India to lay their case before the Prime Minister and the strength of Indian Muslim feeling in the matter has been impressed upon His Majesty's Government in frequent communications made to the Secretary of State. The Prime Minister replying to the Khilafat Deputation assured the Muhammadans of India that their case had been presented with great force and had been examined with conscientious care not merely by the delegates of the British Empire, but also by the Supreme Council of the Allies. And in fact the representations made by Indian Muhammadans did materially influence the final decision. It is well known that there was a great and strong body of public opinion both in England and America which favoured the removal of the Turkish capital from Constantinople to Asia Minor, and that such counsels did not prevail is in no small measure due to the knowledge how keenly Indian Moslem opinion was opposed to this step. Indian Moslems have therefore the satisfaction of knowing that largely out of deference to their feelings and the representations of the Government of India, Constantinople was saved for the Turkish Empire as its capital.

3. The Governor General in Council would next like to advert to the allegation which is sometimes made that British policy has ever been in the past unfriendly to Turkey. For this statement there is no foundation. It is unnecessary to refer to the ancient friendship between the two countries, proved by the entry of Britain on the side of Turkey in the Crimean war and by all her subsequent efforts to preserve the integrity of the Ottoman Empire. The forbearance which Britain displayed and the provocation which Turkey under the domination of German influences and the leadership of the Committee of Union and Progress gave, before war was declared, were fully explained in the communiqué issued by the Government of India in October 1914. It was Turkey which broke the traditional friendship with Great Britain. In his reply to the Khilafat Deputation the Prime Minister made it absolutely clear that Britain had no understanding of any sort or kind with Russia to the detriment of Turkey when the war began. In fact Britain sought to deter Turkey from entering the war by giving her the most complete assurances that if she maintained neutrality, Britain would see that at the conclusion of peace no conditions would be laid down which would impair her independence and integrity, and that economic conditions of a character favourable to Turkey would be obtained. In spite of all these assurances Turkey took the fatal step of entering the war on the side of Germany, and against her ancient Ally.

4. It is most important that there should be no misunderstanding as to the attitude of Government towards the question of the Khilafat. The

Government of India repeat again that the question of the Khilafat is one for Muhammadans, and Muhammadans only, to decide, and that with their free choice in this matter, Government have no desire to interfere. But they cannot acquiesce in the statement which is now made that the Khilafat of the Ottoman Sultan has remained unchanged in its temporal attributes for thirteen centuries or that it implies any temporal allegiance on the part of Indian Muslims. These are propositions which are contrary to history. The temporal power associated with the Khilafat has undergone the most violent fluctuations during the last thirteen centuries. It has covered the whole of the dominions embraced in the Saracenic Empire when that was in the fullness of its glory. On the other hand it was reduced to nothing for over two centuries when the Khalifa was the mere spiritual Head of Islam under the Mameluk dynasty of Egypt. With the transference of the Khilafat to the Ottoman dynasty, the temporal power of the Khalifa has waxed and waned with the extent of the Ottoman Empire, but the essence of the Khilafat remained unaltered and cannot now be affected by any present change in the boundaries of that Empire. Nor, also, so far as Indian Moslems are concerned, is there any historical basis for the claim that the Khilafat implies any temporal allegiance on their part to the Sultan of Turkey. Any such theory of divided allegiance would be subversive of the constitutional basis on which all Governments rest.

5. It is also a mistake to suppose that the war was a religious one or that the terms of peace have been influenced in any way by religious considerations. The Muslims of India recognized this first proposition very clearly five years ago. The war was one between Christian powers and the alliance of Turkey with a Christian power places this beyond doubt. As to the second the peace conference has applied the same principles to all autocratic empires, Muslim and Christian alike The Empire of Austria-Hungary has lost over two-thirds of its dominions and three-fourths of its population. Heavy as Turkey's losses are they fall far short of these. And although it is true that Turkish sovereignty has been confined to areas within which Turks predominate, Indian Muhammadans must remember that the independence of their Arab co-religionists remains intact throughout a very large proportion of the remainder of the former Ottoman Empire and that the only areas which have been removed entirely from Muslim control are the comparatively small areas of Armenia, Thrace and Smyrna, in each of which according to pre-war statistics the population was predominantly non-Muslim.

6. Again it has been said that the settlement is a breach of the promise or offer made by the Prime Minister in his speech of January 1918 when he said: "Nor are we fighting to destroy Austria-Hungary or to deprive Turkey of its capital or of the rich and renowned lands of Asia Minor and Thrace which are predominantly Turkish in race." This passage must however be read with its context, for Mr. Lloyd George continued, "While we do not challenge the maintenance of the Turkish Empire in the home-lands of the Turkish race with its capital at Constantinople—the passage between the Mediterranean and the Black Sea being internationalized and neutralized—Arabia, Armenia, Mesopotamia, Syria and Palestine are, in our judgment, entitled to a recognition of their separate national conditions."

The peace terms now published fulfil this offer or promise, for her home-lands which are predominantly Turkish in race have been left to Turkey and those portions of Thrace and Smyrna which have been separated have been treated in accordance with the principle of nationality. This is a principle which has been followed in all the other Treaties of peace. The Supreme Council decided that the Turks had forfeited their title to rule over the majorities of other races and that these majorities should be joined to their own national states. Both in Thrace and in Smyrna the Muslim population before the war was in a minority. In 1914 and 1915 the Turkish Government carried out a systematic deportation of the non-Muslim population from these areas and the statistics of to-day cannot therefore be made a reason for retaining them under Turkish rule. In Thrace the sector of Constantinople where Turks predominate, has been conserved to Turkey. The rest of Thrace was predominantly Greek in 1912 and has therefore been united with Greece. There is no doubt that Adrianople is predominantly Turkish, but it is only an island of Turks separated from the Constantinople sector by a region predominantly Greek. It is impossible to separate an island such as this from the territories by which they are surrounded, and therefore in accordance with the universal practice of the Peace Council in

the rest of Europe it has been treated as part of Thrace subject to an arrangement which ensures a system of local self-government and guarantees proper representation to the Turkish majority in Adrianople. Similarly in Smyrna the majority of the people are definitely Greek and Armenian but the area transferred has been cut down to the minimum suitable for separate administration. The suzerainty remains with Turkey and the districts concerned will eventually decide their own destiny by vote. The port of Smyrna will be free, Turkey will have freedom of transit and there will be a separate department for the Turkish minority.

7. It is unnecessary to refer at length to the reasons which have led the Allies to insist upon the internationalization and neutralization of the Straits between the Mediterranean and the Black Sea. Its opening to Germany and its closure against the British in 1914 had disastrous effects in prolonging the great war with all its bloodshed and misery. This great waterway of the world must remain in future open to the free commerce of all nations.

8. The maintenance of some control over the finances of Turkey to safeguard international obligations is no new proposal as for years such control has been exercised for the administration of the Ottoman debt. This necessity has become all the greater now that the debt has increased from 160 millions to nearly five hundred millions, while Turkish territory has decreased. The new states formed out of Turkey and the ceded territories will bear a proportion of the pre-war debt. There are provisions granting to Turkey a consultative voice in the Financial Commission and for termination of the Commission when her obligations have been discharged.

9. The provisions regarding the army and navy of Turkey require little comment. The reduction of the Turkish army is in accordance with the arrangements which have been made for the general disarmament of the other powers lately at war with the Allies. Turkey had no effective navy before the war and this condition is maintained.

10. Of more interest to Muslims in India are those provisions which concern the portions of the former Turkish Empire where their Arab co-religionists preponderate. The absolute independence of Arabia is recognised. For generations the Arabs have suffered from the misrule of the Turks and it is unreasonable to ask that the Arab populations which have claimed independence of Turkey and have fought side by side with the Allies to secure their independence should be replaced by the Allies under Turkish rule. As the Prime Minister pointed out to the Khilafat Deputation, it would be unjust to deprive the Arabs of their independence merely because they are Muhammadans and co-religionists of the Turks. "We are applying" he said "exactly the same principles in Christian places, and to impose the dominion of the Sultan upon Arabia, which has no desire for it, is to impose upon Arabs something which we certainly would not dream of imposing upon Christian communities."

11. Similar considerations apply to Kurdistan of which the right to local autonomy is provisionally recognized, and to those areas in Asia, over which mandates have been intrusted by the Peace Conference to Britain and France, that is to say, Palestine, Mesopotamia and Syria. It cannot be too clearly understood that in all these three cases the mandates have been granted for a specific purpose and for a temporary period. The immediate application to these areas of the principle of nationality would spell chaos and anarchy; and the work of the mandatory powers is to assist the local inhabitants with administrative advice and help, until such time as they are fit to take over with success the business of administration without outside assistance. Islam will not be weakened by these arrangements and the two great Powers, to whom these mandates have been confided, include within the limits of their empires a very large proportion of the total Muslim population of the world—a guarantee that the interests and rights of the Muslims of these areas will be fully respected.

12. In the countries of Arabia, Irak and Palestine are situated the holy places of Islam with which all Muslims are profoundly concerned. When the war bagan the Allies gave a solemn pledge that the holy places would remain inviolate. This pledge has been observed in the spirit and in the letter during the actual occupation by His Majesty's forces of the territories in which some of the holy places are situated and steps have been taken to ensure their strict sanctity. The city of Jerusalem was not attacked as has been stated, but surrendered without violence offered or attempted, after it had been isolated in the course of operations against enemies armed in

the field. The fullest measures were straightway taken to preserve the sanctity of the holy places within it, and the city which is in itself as sacred to Christians as to Muslims was entered by the victorious British General on foot. The Muslim shrines continue as before in the hands of their own Muslim custodians. In Mesopotamia the holy places of Kerbala and Najaf were never attacked and no acts of war were committed there by our troops. The scrupulous forbearance of His Majesty's soldiers was gratefully acknowledged by the inhabitants themselves. The unopposed occupation of Baghdad as of Jerusalem involved no attack on the Holy Places, but was an inevitable incident in the field operations of the war. The shrines in these three sacred places of Mesopotamia are now in the custody of a distinguished Muslim whose charge of them is an ample assurance that their sanctity will continue to be fully respected. The British forces have conducted no operations whatever in the Hedjaz and any reports that Mecca or Medina has been entered by British troops are utterly without foundation. These places are entirely under Arab control.

13. There remains the case of certain Armenian districts whose incorporation in the adjoining Armenian Republic is a direct consequence of Turkish misrule and of the application to this area of the principle of nationality. The cruelties perpetrated on the Armenians in the shape of massacre and deportation admit of no doubt. The story has been proved by independent and reliable witnesses and it is established beyond dispute that during the year 1915 at least 600,000 Armenians were destroyed. The facts were indeed admitted by the Turkish emissaries in Paris who represented the Turkish Government and their sole excuse was that the Committee of Union and Progress who are in power at the time were responsible for the massacres.

14. In these explanations of the Turkish Peace terms, the Governor-General in Council does not speak for His Majesty's Government. He has utilized such information as has come into his possession, and has attempted to explain the terms with special reference to their bearing on Indian Muslim sentiments. He has stated all the facts, nothing being mitigated and nothing overstated. He recognises that in spite of all explanations the terms of the peace settlement with Turkey are such as must cause pain to the Muhammadans of India. Indian Muslims must brace themselves to bear with patience and resignation the misfortunes of their Turkish co-religionists. The situation is one which calls for clear vision and a resolve to build a better future on the wreck of the past. Above all the world needs peace and goodwill. It is a matter of supreme necessity for all men to work towards this end and those who at this critical time arouse religious passions are enemies not only of India but of mankind.

(*4*) No application for withdrawal shall be granted, if the Commissioners are of opinion that such application has been induced by any bargain or consideration which the Commissioners consider ought not to be allowed.

(*5*) If the application is granted—

(*a*) the petitioner shall be ordered to pay all or such portion of the costs of the respondent theretofore incurred as the Commissioners may think fit;

(*b*) such withdrawal shall be reported to the Governor-General who shall publish notice thereof in the *Gazette of India*; and

Recrimination when seat claimed.

12. Where at an inquiry into an election petition any party thereto, other than the returned candidate, claims the seat for himself, the returned candidate or any other party may give evidence to prove that the election of such party would have been void in the same manner as if he had been the returned candidate and a petition had been presented complaining of his election.

Attendance of Law Officers.

13. When at an inquiry into an election petition the Commissioners so order, the Advocate-General or some person acting under his instructions shall attend and take such part therein, as they may direct.

Grounds for declaring election void.

14. (*1*) Save as hereinafter provided, in this rule, if in the opinion of the Commissioners—

(*a*) the election of a returned candidate has been procured, or induced, or the result of the election has been materially affected by a corrupt practice specified in Part I or II of Schedule IV, or

(*b*) any corrupt practice specified in Part I of Schedule IV has been committed, or

(*c*) the result of the election has been materially affected by any irregularity in respect of a nomination paper, or the improper reception or refusal of a vote, or by any non-compliance with the provisions of the Act or the rules or regulations made thereunder, or by any mistake in the use of any form annexed thereto,

the election of the returned candidate shall be void.

(*2*) If the Commissioners report that a returned candidate has been guilty by an agent (other than his election agent) of any corrupt practice specified in Part I of Schedule IV which does not amount to any form of bribery, other than treating as hereinafter explained, or to the procuring or abetment of personation, and if the Commissioners further report that the candidate has satisfied them that—

(*a*) no corrupt practice was committed at such election by the candidate or his election agent and the corrupt practices mentioned in the report were committed contrary to the orders and without the sanction or connivance of such candidate or his election agent, and

(*b*) such candidate and his election agent took all reasonable means for preventing the commission of corrupt practices at such election, and

(*c*) the corrupt practices mentioned in the said report were of a trivial, unimportant and limited character, and

(*d*) in all other respects the election was free from any corrupt practice on the part of such candidate or any of his agents,

then the Commissioners may find that the election of such candidate is not void.

Explanation.—For the purpose of this proviso "treating" means the incurring in whole or in part by any person of the expense of giving or providing any food, drink, entertainment or provision to any person with the object, directly or indirectly, of inducing him or any other

person to vote or refrain from voting or as a reward for having voted or refrained from voting.

Report of Commissioners and procedure thereon.

15. (*1*) At the conclusion of the inquiry, the Commissioners shall report whether the returned candidate or any other party to the petition who has under the provisions of these rules claimed the seat has been duly elected, and in so reporting shall have regard to the provisions of rule 14.

(*2*) The report shall be in writing and shall be signed by all the Commissioners. The Commissioners shall forthwith forward their report to the Governor-General who, on receipt thereof, shall issue orders in accordance with the report and publish the report in the *Gazette of India*, and the orders of the Governor-General shall be final.

Form of report.

16. If either in their report or upon any other matter there is a difference of opinion among the Commissioners, the opinion of the majority shall prevail, and their report shall be expressed in the terms of the views of the majority.

Findings as to corrupt practices and persons guilty thereof.

17. Where any charge is made in an election petition of any corrupt practice, the Commissioners shall record in their report—

(*a*) a finding whether a corrupt practice has or has not been proved to have been committed by any candidate or his agent or with connivance of any candidate or his agent and the nature of such corrupt practice, and

(*b*) the names of all persons (if any) who have been proved at the enquiry to have been guilty of any corrupt practice and the nature of such corrupt practice, with any such recommendations (if any) as they may desire to make for the exemption of any such persons from any disqualification they may have incurred in this connection under the rules.

Excess contributions in case of emergency.

17. In cases of emergency the local Government of any province may be required by the Governor General in Council, with the sanction of, and subject to conditions approved by, the Secretary of State, to pay to the Governor General in Council a contribution for any financial year in excess of the amount required by the preceding rules in the case of that year.

Priority of contributions.

18. The contributions fixed under the preceding rules shall be a first charge on the allocated revenues and moneys of the local Governments concerned, and shall be paid in such instalments, in such manner, and on such dates, as the Governor General in Council may prescribe.

Withdrawal of balances.

19. At any time when he considers this course to be essential in order to preserve the financial stability of India, the Governor General in Council shall have power to require a local Government so to regulate its programme of expenditure as not to reduce the balance at its credit in the public account on a specified date below a stated figure. Subject to this power, local Governments shall be at liberty to draw on their balances, provided that notice of the amount which they propose to draw during the ensuing financial year is given to the Governor General in Council before such date in each year as the Governor General in Council may by order fix.

Interest on provincial balances.

20. Whenever the Governor General in Council has, on receipt of due notice of the intention of the local Government to draw on its balances, required it to reduce the extent of the proposed draft, he shall, at the end of the financial year

in which the local Government is debarred from drawing, credit the local Government with interest on the amount which it was not permitted to draw. Such interest shall be a charge on the revenues of India and shall be calculated at the average rate at which the Governor General in Council has borrowed money in the open market during the year by the issue of treasury bills.

Provincial Loan Account.

21. Any moneys which, on the first day of April 1921, are owed to the Governor General in Council on account of advances made from the provincial loan account of any province shall be treated as an advance to the local Government from the revenues of India, and shall carry interest at a rate calculated on the average rate carried by the total amount owed to the Governor General in Council on this account on the 31st March 1921. The interest shall be payable upon such dates as the Governor General in Council may fix. In addition, the local Government shall pay to the Governor General in Council in each year an instalment in repayment of the principal amount of the advance, and this instalment shall be so fixed that the total advance shall, except where for special reasons the Governor General in Council may otherwise direct, be repaid before the expiry of twelve years. It shall be open to any local Government to repay in any year an amount in excess to the fixed instalment.

Capital expenditure on irrigation works

22. (*1*) The capital sums spent by the Governor General in Council upon the construction in the various provinces of productive and protective irrigation works and of such other works financed from loan funds as may from time to time be handed over to the management of local Governments shall be treated as advances made to the local Governments from the revenues of India. Such advances shall carry interest at the following rates, namely :—

(*a*) in the case of outlay up to the end of the financial year 1916-17, at the rate of 3·3252 *per centum* ;

Priority of interest charges.

24. The payment of interest on loans and advances made under the three preceding rules, and the repayment of the principal of an advance under rule 21, shall be a charge on the annual allocated revenues of the local Government, and shall have priority over all other charges, save only contributions payable to the Governor General in Council.

Powers of sanction.

25. (*1*) Subject to the rules contained in Schedule III, the local Government shall have full power to sanction expenditure on provincial subjects—

(*2*) Sanctions once given under clause (*a*) of sub-rule (*1*) shall remain valid for the specified period for which they are given subject to the voting of grants in each year.

Delegation of powers of sanction.

26. Any powers conferred by rule 25 upon the Governor in Council or the Governor acting with ministers may, after previous consultation with the Finance Department hereinafter referred to, be delegated, with or without conditions, to any officer subordinate to the local Government. 28. All proposals for raising taxation or for the borrowing of money on the revenues of a province shall be considered by the Governor with his Executive Council and ministers sitting together, but the decision shall thereafter be arrived at by the Governor in Council, or by the Governor and minister or ministers concerned, according as the proposal relates to a reserved or to a transferred subject.

Taxation and borrowing.

29. Expenditure for the purpose of the administration of transferred subjects shall, in the first instance, be a charge on the general revenues and balances of each province, and the framing of proposals for expenditure in regard to transferred and reserved subjects will be a matter for agreement between that part of the government which is responsible for the administration of transferred subjects and that part of the Government which is responsible for the administration of reserved subjects.

Allocation of revenues for the administration of transferred subjects.

30. If the Governor is at any time satisfied that there is no hope of an agreement being arrived at within a reasonable time as to the framing of proposals in regard to expenditure for reserved and transferred subjects respectively, he may by order in writing allocate the revenue and balances of the province between reserved and transferred subjects by specifying the fractional proportions of the revenues and balances which shall be assigned to each class of subject.

Procedure in event of failure to agree.

31. Every such order shall specify the period for which the allocation will remain in force. Such period shall be either the period of the office of the then existing Legislative Council or such longer period terminating at a date not later than one year after the expiration thereof as the Governor may determine. The Governor may, if he thinks fit, before making an order of allocation, refer the question of the allocation of the revenues and balances of the province for the report of such authority as the Governor General may appoint in this behalf and the Governor, if he so refers the matter, shall make his order in accordance with the terms of the report.

Period of order of allocation.

32. Every order of allocation made under these rules shall provide that, if any increase of revenue accrues during the period of the order on account of the imposition of fresh taxation, that increase, unless the legislature otherwise directs, shall be allocated in aid of that part of the Government by which the taxation is initiated.

Condition of order of allocation.

33. If at the time of the preparation of any budget no agreement or allocation such as is contemplated by these rules has been arrived at, the budget shall be prepared on the basis of the aggregate grants respectively provided for the reserved and transferred subjects in the budget of the year about to expire.
